6 All reply postcards of private manufacture shall display the title "Postcard" on the address side, but this title is not obligatory for single cards of private manufacture Reply-halves of reply-paid cards shall bear the words 'Postcard" and "Reply" Whatever is printed on the address side of the inland or international official postcards issued by the Post Office is also permissible on the address side of cards of private manufacture

(a) A postcard shall not be folded, cut or otherwise altered, except, that the impressed postage stamp (if any) may be perforated with initials, nor may a postcard be enclosed in a cover of any kind

(b) The right-hand half of the address-side of a postcard is in all cases reserved for the address of the recipient, for the postage stamp necessary for prepayment, which should,

so far as possible, be affixed in the upper right-hand corner, and for postal directions (such as "Registered," "Acknowledgment due" "Stamped," "Local," etc), but the left-hand half of the address side, as well as the back, may be used by the sender for the purpose of a written communication or may be otherwise disposed of, subject to the restrictions mentioned in sub-rule (2) of this rule

NOTE —A small space marked off by fine lines or minute dots to indicate the place where the postage stamp should be affixed is allowed on the upper right hand corner of the address side of postcards

(2) Nothing shall be attached to a postcard except—

(a) stamps in payment of postage or stamp duty,

(b) a gummed label [not to exceed 2 inches (in length) and ¾ inch (in width)], bearing the name and address of the person to whom the card is sent,

(c) a similar label, bearing the name and address of the sender of the card, and

(d) engravings, illustrations, drawings, and photographs on very thin paper and completely adherent to the card

The articles specified in paragraphs (c) and (d) may be affixed either to the back or the left hand half of the address side

(3) The reply halves of reply paid cards cannot be registered by the original senders of such cards

7 Should any of the conditions imposed by rules 5 and 6 be infringed, the postcard shall be treated as a letter

(b) Book packets

8 A book packet may contain any of the following articles —

(a) newspapers and publications of all kinds, books whether blank or printed, engraving, photographs, drawings, plans, maps, printed music and proof sheets with or without the manuscript relating thereto, blank paper parchment or card board, and generally, anything on paper, parchment or card board which is printed, engraved, lithographed, papyrographed or produced by any other mechanical process easy to recognise, except the copying press and the type writer

Provided that no card bearing the heading "Postcard" shall be allowed to be transmitted open by post as a book packet,

(b) business papers, written or drawn wholly or partly by hand, not being of the nature of a letter or having the character of a personal communication, such as deeds, bills of lading, invoices, accounts, proposals and policies of assurance, powers-of attorney, licenses, statistical returns submitted by or to public officers in their official capacities and manuscript of all kinds, including manuscript music not being of the nature of personal correspondence,

(c) written letters of old date which have previously passed through the post and served their original purpose,

(4) Liquids, oils and fatty substances easily liquefied shall be enclosed in glass bottles hermetically sealed Each bottle shall be placed in a wooden box furnished with saw dust cotton, or some spongy material in sufficient quantity to absorb the liquid in case the bottle be broken Finally, the box itself shall be enclosed in a case of metal, or of wood with a screw top, or of a strong and thick leather

Explanation.— When use is made of perforated wooden blocks of the thickness of at least $\frac{1}{10}$th of an inch in the weakest part with a sufficient quantity of absorbent material inside and provided with a cover, the blocks need not be enclosed in a second case

(5) Fatty substances which are not easily liquefied, such as ointments, soft soaps resins, etc, shall be enclosed in an inner cover (box, bag of linen or parchment, etc), which shall itself be placed in a second box of wood, metal or strong and thick leather

(6) Dry powders, whether dyes or not, shall be placed in card-board boxes, which themselves shall be enclosed in a bag of linen or parchment

(7) Live bees shall be enclosed in boxes so constructed as to prevent all danger and to allow the contents to be ascertained

17 If a pattern packet is found to contain anything not permitted by the rules or to be in excess of the prescribed size or weight, or to be packed in a manner not in accordance with the rules, it shall be charged on delivery with letter or parcel postage, whichever may be less Any postage stamps that may be affixed to it shall however, be recognised in assessing the charge

(2) If a packet containing samples of any of the articles mentioned in clauses (3) to (7) of rule 16 is not packed in the manner prescribed therein it shall not be forwarded

(d) *Registered newspapers*

18 Newspapers as defined in section 9 of the Indian Post Office Act, 1898 (hereinafter referred to as " the Act "), shall be transmitted by post as registered newspapers, provided that they are posted in accordance with the following conditions —

(a) The newspaper shall be registered in the office of the Postmaster General or officer exercising the powers of the Postmaster General, of the postal circle in which it is published Such registration shall cease to have effect at the close of the calendar year following that in which it was effected, and must be renewed if a continuance of the privilege conferred by the system beyond that time is desired

(b) The postage shall be prepaid by postage stamps

(c) The newspapers shall bear in print immediately above the address the word "Registered" followed by the registration number which shall be assigned to it by the Postmaster General, or other officer referred to in condition (a)

(d) The newspaper shall be posted at the place of publication by the proprietor, manager, or publisher

(e) The newspaper shall be posted without a cover or in a short cover open at the ends

(f) There shall be no word printed on the newspaper after its publication or upon the cover (if any) thereof, nor shall any writing or mark be made upon it or upon the cover (if any) thereof, except the name and address of the person to whom it is sent, and, if desired, the name and address of the newspaper, or of the sender

(g) There shall be no paper or thing enclosed in or with any such newspaper other than an extra or supplement as specified in section 9 of the Act

(2) Nothing in this rule shall be held to prevent newspapers being transmitted by post, either singly or otherwise, at the rates, and under the condition prescribed for book packets

(e) Parcels

19 A parcel may contain one (but shall not contain more than one) written communication of the nature of a letter, or having the character of a personal communication

Provided that the communication shall be addressed only to the addressee of the parcel itself

20 A parcel shall not exceed 440 tolas in weight, unless it is registered, in which case the weight shall not exceed 25 seers (2,000 tolas) A parcel shall not be of a kind which, owing to size, shape manner of packing, or any other cause, cannot be carried by post without serious inconvenience or risk

21 A parcel shall be packed and enclosed in a reasonably strong case, wrapper, or cover, fastened in a manner calculated to preserve the contents from loss or damage in the post, to prevent any tampering therewith, and to protect other postal articles from being damaged in any way thereby

(2) Liquids and substances which liquefy easily shall be despatched in a double receptacle Between the first receptacle (bottle, flask, pot, box, etc) and the second (which shall be a box of metal or of strong wood) some space shall be left to be filled with saw-dust, bran, or some other absorbing material

(3) Live bees shall be enclosed in suitable cases and so packed as to prevent all risk of injury to other postal articles in course of transmission by post or to officers of the Post Office

(a) The suspected *viscus* or other material to be sent for examination shall be enclosed in a glass bottle or jar, fitted with a stopper or sound cork

(b) Great care shall be taken that the stopper or cork of the bottle fits tightly This precaution is specially necessary when alcohol is used as a preservative, in such cases a ring of bee's wax or candle-wax shall be placed round the lip of the bottle so as to cover the shoulder of the stopper The stopper shall be carefully fastened down with bladder or leather and sealed

(c) The glass bottle or jar shall then be placed in a strong wooden or tin box, which shall be large enough to allow of a layer of raw cotton, at least three fourths of an inch thick, being placed between the bottle or jar and the box.

(d) The box itself shall be encased in cloth, which shall be securely closed and sealed The seals shall be at intervals not exceeding three inches along each seam All the seals shall be of the same kind of wax and shall bear distinct impressions of the same device The device shall not be that of a current coin or merely a series of straight, curved or crossed lines

23 Cultures or other articles known or believed to contain the living germs of plague may be transmitted by the inland post subject to the following conditions —

(a) Such cultures or other articles aforesaid shall not be accepted for transmission unless they are sent by a Commissioned Medical Officer, a Military Assistant Surgeon or a Medical Practitioner in possession of a qualification not lower than of L M S of the University of Calcutta, the Punjab, Madras or Bombay, or by a person specially permitted by the Governor-General in Council or a Local Government to send such cultures or other articles, nor unless they are consigned to a Government Laboratory, or to a person specially permitted by the Governor-General in Council, or a Local Government, to receive such cultures or other articles

(b) The cultures or other articles aforesaid shall be securely packed in a hermitically closed tin of adequate strength which shall be placed in a strong outer box of wood or tin with a layer of at least three-quarters of an inch of raw cotton-wool between the inner and outer case

(c) The outer case shall be enclosed in a stout cloth, which shall be securely fastened and sealed and labelled with such distinguishing inscription as will suffice to make immediately manifest the nature of the contents

(d) The sender shall present the parcel at the post office accompanied by a declaration as to the nature of its contents, and a certificate signed by himself to the effect that he has advised the addressee of its despatch, and that such addressee, if the parcel should not be addressed to a Government Laboratory, has been specially permitted by the Governor General in Council, or a Local Government, to receive such cultures or other articles The certificate, moreover, shall show on its face that the sender is a person, authorised within the meaning of clause (a) of this rule to send such cultures or other articles

(2) No parcel other than those referred to in the above rule shall be accepted for transmission by post, when tendered at a post office within a plague infected area, unless it bears upon its cover or upon a label to be attached to the parcel a declaration, signed by the sender of the parcel, to the following effect —

"This parcel does not contain any soiled linen, rangs or waste paper"

24 The postage on a parcel shall be fully prepaid by means of postage stamps which shall be affixed either to the cover of the parcel or to an official label which can be obtained free at the post office In either case, the sender or his messenger shall affix the stamps himself, postal officials being strictly forbidden to affix them

25 Every parcel intended for transmission by post shall be presented at the window of the Post Office Any parcel found in a letter-box shall be treated and charged as a registered parcel

(2) If a parcel containing any of the articles mentioned in clauses (2) and (3) of rule 21 is not packed in the manner prescribed therein, it shall not be forwarded

(f) Re-direction of postal articles

26 A postal article re directed to any place served by the Inland post by an officer of the Post Office or by an agent of the addressee after its delivery shall be transmitted by post free of charge in respect of such further transmission —

Provided that—

(a) in the case of an unregistered article re-directed by an agent of the addressee, the article has not been opened and has been either returned to the postman or re posted at the place of delivery, and

(b) in the case of a registered article re-directed by an agent of the addressee,—the article has not been opened and has been returned to the postman at the place of delivery with the receipt unsigned

(2) Where a postal article is re-directed to any place under the first paragraph of this rule, the postmaster at such place may, if authorised by a general or special order in this behalf issued by the Postmaster General require the addressee of the re-directed article to give, at the time of delivery, a receipt for such article

27 A postal article re-posted after having been opened, or re-posted at any place other than the place at which it was delivered, shall be treated as a postal article posted for the first time, and charged with postage accordingly A registered article of which delivery has been taken can be re posted only under the conditions prescribed for the posting of registered articles for the first time except that no fresh charge shall be made on account of postage if the article has not been opened

II —FOREIGN POSTAL ARTICLES

28 The Director General shall, from time to time, notify in the *Indian Postal Guide* the conditions in force for the transmission of postal articles by the Foreign post

Provided that the rules relating to inland registered newspapers shall be deemed to apply in the case of newspapers sent to Ceylon

29 Every postal parcel handed to the Post Office for transmission by the foreign post shall be presented at the post office with a declaration, in such form as may be from time to time prescribed by the Director-General, containing a statement signed by the sender as to the nature of its contents and their value

Treatment of postal articles from abroad bearing fictitious or previously used stamps

30 Where a postal article has been received by post from any place beyond the limits of British India, bearing a fictitious or previously used postage stamp, and the addressee of such postal article has failed to attend, by himself or his agent, at the post office of delivery within the time specified in the notice sent to him in that behalf, or, having so attended, has refused to make known the name and address of the sender or to re deliver the postal article or such portion thereof as may be required under section 27 of the Act, and, in consequence

of such failure or refusal, the postal article has not been delivered to the addressee or his agent, the portion article shall be disposed of in the following manner —

The officer in charge of the post office at which the postal article has been received for delivery, shall record a statement, in such form as the Director General shall prescribe, setting forth the action taken by him under provisions of section 27 of the Act, and the fact of such failure or refusal as aforesaid on the part of the addressee or his agent, and shall forward the statement, together with the postal article, through the usual channel to the Director General

The Director General shall then in due course, transmit the statement, together with the postal article, to the Postal Administration of the place beyond the limits of British India from which the article was received

PART III—REGISTRATION OF POSTAL ARTICLES

I—INLAND POSTAL ARTICLES

31 Letters, postcards, book and pattern packets and parcels may be registered at any post office for transmission by post to any other post office

32 In addition to the postage, a fee of two annas shall be charged for the registration of any postal article

33 The prepayment of the postage and registration fees shall be compulsory in the case of all registered articles and shall be made by means of postage stamps affixed to the articles

34 Articles intended for registration shall be presented at the window of the post office

35 A receipt shall be given to the person who presents an article for registration at the post office window during the hours prescribed for posting registered articles

36 No registered article shall be delivered to the addressee unless and until he or his agent has signed a receipt for it in such form as the Director General shall prescribe

37 The sender of a registered article shall be entitled to obtain an acknowledgment of its delivery, signed by the addressee by paying a fee of one anna, in addition to the postage and registration fee, at the time of posting the article The fee for a special acknowledgment shall be paid by means of postage stamps affixed to the article

38 The sender of a registered article may obtain an attested copy of the original receipt signed by the addressee on payment of a special fee of three annas, provided that he makes his application for it within six months of the date on which the addressee signed the original receipt

39 Registration shall be obligatory in the case of—

(a) Any parcel exceeding 440 tolas in weight

(b) Any insured parcel

(c) Any parcel addressed to a place for which a customs declaration is required

(d) Any article containing a currency note, or any portion of a currency note

(e) Any article containing postage or other stamps or labels or a cheque, hundi, bank-note, bankpost bill, bill of exchange, or the like,—if the contents are either superscribed upon the cover or are known or manifest to the officers of the Post Office owing to the transparency, insecurity, or insufficiency of the cover, or to any other cause

(f) Any article bearing the word "registered" or any other word, phrase, or mark to the like effect

(g) Any registered article which is re posted after having been delivered

Exception—Nothing in this rule shall be held to render registration of a packet compulsory only by reason that it contains a stamped cover or postcard or wrapper as provided by the explanation to rule 10

(2) Twice the fee for registration shall be levied on the delivery of any postal article required under this rule to be registered on which the fee for registration has not been prepaid

II—FOREIGN POSTAL ARTICLES

40 Letters, postcards and packets may be registered at any post office for transmission to countries and places served by the foreign post, subject to such exceptions as the Director-General shall, from time to time, notify in the *Indian Postal Guide*

41 In addition to the postage, a further fee of two annas shall be charged for the registration of any article to be sent by the foreign post

42 The prepayment of the postage and registration fee on foreign registered articles shall be compulsory, and shall be made by means of postage stamps affixed to the articles

43 Rules 34, 35 and 36, relating to the registration of inland postal articles, shall be equally applicable to registered articles sent or received by the foreign post

44 The sender of a registered article addressed to any country belonging to the Universal Postal Union shall be entitled to obtain an acknowledgement of its delivery by paying a fee in addition to the postage and registration fee, of one anna in the case of a

registered article addressed to Ceylon or Portuguese India, and of two annas in the case of a registered article addressed to any other such country

(2) When the sender of a registered article addressed to any country belonging to the Universal Postal Union has not paid the fee for an acknowledgment of its delivery and desires to have an enquiry made by the Post Office regarding the disposal of the article he shall be entitled to this service on payment of the same fee as that chargeable for an acknowledgment of delivery

PART IV —INSURANCE OF POSTAL ARTICLES

I —INLAND POSTAL ARTICLES

45 Registered letters, value-payable registered letters and registered parcels may be insured up to the value of Rs 500 at such branch post offices, and up to the value of Rs 2,000 at such other post offices, as may be authorised by the Director General to accept articles for insurance

Provided that in no case such value exceed the real value of the contents of the article insured

46 Insurance shall be of two kinds, complete and partial Complete insurance shall cover all risks in course of transmission by post Partial insurance shall cover all risks in course of transmission by post in British territory and all risks, except those arising out of highway robbery, in course of transmission by post in such Native State territory as may be specified in this behalf by the Director-General in the *Indian Postal Guide*

47 In addition to the postage and the fee for registration, the following further fees shall be charged for insurance —

	Anna
Where the value insured does not exceed Rs 50	1
For every additional Rs 50 or fraction thereof	1

The further fees in the case of partially insured articles shall be charged at only half the above rates

48 The prepayment of all charges on insured articles, namely, postage registration fees and insurance fees shall be compulsory Payment in all cases shall be made by means of postage stamps affixed to the articles

49 The cover of a letter intended for insurance shall be of strong paper or other substantial material, securely closed and sealed at intervals not exceeding two inches along each fold or seam A parcel intended for insurance shall be securely packed and enclosed in an outer covering of cloth, canvas or other substantial material, sealed at intervals not exceeding three inches along each line of sewing or join All the seals affixed to an insured article shall be of the same kind of wax and shall bear distinct impressions of the same device The device shall not be that of a current coin or merely a series of straight, curved or crossed lines

50. The minimum size for an insured parcel shall be 12 cubic inches

51 An article intended for insurance shall be presented at the window of the post office with the amount for which the sender wishes it to be insured, clearly written, in words and figures, on the cover The name and address of the sender shall also be written on the cover in the lower left-hand corner, or on a separate slip of paper, to be presented with the article, should there be no room for his name and address on the cover

52 A receipt shall be given to the person who presents an article for insurance at the post office window during the hours prescribed for posting insured articles.

53 The sender of an insured article shall be entitled to obtain free of charge an acknowledgment of its delivery signed by the addressee

54 There shall be payable to the sender of an insured postal article compensation not exceeding the amount for which the article has been insured, for the loss of the postal article or its contents or for any damage caused to it in course of transmission by post

Provided that the compensation shall in no case exceed the value of the article lost or the amount of the damage caused, and provided that in the case of loss the sender shall furnish full particulars of the contents of the postal article and their value

Provided, also, that no compensation shall be payable—

(a) where there has been misdelivery arising out of incorrectness or incompleteness of the address written by the sender,

(b) where there has been fraud on the part of the sender or addressee,

(c) where the insured article has been delivered to the addressee and he has signed and returned the receipt therefor,

(d) where the sender has not given intimation of the loss within three months from the date of posting,

(e) where the loss or damage was due to improper or insecure packing,

(f) where there is no visible damage to the cover or seals, or,

(g) in the case of partially insured articles, where the loss or damage was caused by highway robbery during the transit in respect of which the insurance is partial only

55 Compensation shall be payable one month after the date on which intimation of loss is given by the sender to the Post Office, except in cases in which the Postmaster-General may consider that the circumstances demand the withholding of payment pending inquiry When compensation has been paid for the loss of a postal article or its contents, the Post Office shall be entitled to retain, and dispose of, such postal article or its contents should they be subsequently recovered, and the compensation paid not be refunded on demand being made

56 Coin, bullion, precious stones, jewellery and articles of gold or silver may be sent by post only in insured registered letters or insured parcels If a letter or parcel presented at the post office window is found to contain any such object of value, it shall not be accepted for transmission by post, unless the sender insures it, and if an uninsured article manifestly containing any such object of value is found in course of transmission by post, it shall be either intercepted and returned to the sender or forwarded to destination and delivered to the addressee subject to the payment of a fee of one rupee The payment of this fee shall not impose any liability on the Government

Explanation —In this rule the expression articles of gold or silver includes articles made wholly or partly of gold or silver but not electro or other plated goods

II —FOREIGN PARCELS

57 The Director-General shall, from time to time, notify in the *Indian Postal Guide* the countries and places for transmission to which foreign registered letters and foreign parcels may be insured, and the limit up to which such letters or parcel may be insured in each case

Provided that in no case shall such value exceed the real value of the contents of the letter or parcel insured

58 In addition to the postage and (in the case of letters) the registration fee, the following further fees shall be charged for insurance —

(*a*) *For insurance to Ceylon and Portuguese India*—

	Annas
Where the value insured does not exceed Rs 100	2
For every additional Rs 100 or fraction thereof	2

(*b*) *For insurance of letters and parcels to Mauritius, and of parcel to the British East Africa Protectorate, or Zanzibar*—

	Annas
Where the value insured does not exceed Rs 100	4
For every additional Rs 100 or fraction thereof	4

(*c*) *For insurance to the United Kingdom and to British Possessions and foreign countries other than those mentioned above*—

	Annas
Where the value insured does not exceed £5	3
For every additional £5 or fraction thereof	3

59 The prepayment of all charges on insured foreign registered letters and parcels shall be compulsory Payment in all cases shall be made by means of postage stamps affixed to the letters or parcels The stamps must be placed apart from one another, so that they may not serve to conceal injuries to the cover of the letter or parcel No label of any kind shall be affixed by the sender to the cover of a letter intended for insurance

60 The cover of a foreign letter intended for insurance shall be of strong paper or other substantial material, securely closed and sealed with fine wax in such a way that the letter cannot be opened without either breaking the seals or leaving obvious traces of violation The seals shall be placed along each fold or seam of the cover at intervals not exceeding two inches, and if the letter is tied round with string or tape, a seal shall be placed on the ends where they are tied An insured foreign letter shall not be closed in a cover having black or coloured borders

(2) A foreign parcel intended for insurance shall be packed securely and substantially, with due regard to the nature of the contents and the length of the journey, in an outer covering of cloth, canvas or other substantial material and shall bear seals of wax or lead at intervals not exceeding three inches along each line of sewing or join

(3) All the seals affixed to an insured foreign letter or parcel shall be of the same kind of wax or lead and shall bear distinct impressions of the same private device The device shall not be that of a current coin or merely a series of straight, curved or crossed lines

61 A foreign letter or parcel intended for insurance shall be presented at the window of the post office with the amount for which the sender wishes it to be insured, clearly written, in words and figures, without erasure or correction on the cover and accompanied by such form or forms duly filled up as may be prescribed by the Director General, from time to time, in the *Indian Postal Guide* The name and address of the addressee of a foreign letter or parcel intended for insurance shall be written in ink on the actual cover of the article

62 A receipt shall be given to the person who presents a foreign letter or parcel for insurance at the window of the post office during the hours prescribed for posting insured foreign articles

63 There shall be payable to the sender, or, in default or at the request of the sender to the addressee of a foreign letter or parcel which has been insured by the post office of India and posted in India, compensation not exceeding the amount for which the article has been insured, for the loss of the article or its contents or for any damage caused to it in course of transmission by post, and the sender shall, in case of loss, also be entitled to a refund of the expenses of transmission as well as of any fee that he may have paid for an enquiry as to the disposal of the article, but in no case to a refund of the insurance fee paid

Provided that the compensation shall in no case exceed the value of the article lost or the amount of the damage caused

Provided, also, that no compensation shall be payable—

(a) where the loss or damage has been caused by the fault or negligence of the sender or arises from the nature of the article
(b) where the insurance has been fraudulently made for a sum above the real value of the contents, or there has been any other fraud on the part of the sender or addressee,
(c) where the insured article has been delivered to the addressee and he has signed and returned the receipt therefor,
(d) where the sender or addressee has not given intimation of the loss or damage within twelve months from the date of posting,
(e) where the loss or damage was due to improper or insecure packing,
(f) where there is no visible damage to the cover or seals, or
(g) in cases beyond control (e g, tempest, shipwreck, earthquake, war, etc)

(2) The Secretary of State for India in Council accepts no liability either to the sender or the addressee for any loss or damage in respect of any foreign letter or parcel which was not posted in India and insured by the Post office of India

64 Where a foreign parcel contains coin, bullion, precious stones, jewellery, or articles of gold or silver, it shall not be accepted for transmission by post unless the sender wishes to insure it If a foreign parcel containing any such object of value is addressed to a country or place to which insurance is not available, the parcel shall be insured for its inland transit within the limits of British India, and in such cases the fee charged for insurance shall be calculated as follows —

(a) *When the value is expressed in rupee currency*—

	Anna
Where the value insured does not exceed Rs 50	1
For every additional Rs 50 or fraction thereof	1

(b) *When the value is expressed in sterling*—

	Anna
Where the value insured does not exceed £3	1
For every additional £3 or fraction thereof	1

(2) If an uninsured foreign parcel, declared to contain or manifestly containing any of the objects of value specified above, is received from a country with which, as notified by the Director General in the *Indian Postal Guide*, insured parcels can be exchanged, the parcel shall either be intercepted and returned to the sender or forwarded to destination and delivered to the addressee, subject to the payment of a fee of one rupee The payment of this fee shall not impose any liability on the Secretary of State for India in Council

Explanation —In this rule the expression articles of gold or silver includes articles made wholly or partly of gold or silver but not electro or other plated goods

65 Where an insured foreign letter which has been re-directed, or an insured foreign parcel which has been re-directed or returned as undeliverable, is received in India subject to a fresh insurance fee by reason of its having been so re-directed or returned, such fee shall be recoverable on delivery as if it were postage due under the Act

PART V —VALUE PAYABLE POST

I —VALUE-PAYABLE POSTAL ARTICLES

66 Registered and unregistered parcels, registered letters, registered book packets newspapers prepaid at newspaper rates of postage and fully prepaid unregistered book packets, may be transmitted by the inland post as value-payable postal articles, provided that the amount specified for remittance to the sender in the case of any such postal article shall not exceed Rs 1,000, and shall not contain a fraction of an anna except in the case of postal articles sent by, or addressed to, any department of the Government or a District, Local or Municipal Board, and provided that such parcels, letters, and packets do not contain coupons tickets, certificates or introductions designed for the sale of goods on what is known as the "snowball system"

Exceptions

Ceylon —Unregistered parcels

Portuguese India and the Somaliland Protectorate —Unregistered parcels, unregistered book packets, and newspapers prepaid at the newspaper rates of postage

68 No such postal article as aforesaid shall be accepted at any post office for transmission by post as a value payable postal article unless the sender declares that it is sent in execution of a *bonâ fide* order received by him At any post office notified from time to time in this behalf by the Director-General of the Post Office, the sender shall in addition, be required to declare that the article is one the transmission of which by post as a value-payable postal article is permitted No postal article as aforesaid shall be accepted at these offices without such further declaration

Explanation —An article may be sent by the value payable post even though it possesses no intrinsic value Thus legal documents, bonds policies of insurance, promissory notes, railway goods and parcel receipts, bills of lading or ordinary bills for collection may be sent as value-payable postal articles In the case of a railway receipt or bill of lading sent as a value payable postal article, it will be sufficient for the purposes of this rule if the article to which the railway receipt or bill of lading relates has been sent in execution of a *bonâ fide* order In the case of the other documents specified the document must be sent in execution of a *bonâ fide* order to send the document itself

69 Every postal article intended to be transmitted by post as a value payable postal article shall be presented at the post office with a printed form, prescribed by the Director-General and obtainable at the post office, in which the sender shall specify the sum to be remitted to himself, fill in the required entries, and sign the declaration required by rule 68 If the article is an unregistered parcel, unregistered book packet or newspaper prepaid at newspaper rates of postage, a fee calculated according to the schedule below on the amount specified for remittance to the sender shall be prepaid by the sender by affixing postage stamps of the value of the fee to the article itself The sender of a postal article intended to be transmitted by post as value-payable shall write clearly on the face of the article itself—

(*a*) in the upper left-hand corner—the letters "V P" followed by an entry, *in figures and words*, of the amount for remittance to himself, and

(*b*) in the lower left-hand corner—his own name and full address

Schedule of fees

Amount specified for remittance to sender	not exceeding Rs 5	1 anna
	exceeding Rs 5, but not exceeding Rs 10	2 annas
	exceeding Rs 10, but not exceeding Rs 15	3 "
	exceeding Rs 15, but not exceeding Rs 25	4 "
	exceeding Rs 25	4 annas for each complete sum of Rs 25 and 4 annas for the remainder, provided that if the remainder does not exceed Rs 5, the charge for it shall be only one anna, if it does not exceed Rs 10, the charge for it shall be only 2 annas, and if it does not exceed Rs 15, the charge for it shall be only 3 annas

70 The amount to be recovered from the addressee shall be the sum specified by the sender for remittance to himself *plus*, in the case of registered parcels, registered letters, and registered book packets, a fee calculated as in rule 69 When this amount is recovered from the addressee, the sum for payment to the sender shall be remitted to him by means of a money order If the addressee of a value-payable article refuses or omits to take delivery of it, the article shall be returned to the sender, who will be required to pay any charges that may be due on it, and to acknowledge receipt of the article by signing the form presented by the postman In no circumstances will the fee prepaid in stamps, in the case of a value-payable unregistered parcel, unregistered book packet, or newspaper be refunded

71 The Government shall not incur any liability in respect of the sum specified for remittance to the sender in respect of a value-payable postal article unless and until that sum has been received from the addressee

II.—TRANSMISSION BY POST OF RAILWAY RECEIPT-NOTES OPEN AS VALUE PAYABLE ARTICLES

72 A railway receipt-note for goods may be transmitted by post open as a value payable postal article

Provided that—

(a) the goods to which the railway receipt-note relates, do not exceed Rs 1,000 in value, and

(b) the railway receipt-note shows on its face that the goods to which it relates, have been consigned to the sender himself, is endorsed to the person to whom the goods are to be delivered, and is signed by the sender

73 The open railway receipt-note shall be presented at the post office with the printed form prescribed by the Director General for registered value-payable postal articles, in which the sender shall specify the sum to be remitted to himself, fill in the required entries and sign the declaration that the article is sent in execution of a *bonâ fide* order received by him

74 A fee of two annas shall be paid on each railway receipt note presented for transmission by post open The fee shall be paid in postage stamps, which shall be affixed by the sender to the receipt note

75 The post office will transmit the open railway receipt-note to the post office of destination, and will deliver it on payment of the amount recoverable to the person to whom it has been endorsed by the sender, in such manner as the Director-General may from time to time appoint for the delivery of registered value-payable postal articles

76 The amount when recovered will be remitted to the sender in accordance with the rules for the time being in force relating to registered value-payable postal articles

77 A railway receipt-note for goods may be transmitted by post open under the foregoing rules, without compliance with the conditions laid down in the second proviso to rule 72, if it—

(a) relates to goods sent between stations on such railways as are for the time being specified in this behalf by the Director-General in the *Indian Postal Guide*, or

(b) shows on its face that the goods so sent have been declared at the booking office as being sent under the value-payable system

78 These rules apply also to receipt-notes for goods conveyed by steamer within the limits of British India

79 Nothing in these rules shall be construed to prevent the transmission by post of receipt-notes under the rules for the time being in force relating to the value payable post generally

PART VI.—MONEY ORDERS

I.—INLAND MONEY ORDERS

(a) Ordinary inland money orders

80 The amount for which a single money order may be issued shall not exceed Rs 600, and shall not include a fraction of an anna, except in the case of money orders issued by, or in favour of any Department of the Government, or by, or in favour of, a District, Local, or Municipal Board

Explanation.—The words "any Department of the Government" include any official Department of the Government of a Native State, the posts of which have been amalgamated with the Imperial post

81 Money orders may be issued on the following Native States with which special arrangements have been made for the exchange of money orders, but the amount for which a single money order may be issued on these States shall not exceed Rs 600 —

III —CERTIFICATES OF POSTING

150 A certificate of posting may be obtained in respect of any postal article for which a receipt is not given by the post office subject to the following conditions, namely —

(*a*) The certificate of posting written in ink shall be presented to an officer on duty at the post office along with the article to be posted, during the hours fixed for the posting of such articles,

(*b*) The certificate shall contain an exact copy of the addresses on the articles to which it relates, and shall have a postage stamp, or stamps, affixed thereto in payment of a fee to be charged as follows —

(*i*) In the case of unregistered letters, postcards, book packets (including registered newspapers) and pattern packets, posted by the same person at one time	½ anna for every three articles of any of these classes, or for any less number
(*ii*) In the case of unregistered parcels (ordinary or value payable) and value-payable unregistered book packets, posted by the same person at one time	½ anna for every six articles of either or both, of these classes, or for any less number

There shall be a separate certificate for each of these two classes of articles (*i*) and (*ii*) headed with the words "Certificate of posting for letters" or "Certificate of posting for parcels," as the case may require, and the actual number of articles in respect of which the certificate is required shall be written in words at the foot of the document

The officer on duty shall compare the number of the articles presented and the addresses on them with the entries in the certificate, and, if the latter be correct shall obliterate the postage stamps and impress the date-stamp upon the certificate The certificate shall then be returned to the person who presented it.

IV.—LATE LETTERS AND LATE LETTER FEES

151 Late letters shall mean letters posted after the hour fixed for the closing of a mail which cannot be forwarded by the mail then being prepared for despatch without the payment of an additional fee

152 The ordinary late letter fee for postal articles other than parcels to be transmitted by the Inland or Foreign post shall be half an anna for each postal article

153 The late letter fee in respect of registration for articles to be transmitted by the Inland or Foreign post shall be two annas for each postal article

154 In special cases, a higher fee than half an anna, but not exceeding four annas, for each postal article, may be charged on postal articles, other than parcels, posted for transmission by the Inland or Foreign post at Presidency towns or on board steamers or in other special circumstances The Director-General shall, from time, notify in the *Gazette of India* the amount of such fees and the circumstances in which they are chargeable

155 Late letters shall be presented at the window of the post office within the hour prescribed for this purpose by the Postmaster General, and the postage and late letter fee shall be fully prepaid by means of postage stamps

V.—REDELIVERY TO THE SENDER OF POSTAL ARTICLES IN COURSE OF TRANSMISSION BY POST

156 Inland letters, postcards, book and pattern packets and parcels, and foreign registered articles of the letter mail and foreign registered parcels, which have not been despatched from India, may be recalled when in course of transmission by post without reference to the consent of the addressee subject to the following conditions, namely —

(*a*) No such postal article as aforesaid shall be redelivered to the sender except under the orders of—

(*i*) the chief postal authority in a postal circle

(*ii*) the Director-General,

(*iii*) the Local Government, or

(*iv*) the Governor-General in Council

(*b*) A fee of one rupee shall be paid in respect of each postal article for the redelivery of which to the sender an application is made

(*c*) An application for the redelivery to the sender of a postal article may be presented in writing to any of the authorities aforesaid, either direct or through any officer in charge of a post office

(*d*) An application shall be received only from the sender of the postal article or from some person authorised in this behalf by the sender in writing

(*e*) Every application shall be accompanied by a statement (which may be enclosed in a sealed cover) of the reasons why redelivery is sought Such sealed cover shall be opened only by the authority to which the application is presented or, where such authority is a Local Government or the Governor General in Council, by a Secretary to the Local Government or the Government of India, as the case may be

(*f*) Upon receiving such application and statement, together with the prescribed fee as aforesaid, the officer in charge of the post office shall immediately send the same to the chief postal authority in the postal circle in which he is serving

(*g*) If the postal article, of which redelivery is sought, is in his possession, the said officer shall, instead of forwarding it to the addressee, keep it in deposit, and send the application to the said authority

(*h*) If the postal article is not in his possession, the said officer shall require the officer in charge of the post office of address in the case of an inland postal article, and of the office of foreign exchange in the case of a foreign registered postal article, to abstain from delivering it to the addressee or from sending it to its address, and to keep it in deposit The requisition to such other officer may be sent by telegraph, but all expenses attending its transmission shall be borne by the applicant

(*i*) When the application reaches such an authority as is named in condition (*a*), that authority may order the redelivery to the sender of the postal article upon being satisfied that the applicant is the sender, and that sufficient reasons have been given for the redelivery, otherwise the postal article shall be sent at once to its address

(*j*) A letter or postcard in course of transmission by post shall not be redeliverd to any one but the sender or some person authorised in this behalf by the sender in writing

VI.—DETENTION IN THE POST OFFICE OF BOOK AND PATTERN PACKETS AND PARCELS

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare under section 5, sub section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Khas Jharia Colliery Company, Limited, in the manner and subject to the restrictions below specified, viz —

(*a*) Galleries shall be driven only as laid down on the centre red lines on the plan L A M A No 107, and such other roads being not more than three in number and not nearer than 200 feet apart may be driven upon the line of dip

(*b*) The galleries shall be 10 feet in width and 8 feet in height and driven on the floor of the seam

(*c*) Manholes not exceeding 6 feet in height by 3 feet in width by 4 feet in depth may be made when required by any rules made under the Indian Mines Act, 1901

(*d*) The above restrictions apply to No 14 seam only and to the area edged blue upon the plan, and the Khas Jharia Colliery Company, Limited, shall give notice, under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under the above area or to work coal under any other area of acquired land, and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L A M A No 107 signed by the Chief Inspector of Mines

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned

RESOLUTION—By the Government of India, Home Department

THE Government of India have for some time past had under their consideration the question of encouraging the scientific study of Sanskrit and Arabic by natives of India They believe that great advantage will result from aiding students to acquire the critical and scientific methods of Western scholarship, by studying the classics under European professors and by acquiring a knowledge of French and German which is indispensable for making full use of the researches of European Orientalists

2 They have accordingly decided, with the sanction of the Secretary of State, to allot for the present four scholarships tenable in Europe, three for the study of Sanskrit and one for the study of Arabic Not more than two will be awarded annually The scholarships will be open to well qualified students with a genuine taste for oriental studies and to gentlemen already employed as professors of Sanskrit and Arabic in India The value of each scholarship will be £150 a year, and it will be tenable for two years The Secretary of State will decide the courses of study of each scholarship-holder and the special conditions to be observed, if necessary, by students who elect to study in continental Europe rather than in England A scholarship holder will be provided with a free second class passage to Europe, and also with a return passage if he completes the full period of residence or is compelled by sickness to return within that period He will be required for disciplinary purposes to conform to such rules as the Secretary of State may make in this behalf

3 In the first year one scholarship will be awarded for Sanskrit and one for Arabic In the following year two scholarships for Sanskrit only will be awarded Each Local Government or Administration is invited to submit during the current financial year the name of one candidate for a Sanskrit and one for an Arabic scholarship, and in the following year the names of two candidates for a Sanskrit scholarship, this procedure being followed in alternate years It is requested that the names of the candidates may be accompanied by a full description of their qualifications, and with the views and recommendations of the Local Government thereon The power of selection will rest with the Government of India who will award the scholarships to those whom they may consider best fitted to hold them Local Governments and Administrations are requested to submit their recommendations so as to reach the Government of India by the 31st March of each year at latest Those for the current year should be sent in as soon as possible

Particulars

All the lights at the entrance of Mandovi River were re established on the 1st Septembar 1908

On account of the natural change of the bar of the Mandovi River the direction now indicated by the two beacons "Alto da Conceição" and "Gaspar Dias" is to be altered and the beacons are to be replaced by two other beacons one of them is to be placed on Malim Hill, in Bardez, and the other at the Campal, in Panjim.

These beacons will consist of an equilateral triangle on top of a mast which has at its foot the watchman's house The triangles and house are painted white

At night a white incandescent light will be hoisted on each of these two masts

These beacons will be temporary and will be replaced in a short time when another notice will be issued.

The beacon "Tejo" has fallen into the sea and has been replaced by a wooden mast painted white with crossed boards nailed on to it which have been painted black and white alternately The light placed on this beacon has been altered from red to green

The course to be made by a ship entering the Mandovi River is to steer in the new direction towards "Campal" and "Malim" instead of making the former course towards "Gaspar Dias" and "Alto da Conceição"

RESOLUTION ON THE ANNUAL REPORT ON THE WORKING OF THE CO-OPERATIVE CREDIT SOCIETIES IN BENGAL FOR THE YEAR 1907-1908.

REVENUE DEPARTMENT—LAND REVENUE

Darjeeling, the 28th September 1908

RESOLUTION—No 1616T —R

READ—

The Report No 9560 C S, dated the 11th September 1908, on the working of the Co-operative Credit Societies for the year ending 30th June 1908

READ again—

Government Resolution No 3521, dated the 18th November 1907, on the Registrar's Report for 1906-07

The report deals with the twelve months from 1st July 1907 to 30th June 1908 During the first part of that period Mr W R Gourlay, I C S, held the office of Registrar, in addition to his duties as Magistrate and Collector and as Director of Agriculture On 4th January 1908, Mr W H Buchan, I C S, was appointed Registrar, and was in charge till the end of the year The Director of Agriculture has recently been appointed Director of Co-operative Credit Societies He retains control of the general policy of the Department, while the Registrar is in full charge and responsible for the detailed working.

2 The report shews a great and encouraging development The number of urban societies with limited liability has increased from four to nine, their share capital from Rs. 8,t66 to Rs 19,000, deposits from Rs. 6,889 to Rs 12,950, and reserve funds from Rs 1,760 to Rs 4,246

Besides these, there are ten so called urban societies with unlimited liability The number of rural societies has been almost doubled, having risen from 165 to 326 Their membership has grown from 6,903 to 11,076, assets from Rs 85,740 to Rs 1,95,409, members' deposits from Rs 11,167 to Rs 21,24 , and reserve funds from Rs 11,029 to Rs 20,000 Grain societies show practically no extension The possibilities of this form of co-operation are doubtful, and experience is not sufficient to warrant definite conclusions For the present the attention of the Department to development in this direction is principally concentrated on a system of village societies attached to central *golas* which is on its trial in the Sonthal Parganas.

3 In Bengal there are two main types of society—the urban, with limited liability which is based on the Luzzatti model, and the rural, with unlimited liability, which follows Raifeisson principle It is to the latter, as forming the basis of all successful work in rural Bengal, that attention is mainly directed The chief feature of the year has been the attempt to deal with rural societies on an organised system The supreme importance of inspecting and controlling societies at all stages of their growth, and especially in infancy, is the principal lesson of the last three years' work In this respect Bengal is merely repeating the experience of every other country With nearly 400 societies the Registrar can give only a very small portion of his time to each, and his isolated periodic inspections cannot be very effective Continuous local control is required In his matter the Lieutenant Governor is pleased to observe that the honorary organisers have rendered the greatest assistance Their number has risen from three to eight, and it is hoped that others will come forward in every district Also ten local inspecting clerks have been appointed in the more important areas At present they are paid by Government, but in time they will become a charge on the societies They supply the Registrar with a useful channel of communication and control His Honour recognises that wherever the movement shews signs of spreading, the appointment of a local clerk for that area is essential But much more is required In the Registrar's opinion the number of societies could be enormously increased in a very short time But unless some means is devised of controlling and organising the societies as they come into existence, all safe advance beyond a very narrow limit is barred. That Government should indefinitely finance the machinery of control is a possible but not a very sound solution As is pointed out in the report, "the machinery, in order to be effective and to respond automatically to an indefinite expansion, must be supplied by the societies themselves as in Europe" A scheme for combining societies in local unions for purposes of finance and control is now before Government, and in the coming cold weather a serious attempt will be made to initiate it The Lieutenant-Governor considers that the future of the rural movement depends very largely on the solution of the problem of control While recognising that societies are hardly educated up to mutual control, and that it may take years to evolve a union suited to Indian conditions, His Honour thinks that the scheme should be tried experimentally as soon as possible

4 The analysis given in paragraph 33 of the sources from which the capital of rural societies is drawn shows that public confidence in the movement is growing No less than 45 per cent of the total has been supplied by investors The societies themselves have provided 13 per cent It is less gratifying to notice that local capital amounts to only 2 per cent This capital will be attracted only when societies gain the confidence of the locality, as is the case in Midnapore The rates offered must also bear a reasonable relation to those prevailing in the neighbourhood The comparison given in paragraph 34 of the report shows that in the more important districts the interest offered is not too low, but the Registrar will submit a further report on this point when the returns of the recent provincial survey of rates of interest have been received The union scheme, if it proves practicable, will do much to gain the confidence of local capitalists It is hoped that the double security provided by the limited liability of the union and the unlimited liability of each affiliated society for its own funds will attract that local capital which the isolated societies have failed so far to secure.

5 The appendix giving for all rural societies full statistics of loans and their objects is interesting These numbered 8,195, and amounted to, Rs 145 468 The average loan per member was therefore just under Rs 18 The average is higher than last year's, owing to the more adequate financing of the societies The purposes are not as a rule varied They shew that most of the societies are in the rudimentary stage when necessity, rather than considerations of profit, determines the objects of loans Thus 75 per cent of all loans was applied to the repayment of old debts, cultivation and the purchase of cattle—the three primary needs of the poor agriculturist It is only as members free themselves from their loan of debt that they become able to apply their loans to other profitable, but less essential, objects Over 96 per cent of the loans was employed for purposes either directly or indirectly productive, while a little over 2 per cent was unproductive These statistics indicate that the societies are really benefitting their members, and that they can be trusted to apply their capital usefully and profitably

6 Urban societies have made considerable progress That they are not more numerous is due to the fact that the whole energy of the Registrar and his staff has been devoted to the work in rural districts Urban societies being composed of more or less educated and responsible members, require much less supervision than the rural type, and can hardly fail of success More attention will be given to them next year A pamphlet explaining the benefits of, and giving instructions for founding, such societies will shortly be issued It is hoped that the larger firms in Calcutta will take up the scheme and that it will be possible to form *amlas'* societies in most of the districts of the Province

7 In summing up the progress made, the Registrar points out that, although statistics indicate a remarkable development during the year under report, there is a certain danger of excessive confidence Most of the societies appreciate the fundamental principles and the cardinal importance of combination, and it has been proved that a Co operative Credit Society can be successfully managed by the cultivators themselves But very few of the societies can be called fully co-operative in the true sense Much supervision and assistance along the path of progress is still necessary The Lieutenant Governor considers that while the progress has been more than encouraging and defects are only to be expected, the societies will require constant nursing until the co-operative idea takes firmer root His Honour also agrees that, while the work in backward and untouched districts should be developed as far as possible, consolidation and combination rather than extension should be the policy in districts which have honorary organisers and a large number of societies The future of the movement now depends chiefly upon organisation

8 The Lieutenant Governor desires to place on record his appreciation of the zeal and sympathy with which Messrs Gourlay and Buchan performed their duties The former officer has been identified with the co operative credit movement since its first inception in Bengal, and to his intimate and sympathetic acquaintance with the necessities and difficulties of the Indian agriculturalists, and to the complete study he has made of the systems on which such societies are managed in other countries, the successful application of the principle to Indian conditions must be attributed A point has, however, now been reached when Government officers can only give a general supervision and control, and the further success of the movement must depend on the assistance which they may receive from outside For this reason the Lieutenant-Governor is specially indebted to the honorary organisers in particular, and also to the other gentlemen named in paragraph 52 of the report. The good services of Babu Jamini Mohan Mitra, the Personal Assistant to the Registrar, will be noted in the Appointment Department

By order of the Lieutenant Governor of Bengal,

F W DUKE,

Offg Chief Secy to the Govt of Bengal.

The mean pressure, temperature, etc, are deduced from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

Syllabus in Experimental Physiology—

Pass Course

The induction coil, single shocks, short circuiting key, effect of single shocks on the tongue, break-shock is stronger than the make shock Helmholtz's Modification, Neef's Hammer
Pithing a frog, nerve-muscle preparation Mechanical, chemical, thermal and electrical stimulation of muscle and nerve
The Graphic method Simple lever, crank lever (myograph), moist chamber Minimal and maximal excitation with single induction shocks (make and break) Stimulation by constant current contraction of muscle only at make and break
The muscle curve —Single contraction of a frog's muscle the latent period the period of contraction and the period of relaxation Time tracing by tuning fork Method of after-loading The influence of temperature and of load on muscular contraction The work performed by a muscle during a twitch
Elasticity and extensibility of muscle
Summation of muscular contraction tetanus
Fatigue of muscle
Thickening of a muscle on contraction
Bernard's curare experiment
Stimulation of a motor nerve, unequal excitability (greater nearer the centre of a motor nerve), excitability of flexor and extensor nerves
Velocity of nerve-impulse (myographic method)
Electro-Physiology —Galvani's experiment of contraction with metals, Galvani's experiment of contraction without metals
The Frog's heart—Beating of the heart, effect of heat and cold (heart in situ), section of the heart effect of heat and cold on excised heart
Stannius' experiment
Graphic record of the beat of the heart (suspension method and also direct registration with heart-lever)
Pulse—Sphygmographic tracing
Blood pressure in man Sphygmometer (Hill and Bernard's)
Reflex action (simple experiments on a pithed frog)
Vision —Accommodation, Scheiner's experiment, near and far point,
Purkinge sanson images Phakoscope, Blind spot, yellow spot, Colour vision Complementary colours

HONOUR COURSE

Additional Experiments—

The Induction Coil—Break extracurrent of Faraday
The Rheonome Effect of sudden variation of current
Isotonic and Isometric contraction
Influence of veratrine on muscular contraction
Indefatigability of nerve
Excitation of muscle by constant current, Polar excitation of a muscle
Electrotonus. Electrotonic changes in excitability and conductivity of a nerve
Kuhne's experiment of contraction without metals
Examination of currents in muscle, nerve and heart by means of the reflecting galvanometer
Frog's heart—Minimal stimulus causes maximal contraction 'Staircase effect' Single contraction of the ventricle Tetanisation Refractory period Stimulation of the vagus Action of drugs (Muscarin and Atropin) on the heart

Voice and Speech Laryngoscope
Vision Ophthalmoscope, Perimeter

No 731—743, dated Simla, the 1st September 1908

RESOLUTION—By the Government of India, Home Department

THE Government of India have for some time past had under their consideration the question of encouraging the scientific study of Sanskrit and Arabic by natives of India They believe that great advantage will result from aiding students to acquire the critical and scientific methods of Western scholarship, by studying the classics under European professors and by acquiring a knowledge of French and German which is indispensable for making full use of the researches of European Orientalists

2 They have accordingly decided, with the sanction of the Secretary of State, to allot for the present four scholarships tenable in Europe, three for the study of Sanskrit and one for the study of Arabic Not more than two will be awarded annually The scholarships will be open to well qualified students with a genuine taste for oriental studies and to gentlemen already employed as professors of Sanskrit and Arabic *in India The value of each scholarship will be £100 a year, and it will be tenable for two years The Secretary of State will decide the courses of study of each scholarship-holder and the special conditions to be observed, if necessary, by students who elect to study in continental Europe rather than in England A scholarship holder will be provided with a free second class passage to Europe, and also with a return passage if he completes the full period of residence or is compelled by sickness to return within that period He will be required for disciplinary purposes to conform to such rules as the Secretary of State may make in this behalf

3 In the first year one scholarship will be awarded for Sanskrit and one for Arabic In the following year two scholarships for Sanskrit only will be awarded Each Local Government or Administration is invited to submit during the current financial year the name of one candidate for a Sanskrit and one for an Arabic scholarship, and in the following year the names of two candidates for a Sanskrit scholarship, this procedure being followed in alternate years It is requested that the names of the candidates may be accompanied by a full description of their qualifications, and with the views and recommendations of the Local Government thereon The power of selection will rest with the Government of India who will award the scholarships to those whom they may consider best fitted to hold them Local Governments and Administrations are requested to submit their recommendations so as to reach the Government of India by the 31st March of each year at latest Those for the current year should be sent in as soon as possible

FINAL FORECAST OF THE JUTE CROP, 1908

THE following note is published for general information

F W DUKE,
Offg Chief Secy to the Govt of Bengal

The 10th October 1908

DEPARTMENT OF AGRICULTURE, BENGAL

FINAL FORECAST OF THE JUTE CROP, 1908

(On an average of the five years ending 1906 07 the area under jute in the territory to which the Bengal forecast relates has represented 19 2 per cent of the total area under jute in British India)

Acreage —The area under jute as now reported by the District Officers amounts to 548,700 acres as compared with 574,300 acres estimated in the preliminary forecast The decrease is chiefly due to a revision of the Purnea figures made by the District Officer after personal enquiry The acreage for the last five years is given below —

Year	Acreage
1904	505,900
1905	569,300
1906	780,400
1907	931,200
1908	548,700

The area under jute in the Cooch Behar State which is not included in the above figures is reported to be 22,000 acres against 32,000 acres last year

The marked decrease in area is due to want of moisture and to the high price of rice

2 *Weather conditions* —In Purnea, the most important jute district in Bengal, conditions were favourable at the beginning of the season, but later the crop suffered from drought and there has been a lack of water for steeping In the important jute growing districts of the Presidency Division and in Howrah and Hooghly, the crop suffered from want of moisture in the early part of the season and in June and July from floods

3 *Outturn* —As the estimate of outturn appeared to be unduly low, special enquiries were made and these prove that the local officers have been unduly pessimistic In addition to this, the recent rain has given more water for steeping and has otherwise improved prospects Taking these facts into consideration, I estimate that the outturn in Bengal and Cooch Behar will be not less than 62 per cent of an average crop, as compared with 74 per cent last year Taking 3 bales per acre as the outturn of a normal crop, the total outturn is estimated at 1,065,900 bales The local officers report that very little of last year's crop has been held over within the districts of Bengal

4 *Consolidated forecast*—Adding to these figures the information communicated by the Director of Agriculture, Eastern Bengal and Assam, the total estimate for the two Provinces and Cooch Behar is —area 2,841,200 acres, outturn 6,310,800 bales

5 The above figures do not include statistics for Nepal, Madras and Upper India The figures for these territories as ascertained by the Department are given below —

	Bales
Nepal	77,600
Upper India *via* East Indian Railway	5,500
Madras *via* Bengal Nagpur Railway	7,800

6 *Comparison with trade figures*—The estimated outturn for 1907 according to last year's final forecast was 9,585,800 bales Adding to this the figures for Cooch Behar, Nepal, Madras and Upper India, the total comes to 9,758,300 bales The Bengal Chamber of Commerce has kindly supplied figures which show that the exports from 1st July 1907 to 30th June 1908 amounted to 4,276,265 bales, and the quantity of the 1907-08 crop purchased by the local mills amounted to 3,904 849 bales Adding 5,000,00 for country consumption the total comes to 8,681,114 bales

	Midnapore	3,319 040	2,190,600	10 800	10 400	72	65	Very little in Sadar and Tamluk; little in Contai and about ½ in Ghatal	35 342	1893 to 1898	29	July in Sadar and latter part of August in Contai and Ghatal	The weather conditions were favourable at Sadar In Contai they were unfavourable at sowing time but subsequently they became better In Tamluk and Ghatal owing to excessive rain the weather condition were not favourable. The general prospects of the crop are good in Sadar and Contai bad in Ghatal and poor in Tamluk Excessive rain damaged the crop hence the outturn will not be more than 65 per cent

BURDWAN—concld	Hooghly	61 210	445 900	65 0 0	51 900	70	60	Little	Not cadastrally surveyed			Beginning of September	Absence of rain at the time of sowing and heavy rain during the latter part of June and in the beginning of July has damaged the jute crop and hence the outturn will be worse than that of last year	
	Howrah	326,400	250 600	61 770	33 900	60	32	No jute remains from the crop of 190 in the Sadar Sub division but there is much left in the Amta and Singti thanas of the Uluberia Sub division				Third week of August	The weather was bad The general prospects are not good on account of heavy rain in July The decrease in the area sown has been due to the want of rain in the beginning of the season and to excessive rain in July	
	24-Parganas	3,100 533	1 089 700	86 400	55 100	68	53	A good deal of jute is said to remain in Basirhat	..			August	The weather conditions were unfavourable. At the time of sowing the rainfall was in considerable defect Then in June and July there was very heavy rain which damaged the crop and submerged the plants in low lying areas The general prospects of the crop owing to the unfavourable weather conditions are poor The decrease in the area sown is due partly to the fact that the price of jute fell last year and that of rice rose, so that people sowed rice instead of jute The full area also could not be sown owing to drought	

PRESIDENCY	Nadia	1 787 520	1 043,800	93 000	42 900	70	44	Little	Not cadastrally surveyed			End of August	The weather and rainfall were unfavourable The gen ral prospects of the crop are not good Heavy rain in June and in the beginning of July damaged the crop in some parts and stunted the growth of the plants Damage was also caused by insect pests. Hence the decrease in the estimated outturn The decrease in the area sown was due to the low price of jute obtained last year
	Murshidabad	1 371 520	965 500	95 400	30 100	1	44	Little				Middle of August	The weather and rainfall were not favourable The general prospects of the crop are not good Want of timely rain and decrease in the price of jute are th causes of decrease in the area and outturn this year
	Jessore	1 872 100	1 191 000	142 800	49 800	69	60	A small quantity				Middle to the end of August	The weather and rainfall were unfavourable The condition of the crop is not good The decrease in the area sown is due to the fact that the high prices of food-grains and the low price of jute last year induced cultivators to grow paddy on jute lands The want of sufficient rain in the latter part of July and August has damaged the crop and hence the poor outturn
	Khulna	3 049 016	570 000	37 500	16 700	65	62	Some	130 766	1903 04 to 1907 08	9 2	25th August	The weather was favourable in the Bagerhat Subdivision but unfavourable in the Sadar and Satkhira Subdivisions. The general prospects of the crop were unfavourable owing to the want of timely rain The outturn of the crop is expected to be worse in the Sadar and Satkhira Subdivisions but better in the Bagerhat Subdivision in comparison with last year's crop and normal crop The decrease in the area sown this year is due to the fall in the price of jute and increase in that of paddy The cultivator have sown more lands with paddy this year than with jute
PATNA	Champaran	2 259 840	1 447 600	5 900	2 000	91	69	No jute	2 2 9 840	1892 to 1899	60	Not commenced yet	The weather has not been favourable this year for want of rain The prospects of the crop are fair The decrease in the area sown is due to want of rain and moisture as well as to the fall in the price of jute

	Purnea	3,196 153	1 694,400	264 900	2 2 500	87	55	Very little	2 506 340	1901 02 and 1904-0	8 03	Beginning of August	The weather was not favourable to the crop Owing to want of sufficient water for steeping jute the general prospects of this crop are not good The decrease in the area as compared with last year's figures is due to the heavy fall in the price of jute which has discouraged the cultivator from sowing this crop the price fetched by jute being less than that of rice Absence of rain in July and August has materially affected the outturn of the crop The figures in column 6 have been revised after the publication of the preliminary forecast	
	Darjeeling	744 956	164 500	3 600	3 100	0	60	Very littl	200 519	1897 98 and 19 1-02	2 339	First week of August	The weather was not very favourable The general prospects of the crop are poor The expected outturn is much below that of a normal crop Owing to late and untimely rainfall the crop did not thrive well The date of harvesting this year was rather late fo want of sufficient water for steeping the crop The decrease in the area is due partly to the fall in the price of jute last season and partly to want of rain at the sowing time	

BHAGALPUR—*concluded*	Sonthal Parganas	3 500 800	1,545 300	8 900	1 200	15	58	Very little	3,272 009	1889 to 1903-04	1 245	1st Sept	The weather was not favourable The general prospects of the crop are not good The full area was not sown owing to want of timely rain and to the low prices at which jute was sold last season In the Rajmahal Subdivision many cultivators have abandoned the cultivation of jute for other crops this year owing to the latter cause
ORISSA ...	Cuttack ...	8 338,560	1 223,500	17 600	14,200	82	58	A small quantity on account of private consumption and low price of jute.	2 088 437	1888 95 to 1905-07	652	Last week of August	The weather was not favourable The general prospects of the crop are not good The decrease in area is partly due to want of timely rain and largely to the low price of jute and to the demand for an early crop of (*Beali*) rice
	Balasore ...	1 334 368	932,200	5 400	3 600	80	75	Little	1 095 778	1891-92 to 1894-95	138	1st week of Sept	There was want of rain in the sowing season but the weather was favourable later on The prospects of the crop are fair There has been a decrease in the area owing to want of timely rainfall

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF JULY 1908

DURING the last week of the preceding month rainfall was slight in North-East India, and confined mainly to Eastern Bengal and Assam, where it was light and local in character It ceased in fact as soon as the depression had moved sufficiently far to the west to cease to influence the weather in Bengal At the beginning of the month under report the western end of the trough of low pressure moved southward and permitted the Bay current to flow up the Gangetic plain A depression then appeared over Deltaic Bengal, and by the morning of the 9th had moved westward into Chota Nagpur It gave heavy rain over Deltaic Bengal, the rainfall over Lower Bengal and Orissa being in large excess for the week ending on the 9th During the next week rain fell in all parts of North East India, and was about normal in amount in each Division At the beginning of the week commencing on the 16th the trough of low pressure was close against the hills and rainfall was fairly general. Two shallow depressions passed in from the Bay and caused fairly general rain, but the precipitation in Bihar was again below the normal The weather in the last week of the month was similar in character and was again affected by shallow depressions passing inland from the Bay Very little rain fell in Bihar, and rainfall was in defect this week for nearly every Division Weather in the Bay was unusually quiet for the time of year, and none of the depressions developed into a cyclonic storm of any importance

Summary of temperature—Mean temperature was about normal everywhere except in Bihar where it was 2° in excess The highest temperature recorded was 105° 5 at Buxar and the lowest 71° 4 at Ranchi

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of July 1908 —

Summary of rainfall—The rainfall work of the province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that officer A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province

Rainfall was very irregularly distributed There was an excess of 34 per cent in Bengal, 8 per cent in Chota Nagpur and 1 per cent in Orissa, while the rainfall was 42 per cent in defect in Bihar

The mean pressure, temperature, etc, are deduced from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

NOTIFICATIONS

Midnapore

No 1988T R—The 14th October 1908—Whereas the Collecting Panchayat of the Moyna Outpost, in the district of Midnapore, complained to the Collector of that district that the neglect on the part of the zamindar of village Sribara to carry out the necessary repairs to the Srikantya sluice in pargana Moyna and to clear the silts in the drainage khals of that pargana had caused considerable inconvenience and loss to the public, and whereas under the terms of the Dowl of the Permanent Settlement the zamindar is bound to maintain the drainage of that pargana in an efficient condition, and whereas the notices served by the Collector on the interested proprietors, calling upon them to fulfil their obligations in this behalf were disregarded, and whereas in the course of an enquiry made by him, the Executive Engineer, Cossye Division, found that the construction of a new sluice at Srikantya was necessary in the interest of the public, and, whereas the Collector after conforming with the procedure laid down in sections 7 and 8 of the Bengal Embankment Act, II (B C) of 1882, and holding an enquiry under section 10 thereof had submitted a report in favour of the recommendation of the Executive Engineer, which has been approved by the Commissioner of the Burdwan Division and by the Board of Revenue, Lower Provinces, by whom it has been submitted for the consideration of the Lieutenant-Governor of Bengal Now, therefore, the Lieutenant-Governor having considered the said report and the Board's recommendation is pleased to direct, under section 14 of the said Act, that the said sluice at Srikantya on Embankment No 16, Hoodah No 14 in the district of Midnapore, be constructed at an estimated cost of Rs 16,152, in accordance with the plan prepared by the Executive Engineer, Cossye Division, and approved and sanctioned by the Superintending Engineer, South-Western Circle, and the Chief Engineer, Bengal, respectively The cost will be realised from the zamindars of the estates benefited by the scheme

Angul

(1) The outpost at Purnagarh has been converted into a police road-post, and in lieu thereof two new outposts have been established—one located at village Jaipara, and the other at village Puranakot

(2) The site of the Mahidharpur outpost has been moved from village Mahidharpur to village Bantala, and the Mahidharpur outpost will henceforth be known as the Bantala outpost

In consequence of the above alterations, the revised jurisdictions of the outposts, now attached to the Sadar thana, are declared to be as follows —

(*i*) The independent outpost at Chhendipada shall exercise jurisdiction over the villages mentioned in the annexed list A

(*ii*) The subordinate outpost at Jarpara shall exercise jurisdiction over the villages mentioned in the annexed list B

(*iii*) The subordinate outpost at Puranakot shall exercise jurisdiction over the villages mentioned in the annexed list C

(*iv*) The subordinate outpost at Bantala shall exercise jurisdiction over the villages mentioned in the annexed list D

PRELIMINARY FORECAST OF THE INDIGO CROP OF BENGAL, 1908

THE following note is published for general information

F W DUKE

Offg Chief Secy to the Govt of Bengal

The 20th October 1908

DEPARTMENT OF AGRICULTURE, BENGAL

PRELIMINARY FORECAST OF THE INDIGO CROP OF BENGAL, 1908

[On an average of the five years ending 1906 07, the area under indigo in the territory to which the forecast relates has represented some 36 7 per cent of the total area under indigo in British India]

Explanatory —The present forecast deals with the twelve districts which still grow indigo in this Province

Character of the season —Climatic conditions were generally unfavourable in all these districts In North Bihar, where the crop is chiefly cultivated, the young Java plants

suffered in consequence of the short rainfall in 1907, and the absence of the *Hathiya* rains The February-March sowings of the Sumatra variety yielded a very poor crop and in some places was almost a total failure The continued drought this year retarded the growth and early manufacture of the Java 1st cuttings and the failure of the monsoon has also retarded the growth of plants from 2nd cuttings In the less important indigo-growing districts of Purnea and Monghyr, the crop suffered from drought in the early part of the season, but prospects improved slightly in Purnea later on in July and August when the weather was more favourable

Area sown—The area sown this year as compared with the two preceding years is noted below —

	Acres
Area sown in 1908	129,200
" " " 1907	146,800
" " " 1906	137,800

The decrease in the area sown this year is due to a dry season

Character of the crop—Of the important indigo districts, Saran reports 62 per cent, Champaran 60 per cent, Muzaffarpur 82 per cent and Darbhanga 65 per cent of a normal crop, Purnea and Monghyr expect 50 and 58 per cent crops respectively

The estimated percentage outturn for Lower Bengal including the minor districts of Bihar amounts to 60 per cent and that for North Bihar including Monghyr to 66 per cent The average for the Province is estimated at 65 per cent of the normal

Outturn—The total outturn of the crop for the Province amounts, according to the present district returns, to 22,545 factory maunds

According to the estimate of Messrs Moran & Co, the outturn of the indigo crop this year is likely to amount to 20,000 factory maunds

The mean pressure, temperature, etc , are deduced from the traces of the Kundsen's Barograph and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

THE INDIAN LAW REPORTS

Published in FOUR SERIES, viz.

CALCUTTA MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta Madras Bombay and Allahabad respectively

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,

or

Acts of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT

The following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honour on the 31st August, 1908, and, having been assented to by His Excellency the Viceroy and Governor General on the 12th October, 1908, is hereby published for general information —

BENGAL ACT NO V OF 1908

THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) ACT, 1908,

CONTENTS.

BENGAL ACT No V OF 1908.

THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) ACT, 1908

An Act to amend the Bengal Local Self Government Act of 1885

WHEREAS it is expedient to amend the Bengal Local Self-Government Act of 1885 in manner hereinafter appearing,

It is hereby enacted as follows —

Short title. Ben Act III of 1885.

1 This Act may be called the Bengal Local Self-Government (Amendment) Act, 1908

Repeal of portions of Bengal Act III of 1885. Ben Act III of 1885.

2 The following portions of the Bengal Local Self-Government Act of 1885 are hereby repealed, namely —

in section 1, the words "or of the districts of Singhbhum, the Sonthal Parganas or the Chittagong Hill tracts",

in the proviso to section 6, the words "and in any other sub division to which the provisions of the next succeeding Chapter shall have been extended",

section 16,
section 24,
the last paragraph of section 25,
section 34,
section 72,
the proviso to section 73, and
in section 103, the words "A Local Board shall exercise powers of supervision and control over all Union Committees within the area under its authority, and"

Addition to section 5.

3 To section 5 of the said Act the following shall be added, namely —

"and 'sanitation' includes water-supply"

Amendment of sections 7 11 and 15.

4 (1) In section 7 of the said Act, after the figures "23" the words, figures and letter "section 23A or section 29" shall be inserted.

(2) For the words "Lieutenant Governor," where they occur in the sixth paragraph of section 7, in section 11, and in the first paragraph of section 15 of the said Act, the word "Commissioner" shall be substituted

New section 10.

5 For section 10 of the said Act, the following shall be substituted, namely —

Power to appoint members of District or Local Board if prescribed proportion not duly elected.

"10 If, within the time prescribed by rules made by the Lieutenant-Governor under this Act, the prescribed proportion of elected members of any District Board or Local Board is not duly elected, the Commissioner may appoint members to make up that proportion"

Amendment of proviso to section 13.

6 In clause (2) of the proviso to section 13 of the said Act, for the words 'the area under the authority of such Local Board" the words "the sub-division for which such Local Board has been established" shall be substituted

The Bengal Local Self-Government (Amendment) Act, 1908.

(Secs 7-10)

Amendment of section 17.

7 In section 17 of the said Act, for the words "Lieutenant-Governor" and for the word "Commissioner," in both places in which they respectively occur, the word "Commissioner" and the words "District Board," respectively, shall be substituted

Amendment of section 18

8 (*1*) Section 18 of the said Act shall be re numbered section 18, sub-section (*1*)

(*2*) In the said sub-section (*1*),—

(i) for the words "Lieutenant-Governor" wherever they occur, the word "Commissioner" shall be substituted,

(ii) for the words "or Local Board" the words "Local Board or Union Committee" shall be substituted,

(iii) in clause (*c*), the words from "or is convicted" to the words "unfits him to be a member" are hereby repealed

(*3*) To the said section the following shall be added, namely —

"(*2*) Any member who is removed under sub section (*1*) may appeal to the Lieutenant-Governor, whose decision shall be final"

New section 18A

9 After section 18 of the said Act the following shall be inserted, namely —

Power of Lieutenant Governor to remove members after proceedings in Criminal Court

"18A The Lieutenant-Governor may remove any member of a District Board, Local Board or Union Committee who is convicted of any such offence, or is subjected by a Criminal Court to any such order, as, in the opinion of the Lieutenant-Governor, formed after due inquiry, unfits him to be a member

New sections 19 and 19A

10 For section 19 of the said Act the following shall be substituted, namely —

Filling of casual vacancies

"19 (*1*) When the place of an elected member of a District Board or Local Board becomes vacant by his resignation, removal or death, a new member shall be elected, in accordance with rules made by the Lieutenant Governor under this Act, to fill the place

Provided that if, within the time prescribed by such rules, no new member is duly elected, the Commissioner may appoint a new member to fill the place

(*2*) When the place of an appointed member of a District Board or Local Board becomes vacant as aforesaid, the Commissioner may appoint a new member to fill the place

(*3*) No act of any District Board or Local Board, or of its officers, shall be deemed to be invalid by reason only of the fact that the number of members of the Board, at the time of the performance of the act, was less than the prescribed number

Term of office of member of District Board or Local Board

"19A (*1*) A member of a District Board or Local Board who has been appointed by official designation shall, subject to sections 17, 18 and 18A of this Act, and unless the Lieutenant-Governor otherwise directs, continue to be a member of the Board while he continues to hold the office to which such designation refers

(*2*) A member of a District Board or Local Board who has been elected or appointed under section 19 shall, subject as aforesaid, hold office until the person whose place he fills would regularly have gone out of office, and shall then go out of office

The Bengal Local Self Government (Amendment) Act, 1908.

(Secs. 11-16.)

(3) In cases not provided for by sub section (1) or sub section (2) of this section, the term of office of a member of a District Board or Local Board shall be fixed by the Lieutenant-Governor by rules, which may provide for the retirement of members by rotation

(4) An outgoing member of a District Board or Local Board may, if otherwise qualified, be re-elected or re-appointed "

Amendment of section 22.

11 In section 22 of the said Act, after the word "elected" the words "either by name or by virtue of his office" shall be inserted

New section 23A

12 After section 23 of the said Act, the following shall be inserted, namely —

Appointment of Chairman or Vice Chairman of District Board on failure to elect

"23A If any District Board fails to elect a Chairman or Vice-Chairman within the time prescribed by rules made by the Lieutenant-Governor under this Act, the Lieutenant-Governor may appoint a Chairman or Vice-Chairman, as the case may be "

Amendment of section 25

New sections 115 to 119

55 For sections 115 to 119 of the said Act the following shall be substituted, namely —

"115 Every Union Committee shall, subject to the control of the District Board, and in accordance with rules made by the Lieutenant Governor under this Act,—

Duties of Union Committee as to sanitation conservancy and drainage

(1) provide, as far as possible, for the sanitation and conservancy of the Union and the prevention of public nuisances therein,

(2) make special arrangements for the sanitation and conservancy of fairs and *melas* held within the Union,

(3) have control of all drains and other conservancy works within the Union which are not under the control of any other authority, and

The Bengal Local Self Government (Amendment) Act, 1908

(*Sec 55*)

(*4*) execute all works which are necessary for improving the sanitation, conservancy or drainage of the Union

Provided that the District Board may itself undertake any such work which, by reason of its magnitude, or of the amount of expense likely to be incurred thereon, cannot, in the opinion of the District Board, be satisfactorily executed by the Union Committee

Powers of Union Committee as to sanitation conservancy and drainage

"116 (*1*) If it appears to the Union Committee that, for any reason, it is necessary to improve the sanitary condition of any village or part of a village within the Union, the Committee may, in accordance with a scheme approved by the District Board and sanctioned by the Commissioner under rules made by the Lieutenant-Governor under this Act,—

(*a*) cause huts or privies to be removed, either wholly or in part,

(*b*) cause private drains to be constructed, altered or removed,

(*c*) cause streets, passages and public drains to be constructed or widened,

(*d*) cause tanks or low lands to be filled up or deepened, and

(*e*) cause such other improvements to be made as, in its opinion, are necessary to improve the condition of such village or part

(*2*) The Union Committee may, by written notice,—

(*i*) require the owner or occupier of any hut, or the owner of any privy, to remove such hut or privy either wholly or in part, in pursuance of clause (*a*) of sub-section (*1*), or

(*ii*) require the owner or occupier of any building to construct private drains therefor or to alter or remove private drains thereof, in pursuance of clause (*b*) of sub section (*1*),

within a period to be specified in the notice

(*3*) If any work required by and such notice is not executed within the period specified in the notice, the Union Committee may themselves cause such work to be carried out

(*4*) All expenses incurred by the Union Committee under sub section (*1*) or sub section (*3*), including such reasonable compensation as the Committee may think fit to pay to the owners or occupiers of huts or privies removed, shall be met out of the Union Fund

Cleansing of villages

"117 (*1*) The Union Committee may, with the sanction of the District Board, employ a special establishment for the cleansing of any village within the Union

(*2*) If any village for which no establishment is maintained under sub-section (*1*) appears to the Union Committee to be in a filthy condition, the Committee may, by written notice require the persons who occupy buildings in the village to cleanse their holdings, to the satisfaction of the Committee, within a period to to be specified in the notice

(*3*) If any person on whom notice has been served under sub-section (*2*) fails to comply with the requisition contained in the notice, the Union Committee shall,

unless reasonable cause to the contrary is shown, cause his holding to be cleansed, and

recover from such person such portion of the costs of such cleansing as may be approved by the Sanitation Committee, as if the same were an arrear of the assessment imposed under the Village-chaukidari Act, 1870, or where the Chota Nagpur Rural Police Act, 1887, is in force, under that Act

Ben Act VI of 1870.
Ben Act V of 1887

The Bengal Local Self-Government (Amendment) Act, 1908

(See 55.)

"118 (*1*) The Union Committee may, subject to rules made by the Lieutenant Governor under this Act, by written order,—

Power of Union Committee to control building, and penalties for disobedience

(*a*) direct, in accordance with a scheme approved by the District Board and sanctioned by the Commissioner, in respect of any village, that no building which it is proposed to erect in such village, and no addition to any existing building therein, shall be placed in advance of an alignment to be prescribed by the Committee and demarcated on the ground, and

(*b*) prescribe, in accordance with the said scheme, the space which shall intervene between each new building, and between new buildings and any road in the village

(*2*) Where any building, or any addition thereto, has been placed in contravention of an order passed by the Union Committee under sub section (*1*), the Union Committee may apply to the District Magistrate, and such Magistrate may make an order—

(*i*) directing that the work done, or so much of the same as has been executed in contravention of the order passed under sub section (*1*), be demolished by the owner of the building or altered by him to the satisfaction of the Committee, as the case may require, or

(*ii*) directing that the work done, or so much of the same as has been executed in contravention of the order passed under sub section (*1*), be demolished or altered by the Union Committee at the expense of the owner

Provided that the Magistrate shall not make any such order without giving the owner and occupier full opportunity of adducing evidence and of being heard in defence

(*3*) If any person to whom a direction to demolish or alter any building is given under sub-section (*2*), clause (*i*), fails to obey the same, he shall be liable to fine which may extend, in the case of a masonry building, to one hundred rupees, and, in the case of any other building, to twenty rupees, and to further fine which may extend, in the case of a masonry building, to ten rupees, and, in the case of any other building, to two rupees, for each day during which he so fails after the first day

"118A (*1*) A Union Committee may provide the Union, or any part thereof, with a supply of water proper and sufficient for public and private purposes, and, for the purposes of this section, may—

Water supply

(*a*) construct, repair and maintain tanks or wells, clear out streams or water-courses, and do any other necessary acts,

(*b*) with the sanction of the District Board, purchase or acquire by lease any tank, well, stream or water-course, or any right to take or convey water, within or without the Union,

(*c*) with the consent of the owner thereof, utilize, cleanse or repair any tank, well, stream or water course within the Union, or provide facilities for obtaining water therefrom,

The Bengal Local Self-Government (Amendment) Act, 1908

(Sec 55)

(*d*) deal with any tank, well, pool, ditch, drain or place containing, or used for the collection of, any drainage filth, stagnant water or matter likely to be prejudicial to health—by draining or cleansing it, or otherwise preventing it from being prejudicial to health, but not so as in any case to interfere with any private right, or

(*e*) contract with any person for a supply of water

(2) When a Union Committee has, under clause (*c*), with the consent of the owner, cleansed or repaired, or provided facilities for obtaining water from, any tank, well, stream or water-course, the same shall, subject to any rights retained by the owner with the concurrence of the Committee, be reserved for drinking and culinary purposes, and shall be kept open to access by the public

(3) Any tank, well, stream or water course which a Union Committee may construct, repair or maintain under clause (*a*), or purchase or acquire by lease under clause (*b*), shall remain under the control and administration of the Union Committee, and the Committee may, by order duly published in the village or villages in which such tank, well, stream or water course is situated, set apart the same, or, subject to the provisions of clause (*c*), any other tank, well, stream or water-course within the Union, for the supply of water for drinking and culinary purposes

"118B The Union Committee, or any member, officer or servant thereof, may enter into or upon any building or land, with or without assistants or workmen, in order to make any inspection or execute any work for the purposes of or in pursuance of section 115, section 116, section 117, section 118 or section 118A

Power of entry

Provided as follows —

(*a*) no such entry shall be made between sunset and sunrise,

(*b*) no dwelling house shall be so entered, unless with the consent of the occupier thereof, without giving the said occupier at least twenty-four hours' previous written notice of the intention to make such entry, and

(*c*) due regard shall always be had, so far as may be compatible with the exigencies of the purpose for which the entry is made, to the social and religious usages of the occupants of the premises entered

"118C (*1*) If the income of the Union Committee from other sources is insufficient to meet the expenses incurred, or likely to be incurred, by the Committee in carrying out its duties or exercising its powers under section 115, section 116, section 117, section 118 or section 118A,

Method of meeting cost of works of sanitation drainage and conservancy of villages

the Committee may, from time to time, impose on the owners of buildings, tanks, wells or water courses, or the occupiers of buildings within the Union, or in any village therein, such assessment as may be required approximately to meet the

The Bengal Local Self-Government (Amendment) Act, 1908

(Sec 55)

LIBERALITY OF BABU JAGANNATH THIRANI, OF KISHANGANJ

No 687T —Medl, dated Darjeeling, the 21st October 1908

From—C E A W OLDHAM, Esq, Secy to the Govt of Bengal, Municipal Dept,

To—The Commissioner of the Bhagalpur Division

I AM directed to acknowledge the receipt of your memorandum No 18Pwct, dated the 24th September 1908, in which you report that Babu Jagannath Thirani, of Kishanganj, has paid Rs 3,400 towards the improvement of the Kishanganj Dispensary, in the district of Purnea.

2 In reply, I am to request that you will be so good as to convey to the donor an expression of the Lieutenant-Governor's appreciation of his liberality and public spirit

The following report is published for general information —

F W DUKE,

Offg Chief Secretary to the Govt of Bengal

The 19th October 1908

ADMINISTRATION REPORT OF THE METEOROLOGIST, CALCUTTA, FOR THE YEAR 1907-08

I was in charge of the Bengal Meteorological Department during the whole of the past year

2 The third class observatory at Monghyr was started on the 10th April 1907

3 All the second class observatories under my control, with the exception of Darjeeling, were reduced to the status of third class observatories during the year The observers at these stations now record observations at 8 A M only

4 The total number of observatories under my control on the 31st March 1908 was 70, including 1 second class, 48 third class, 19 fourth class and 2 voluntary observatories

5 The following table gives the names and distribution of these 70 observatories —

SECOND CLASS OBSERVATORIES (1)

Darjeeling

THIRD CLASS OBSERVATORIES (48)

Angul	Daltonganj	Muzaffarpur
Arrah	Dehri	Mymensingh
Balasore	Dinajpur	Narayanganj

Bhagalpur	Gaya	Puri
Bogra	Hazaribagh	Purnea
Burdwan	Jalpaiguri	Purulia
Buxar	Jessore	Rampur Boalia
Calingapatam	Krishnagar	Ranchi
Chaibassa	Laheria Serai (Darbhanga)	Raniganj
Chapra	Malda	Rangpur.
Chittagong	Midnapore	Sambalpur
Comilla	Monghyr	Saugor Island
Cuttack	Motihari	Sirajganj

FOURTH CLASS OBSERVATORIES (19)

Bishnath	Doom Dooma	Kurseong
Borjuli	Goalundo	Nagrakatta
Brahmanbaria	Golaghat	Pabna
Chandkhira	Jorehat	Panerihat
Dam Dim	Hailakandi	Panighatta
Dikom	Kalchini	Salona.
	Srimangal	

VOLUNTARY OBSERVATORIES (2)

Cooch Behar	Fraserganj

6 Thermograph observations were discontinued at Balasore, Chittagong, Cuttack, Hazaribagh, Puri and Saugor Island during the year Barographs only are now in use at these places and at Burdwan

7. *Inspection of Observatories*—The following observatories were inspected during the year under review —

Name of station	Dates of inspection
Balasore	4th to 6th April 1907
Barisal	27th to 30th July 1907
Berhampore	21st to 23rd November 1907
Chaibassa	17th to 26th August 1907
Cooch Behar	16th to 18th September 1907
Cuttack	18th and 19th April 1907
Daltonganj	7th to 9th December 1907
False Point	12th and 13th April 1907
Gaya	7th and 8th December 1907
Jalpaiguri	9th to 14th September 1907
Jessore	1st to 3rd August 1907
Puri	22nd to 24th April 1907
Purnea	19th to 30th March 1908
Sirajganj	19th to 24th July 1907

8 In addition to the above, Raniganj was visited in July by Babu Jati Lal De and again by Dr Simpson, Imperial Meteorologist, in December The visits were made in connection with the question of the proposed removal of the observatory to Asansol Nothing has yet been settled in this matter, and the observatory still remains in the Raniganj Sub-Jail

9 Owing to extensions to the Telegraph Office at Chittagong it was found necessary to remove the thermometer shed Babu Jati Lal De was deputed to select a site He visited Chittagong in March 1908, and in consultation with the Sub-Divisional Officer, P W D, selected a site to the eastern extremity of the Telegraph hill A new shed was built and the thermometer cage was removed to it on 19th April 1908 by Babu Jati Lal De, who happened to visit the station again on his way to Akyab The new site is situated only a few yards off from the old one, and the exposure at both sites is similar in every respect

10 *Work at observatories*—This can only be judged by the nature of observations submitted, and I am glad to say that the work done by the observers has been on the whole satisfactory The work of the observers at Barisal, Jalpaiguri, Chapra and Malda was again below the average standard The observer at Krishnagar has also been careless

11 *Barisal*—The observer, who is an employé of the Postal Department, was for the most part of the year on deputation as Inspector of Post Offices, and the observations submitted by his *locum tenens* were far from satisfactory

12 *Jalpaiguri*—The observer, Babu Priya Nath Biswas, head clerk of the Superintendent of Post Offices, Jalpaiguri Division, showed complete indifference to his meteorological duties, and was, on the representation of the Director-General of Observatories, removed from Jalpaiguri by the Local Government

13 *Malda*—The Postmaster, who is the observer at this station, gave trouble in various ways and was reported to the local Superintendent of Post Offices

14 *Chaibassa*—The observatory was transferred to the charge of the Civil Surgeon, Singhbhum, whose clerk commenced to record the observations from the 22nd August 1907 The thermometer shed has not yet been removed from its present site, but the wind instruments were removed to the jail and brought inte use there on the 26th August 1907

15 *Chapra*—The wind observations which were in abeyance from 2nd February 1907 were resumed on 5th August 1907 The observer at Chapra has been careless and was fined on several occasions

16 *Dinajpur*—The old observer, Abdul Aziz Khan, retired on the 30th September, and Azizar Rahman was appointed in his place The former acted as observer for a long time and his observations were carefully recorded There was formerly no Superintendent of the Dinajpur Observatory, but the Road Cess Deputy Collector has now kindly consented to undertake this duty.

17 *Patna* —The wind instruments were removed to the roof of the new hospital building and observations were recorded at the new site from 12th March 1908

29 At the request of the Superintending Engineer, Sone Circle, I arranged with the meteorological observer at Daltonganj for the despatch by him of an urgent telegram direct to the Sub Engineer, Dehri Workshops, whenever the rainfall during the 24 hours preceding 7 A M of any day was one inch or more The Director General of Observatories has ordered the payment of a rupee to the observer at Daltonganj for each telegram thus sent The arrangement under which information of the occurrence of rainfall above one inch at Daltonganj was communicated by me to the Sub-Engineer, Dehri Workshops, was hence cancelled

30 Arrangements were made during the year to warn Port Blair of storms in its neighbourhood, and a special code of storm singals was prepared for use at that Port During the past year 10 warning messages were sent to to the Port Officer and orders to hoist warning or danger signals were issued on four occasions

31 The Government of Eastern Bengal and Assam desired that telegraphic warnings of approaching storms should be given to the port of Barisal (the head quarters station of the Bakarganj district) Warnings were therefore sent to the Collector of Bakarganj in accordance with their request, negotiations are at present in progress to extend these warnings to stations in the Sundarbans for the benefit of the river steamers

32 The dates of the principal storms and barometric depressions occurring during the past year are given in the following table —

Table giving a brief statement of the storms which affected the Bay of Bengal Coasts during the year 1907 08

Number of storm	Period of depression or storm	Character of storm	Coast affected.
1	3rd to 5th May	A cyclonic circulation round the Andamans was shown at 8 A M on the 3rd During the next 24 hours a storm of considerable severity but of very small extent developed rapidly and crossed the Tenasserim coast on the 4th The storm gave torrential rain to Moulmein	Tenasserim Coast
2	12th to 15th May	A low pressure area developed in the south of the Bay on the 12th It developed slowly and passed from the north west of the Andamans over Diamond Island about mid night of the 15th It broke up rapidly after it crossed the coast, and appears to have been felt to a small extent only at Bassein, near which station its centre must have passed	Arakan Coast

Number of storm	Period of depression or storm	Character of storm	Coast affected
3	13th to 18th June	An area of low pressure existed for some days in the Bay, but it was not till the 13th that it showed signs of concentrating in the neighbourhood of Waltair On the 15th it had developed into a storm and commenced to move slowly in a northerly or north-easterly direction During the night of the 17th it increased rapidly in severity and crossed the coast on the after noon of the 18th slightly to the east of Saugor	Bengal Coast
4	22nd to 24th June	On the morning of the 22nd a well marked depression was shown lying to the east of the Sandheads It intensified during the next two days into a severe storm and crossing the coast on the 24th passed practically over Calcutta	Bengal Coast
5	11th to 14th August	A depression formed near Gopalpur on the 11th It developed slowly until the 14th when it was of moderate intensity It crossed the coast on the evening of the same day near Balasore	Orissa Coast.
6	18th to 20th August	A shallow depression appeared on the 18th over South-West Bengal It moved ultimately in a westerly direction and was shown to be lying to the north of Balasore on the morning of the 20th, when it commenced to fill up This storm was of an unusual character as it formed inland and appeared to move originally in a south-westerly direction causing very disturbed weather at the head of the Bay	Bengal and Orissa Coasts
7	25th to 27th August	A depression formed over the head of the Bay on the 25th It began moving in a west north-west direction on the 16th and crossed the coast on the afternoon of the 27th to the north of False Point without causing much disturbed weather	Orissa Coast.
8	1st and 2nd September	A low pressure area which formed at the head of the Bay on the 31st August intensified into a small storm during the next 24 hours and its centre appeared to the east of Saugor island on the morning of 1st September On the 2nd the centre was slightly to the north of Calcutta It then disappeared without moving very far from its place of origin	Bengal Coast.

Number of storm	Period of depression or storm	Character of storm	Coast affected
9	4th to 6th October	A shallow low pressure area which existed to the south of Rangoon on the 3rd moved into the Bay, and concentrated on the 4th On the morning of the 5th the depression was to the south-west of Akyab and appeared to be moving rapidly towards the north west angle of the Bay It however curved and crossed the coast to the south of Chittagong on the 6th	Chittagong Coast
10	12th to 16th October	Weather was unsettled near the Andamans on the 12th The area of unsettled weather gradually drifted towards the Circars Coast and on the 15th appeared to be moving in a north-westerly direction towards Vizagapatam Weather remained disturbed in that region till the 17th	Circars Coast
11	22nd and 23rd October	On the morning of the 22nd there were indications that a depression was approaching the Andaman Sea No definite storm formed, but weather remained unsettled off the Coromandel Coast till the 25th	Coromandel Coast.
12	9th to 16th November	Weather was very unsettled in the south of the Bay during the early part of the month, and on the 9th observations suggested the formation of a cyclonic storm to the west of Port Blair After moving in a westerly direction and approaching the coast near Nellore the storm diminished rapidly in intensity and on the 16th had practically disappeared	Coromandel Coast
13	21st to 26th November	Unsettled weather prevailed in the Andaman Sea from the 21st to 24th On the 25th a storm formed to the west or south west of Port Blair and moved towards the Madras Coast. It crossed the coast near Nellore on the 26th	Coromandel Coast
14	3rd to 9th December	For some days previous to 3rd December unsettled weather prevailed in the south of the Bay On that day the depression intensified rapidly and remained stationary to the west of Slipper island On the 6th it appeared to be moving slowly in a westerly direction and continued its westerly course till the 9th when it disappeared without passing inland	Coromandel Coast.

35 The changes in the telegraphic regulations, alluded to in last year's report, under which the Calcutta telegraph office declined to accept multiple telegrams, caused considerable inconvenience and unnecessary delay in the working of the storm warning service A fresh system however was devised and brought into use in June The new arrangement appears to be satisfactory in every respect

36 I have again to express my thanks to the Telegraph Department for the trouble they are taking to transmit punctually the daily weather telegrams to my office

37 I have much pleasure in recording the excellent work done for this Department by the Wireless Telegraph stations at the Sandheads, Diamond Island, Slipper Island and the Andamans I have found the telegrams from these stations of the greatest value for the purpose of storm warning

38 *Office Establishment* —The office has worked to my satisfaction during the year, and I have to thank Babu Jati Lal De for his careful supervision of the daily weather report section Babu Satish Chandra Ghosh has again proved himself an useful and promising officer

FIRST FORECAST OF THE WINTER RICE CROP OF BENGAL, 1908

THE following note is published for general information

F W DUKE,
Offg Chief Secy to the Govt of Bengal

The 24th October 1908

DEPARTMENT OF AGRICULTURE, BENGAL

FIRST FORECAST OF THE WINTER RICE CROP OF BENGAL, 1908

[On an average of five years ending 1906 1907, the area under winter rice in the territory to which the forecast relates has represented some 28 2 per cent of the total area under winter rice in British India.]

Character of the season —Ante monsoon showers were defective in April, May and the beginning of June The monsoon did not set in till about the middle of June when heavy showers fell in South-West Bengal In the rest of the Province, however, the fall during this period was below the normal In July and August good rain was received, Bihar excepted The fall was heavy in South-West Bengal in July and in Orissa in both July and August and crops suffered somewhat in consequence in parts of these tracts In Bihar the rainfall was deficient throughout the season and transplantation could not be effected in unirrigated areas Short rainfall also affected the growth of the seedlings in many places Insect pests did damage in Midnapore, in the 24 Parganas and in Jessore The season has not been unfavourable on the whole, excepting Bihar where prospects are not good

Area sown —The area cultivated with winter rice this year is reported to be 17,547,700 acres against 19,836,300 acres estimated to have been sown last year The estimate of the normal area is accepted as 20 832,900 acres The decrease in this year's area is chiefly due to drought in Bihar at the sowing season

Outturn —Appendix I of the report shows that Bankura and Sambalpur estimate more than a normal crop (*viz* 120 and 105 per cent respectively) Burdwan, Ranchi, Manbhum and Singhbhum estimate 100 per cent crops Five districts report from 90 to 99 per cent crops, four districts from 80 to 89 per cent and six districts from 70 to 79 per cent crops. Gaya and Darjeeling submit estimates of a 69

per cent crop, Champaran a 62 per cent crop, while Nadia, Shahabad and Monghyr return estimates of 59, 55 and 52 per cent of the normal outturn. In the remaining 6 districts, the following outturns are anticipated —Bhagalpur (47 per cent), Saran (43 per cent), Purnea (41 per cent), Patna (37 per cent), Muzaffarpur (36 per cent) and Darbhanga (20 per cent) Recent rain has improved prospects in Bihar

The outturn of the Province according to the district returns now received amounts to 80 per cent of a normal crop

REPORT ON THE COTTON CROP OF BENGAL, OCTOBER 1908

THE following note is published for general information.

F W DUKE,
Offg Chief Secy to the Govt of Bengal.

The 24th October 1908

DEPARTMENT OF AGRICULTURE, BENGAL

SECOND REPORT ON THE COTTON CROPS OF BENGAL, OCTOBER 1908

[On an average of the five years ending 1906-07, the area under the cotton crop in the territory to which this forecast relates has represented some 0·38 per cent. of the total area under cotton in India.]

Explanatory—This report deals with the progress of sowings of the crops since the publication of the first report in August last and with the general condition of the standing crops

Character of the season—The early cotton crop is important in the Sonthal Parganas, Sambalpur, and in Chota Nagpur The condition of the crop is fair except in parts of the Sonthal Parganas where it has suffered from deficient rain and in Sambalpur and Angul where on the other hand it has suffered from excessive rain in August The late variety is important in North Bihar and in Singhbhum and Cuttack It is sown partly before and partly after the rainy season The general condition of the crop on the areas sown up to this time is reported to be fair Sowings have not yet commenced in Bankura and Cuttack

Area sown—The area sown this year with the early crop is now reported to be 34,072 acres against 35,341 acres estimated to have been sown last year.

The area sown with late cotton up to the present is reported to amount to 28,020 acres, as compared with 28,760 acres returned in the first forecast The decrease is chiefly due to the revision of figures in Saran Last year's area under this crop was estimated at 34,924 acres

MARINE DEPARTMENT

The 23rd October 1908

No 122Marine—In exercise of the power conferred by section 10 of Act I of 1859 (an Act for the amendment of the law relating to Merchant Seamen), the Lieutenant-Governor proposes to make the following additions in the Rules, issued under the Notification of this Government, No 30Marine, dated the 20th March 1906, for the conduct of examinations of Masters and Mates of Foreign going ships and Home Trade ships, and as to the qualifications to be required The additional rules will be taken into consideration on the 1st of December 1908, and any criticisms or suggestions received before that date will be considered

W A INGLIS,
Secy to the Govt of Bengal

Special Regulations relating to the examination of Masters and Mates to apply only where the Candidate has served an Apprenticeship in an approved sea going Training Ship with a view to promotion in the service of the Company to which the Training Ship is attached

Recognition of service on the training ship as qualifying for examination for a certificate as Second Mate.

1 The training ship must be a sea going cargo carrying square-rigged sailing vessel and the course of study and practical training which the cadets receive must be approved by the Board of Trade At the end of four years' service in the training ship the cadet will be qualified for examination for a certificate as Second Mate, provided

(1) he can produce a testimonial to the effect that both his conduct and his ability have given satisfaction during the whole period, and

(2) that he has served at sea for not less than four-fifths of the time, that is to say has not spent more than one fifth of the time in home ports

Cf paragraph 121 of Marine Department Notification No 30Marine, dated 20th March 1906

If the cadet has served previously for two years in either the "Conway" or the "Worcester" training ship this time will be allowed to count as one year's qualifying service and he will be required to serve for three years only in the Company's training ship before he can be allowed up for examination for a certificate as Second Mate (Ordinary)

Cf paragraph 120 of Marine Department Notification No 30Marine, dated 20th March 1906

Recognition of service as junior officer as qualifying for examination for a certificate as First Mate

2 A candidate who has served for four (or three) years on the training ship may be allowed up for examination for a certificate as First Mate (Ordinary) when he has served whilst holding a certificate as Second Mate for two years as junior bridge keeping officer of the watch upon vessels of the Company satisfying certain requirements (see paragraph 4)

Recognition of service (a) as senior officer and (b) as senior of the junior officers as qualifying for examination for a certificate as Master

3 A candidate who has obtained a certificate as First Mate in the above way may be allowed up for examination for a certificate as Master (Ordinary) when he has served for eighteen months whilst holding the certificate as First Mate as a senior watch keeping officer upon vessels of the Company satisfying the same requirements (see paragraph 4)

If the candidate has served for eighteen months as senior of the junior officers, *i e*, the officer next below the junior of the officers in full charge of the watch whilst holding the certificate as First Mate he may be allowed up for examination for a certificate as Master (Ordinary) on the understanding that the certificate as Master would not be issued to him until he had completed twelve months service as senior watch-keeping officer, the service in both cases to be performed on vessels satisfying the same requirements (see paragraph 4)

Limits of application of paragraphs 2 and 3

4 The special regulations (paragraphs 2 and 3) in regard to the acceptance of service as qualifying for the examinations for certificates as First Mate and Master shall apply only when the service is performed in the specified capacities upon ocean-going steamers of not less than 8,000 tons gross, making an average speed of 16 knots or upwards and carrying a crew of not less than 130 men including at least six deck officers beside the Master

The special regulations to be considered part of the existing Regulations

5 These regulations are to be considered as part of the Regulations relating to the examination of Masters and Mates in the Mercantile Marine for Colonial and Home Trade Certificate of Competency issued by the Government of Bengal in 1906, and all the provisions of the latter will apply to the examination of candidates who have qualified under the special regulations, except where they specifically provide otherwise

Signalling

THE standard of efficiency in Signalling required from candidates for the Extra Masters' Certificate and for the Voluntary examination in Signalling after 1st July 1908, will be as follows —

Candidates must be capable of sending and reading signal made by—(1) Semaphore at a rate of 10 words per minute (2) Morse, flashing and flag waving at a rate of 6 words per minute (the average length of a word to be calculated at 5 letters)

The Semaphore test will be a prose message of about 30 words

The Morse flashing and flag-waving test will be a test message (see the British Signal Manual) followed by a prose message of about 30 words

The candidate must attain a degree of accuracy of at least 90 per cent in reading both Semaphore and Morse signals

Each candidate will be orally examined as to his knowledge of the International Signal Book and the British Signal Manual With regard to the latter, special attention will be paid to the prescribed procedure of signalling both by day and night between H M ships and the Mercantile Marine

The examination should in all cases and for all grades commence with the usual examination in the International Code, a good working knowledge of which should always be expected

This should be followed by an examination in the British Signal Manual, the candidate being expected to know the meaning of any or all of the single flag signals given therein, and the signification of the Pilot Jack when incorporated in a hoist He should also be required to make or read from the Pilot Jack table a hoist given by the Examiner Candidates need not be expected to commit the Pilot Jack table to memory, but there should be no hesitation whatever in making or reading a signal He should also know how to recognise any of the three flag hoists given at the end of the Signal Manual and not confuse them with those of the International Code

For the ordinary examination candidates should be required to read Morse letters made slowly and with a reasonable interval—say 3 to 5 seconds—between each letter by both flashing lamp and flag waving, and also be able to read letters made either by hand flags or mechanical Semaphore, with the same interval allowed between the letters He should also be able to make any given letters by any of these methods

For the Extra Master and Voluntary examination in Signalling, candidates must be able to make and take in Morse and Semaphore signals at the rate prescribed

Morse flashing and flag-waving—The candidate should be first required to make a test message (in accordance with test card) and then a prose message of about 25 words, a maximum of 50 marks being allotted to each message, the candidate to gain at least 90 per cent of marks for the whole (for making of test message see table at back of test cards)

The prose (spelling) message is left to the discretion of the Examiner, and may be any passage from a book or newspaper in English When the passage contains figures and the candidate does not choose to spell them out, the Examiner should see that the proper signs are made before and after the figures

Each incorrect word or group of figures is to be penalised by the loss of two marks

The Examiner should then make a test message followed by a prose message, allotting marks as above The candidate may, however, read over and correct his message The candidate should gain at least 90 per cent of marks

Semaphore signalling—The same procedure will be observed in the Semaphore examination, the candidate being first required to make a prose message of about 30 words and then to read one made by the Examiner The candidate should gain at least 90 per cent of marks in each The message as read by the candidate should be taken down by another candidate, clerk, or other person according as the Examiner may deem expedient

Candidates should be thoroughly tested in the various signs and the procedure of calling up, sending and answering a signal as laid down in the British Signal Manual, and this course should always be strictly adhered to

Particular attention should be paid by Examiners to the accurate spacing of the Morse signs and to the intervals between letters and words both in flashing and flag-waving and also to the correct making of the Semaphore signs Any attempted increase of speed at the expense of accuracy in making signals should be discouraged

The block letter test and prose message as read by the candidate should be forwarded attached to the candidate's papers in the usual way with the percentage of marks allotted according to the table on the back of the test cards, together with any remarks the Examiner may think fit to add with regard to the examination

W A INGLIS,
Secy to the Govt of Bengal

The 31st October 1908

No 130 Marine —In exercise of the powers conferred by section 6 sub-section (1), clause (*p*), of the Indian Ports Act, 1889 (X of 1889), as amended by the Indian Ports Act 1901 (III of 1901), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to make the following rules in respect of "sleeping sickness occurring on vessels arriving in the Port of Calcutta or for the time being in that Port —

1 In these rules

(1) "Health Officer" means any person appointed by the Lieutenant-Governor either by name or by virtue of his office, to be Health Officer of a port, and includes any person appointed by the Lieutenant-Governor, either by name or virtue of his office, to perform any of the duties of a Health Officer of a port,

(2) "master," when used with reference to a vessel, means any person (except a pilot or harbour master) having for the time being charge or control of the vessel,

(3) "Port Officer" includes any person acting under the authority of the Lieutenant-Governor in charge of port discipline,

(4) "Sleeping sickness" includes the stage of the disease known as trypanosomiasis

2 The master of every vessel arriving at the Pilot Station at the Sandheads from a port beyond India shall

(*a*) if the vessel has on board any person suffering or suspected to be suffering from sleeping sickness, or

(*b*) If any case or suspected case of sleeping sickness has occurred, or if any person has died or is suspected to have died from sleeping sickness on board within the twelve days immediately preceding the arrival of the vessel,

report every such case or death to the pilot at the earliest opportunity, and shall also comply, on arrival at the quarantine mooring at Garden Reach with such regulations as may be made by the Lieutenant-Governor in regard to—

(i) stopping at a particular place,
(ii) refraining from communication with the shore, and
(iii) taking measures for giving effect to the present rules

3 If the vessel be at anchor within port limits when such disease first breaks out or such death occurs, the master shall promptly give information to the Port Officer

4 The pilot on receiving the report mentioned in rule 2 shall promptly report, from the Sandheads, if possible, or on arrival at Saugor Island, to the Port Officer and to the Health Officer the circumstances of the case brought to his notice

5 Whenever the Health Officer receives the notice referred to in rule 4, he shall without unnecessary delay proceed on board and examine the vessel, and the master shall give him every facility for the examination of the passengers and crew The inspection by the Health Officer will ordinarily take place between sunrise and sunset

6 On the completion of the inspection prescribed by rule 5 such of the passengers and crew as are found to be free from sleeping sickness shall be allowed to land

7 If a case of sleeping sickness occurs on any vessel after she has entered dock or has been moored at a wharf, the master shall forthwith cause information thereof to be given to the dock master or superintendent of the wharf, who shall communicate the information to the Health Officer (through the Port Officer) and to the Superintendent of Police, and shall be responsible that the sick person shall be isolated as much as possible, and that free communication with the wharf is stopped until the Health Officer has inspected the vessel

8 The Health Officer shall remove to a hospital or other place appointed for the purpose by the Lieutenant-Governor every person found on board suffering from or suspected to be suffering from sleeping sickness, and every such person shall be detained for observation and treatment in the said hospital or place or any other hospital or place to which the removal of such persons may be authorised by the Lieutenant-Governor and shall be isolated in such a manner as will prevent as far as possible the communication of the disease to other persons by the agency of biting flies, and shall continue to be so detained and isolated until a medical officer authorised on this behalf by the Lieutenant-Governor certifies that he is not suffering from sleeping sickness or that having suffered from the disease he has been cured

9 The Health Officer shall inform the Health Officer of the Calcutta Corporation in every case in which a person suffering or suspected to be suffering from sleeping sickness is removed under his orders to a hospital or other place within the town and suburbs of Calcutta and in cases in which the disease has not been definitely diagnosed at the time of removal shall also report to the Health Officer of the Corporation whether the diagnosis is confirmed or not

10 All persons removed to hospital or kept under observation at any place shall obey and conform to the rules, regulations and orders for the time being in force at such hospital or place

Consistently with the limitations specified above candidates are at liberty to name any of these subjects, provided that the maximum number of marks that can be obtained from the subjects chosen is limited to 6,000 If this maximum is exceeded by a candidate's selection he will be required to indicate one of his subjects, the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit The marks so reduced will be subject to a correspondingly reduced deduction under clause 6

(a) A Syllabus, defining the character of the Examination in the various subjects, may be obtained on application to the Secretary, Civil Service Commission, London, W

5 The merit of the persons examined will be estimated by marks (*b*), and the number set opposite to each subject in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it

6 From the marks assigned to Candidates in each subject will be made such deduction as the Civil Service Commissioners may deem necessary in order to secure that no credit be allowed for merely superficial knowledge

7 The Examination will be conducted on paper and *viva voce*, as may be deemed necessary

8 The marks obtained by each Candidate, in respect of each of the subjects in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above mentioned, a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit and such Candidates shall be deemed to be Selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified Should any of the selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not In the former case the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate

9 Selected Candidates, before proceeding to India, will be on probation for one year, at the end of which time they will be examined, with a view of testing their progress in the following subjects (*c*) —

Compulsory—

		Marks
1	Indian Penal Code	400
2	Code of Criminal Procedure	200
3	The Indian Evidence Act	200
4	Indian History	400

Optional [Not more than one of the following subjects]

		Marks.
1	Hindu and Muhammadan Law	450
†2	Sanskrit	400
†3	Arabic	400
4	Persian	400
5	Hindustani (for Candidates assigned to the Province of Burma only)	400

* The principal Vernacular Language prescribed for each Province to which Candidates are assigned is as follows —

For the United Provinces of Agra and Oudh the Punjab and the Central Provinces	Hindustani	
For Burma	Burmese	
For Bombay	Marathi	
For Madras	Tamil or Telugu	At the option of the Candidate
For the Lower Provinces of Bengal	Hindustani or Bengali	At the option of the Candidate

In Hindustani the Candidate will be required to be acquainted with both the Persian and the Nagar character and in the case of the last two Provinces mentioned above a Candidate whose Vernacular Language is either of the languages shown against his province, must offer the other for examination

† These subjects may not be offered by any Candidate who has offered them at the Open Competition

In this Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it The Examination will be conducted on paper and *viva voce*, as may be deemed necessary This Examination will be held at the close of the year of probation, and will be called the "*Final Examination*"

If any Candidate is prevented by sickness or any other adequate cause from attending such examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination

10 The selected Candidates will also be tested during their probation as to their proficiency in Riding

The examinations in riding will be held as follows —

(1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year

(2) Again, at the time of the Final Examination Candidates who may then fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback will be awarded from 100 to 200 marks, according to the degree of proficiency displayed, to be added to their marks in the Final Examination Candidates who fail to obtain 100 marks, but are reported by the Civil Service Commissioners to have reached a minimum standard of proficiency in riding, and are certified by the said Commissioners to be

(*b*) Considerable deductions will be made for bad handwriting

(*c*) Instructions, showing the extent of the examination, will be issued to Selected Candidates as soon as possible after the result of the Open Competition is declared

entitled to be appointed to the Civil Service India, will, on their arrival in India, be subjected to such further tests in riding as may be prescribed by their Government and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government

A Candidate who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of Selected Candidates

11 The Selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force, at the time, for that Service

12 Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary to the Civil Service Commissioners, London," at any time after the 1st December, in the year previous to that in which the Examination is to be held No person will be admitted to the Examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st July (or, if that date should fall upon a Sunday or public holiday, then, on or before the first day thereafter on which their office is open), in the year in which the Examination is to be held an application, in the handwriting of the Candidate, on the prescribed form

---

The Civil Service Commissioners are authorised by the Secretary of State for India in Council to make the following announcements

(i) *Selected Candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes but the requirements of the Public Service will rank before every other consideration*

(ii) *An allowance amounting to £150 will be given to any Candidate who passes his probation at one of the Universities or Colleges which have been approved by the Secretary of State viz, the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St Andrews, Aberdeen and London (University College or King's College), Victoria University, Manchester*

This allowance will be paid to the selected Candidate in four instalments on the following dates respectively —December 24th, after his selection, March 25th, June 24th, and the date of his signing his covenant on being finally appointed to the Service

With the final instalment an allowance on account of passage to India will be paid to each newly appointed civilian to the amount of £37 10s 0d, for passage to Calcutta, Madras or Bombay, and £43 for passage to Rangoon, the Officer then making his own arrangements for his passage

The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners of a certificate that the Candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the Authorized University or College the fourth and final instalment will be paid as soon as the selected Candidate has signed his covenant, and for its payment no certificate from College Authorities will be required

The whole probation must ordinarily be passed at the same Institution Migration will not be permitted except for special reasons approved by the Secretary of State

(iii) *Each candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself to refund all monies he may have received from the Secretary of State for India in the event of*

(1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Civil Service of India, or*

(2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India*

(iv) *All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make towards their own pensions or for the pensions of their families The stamps payable on these covenants amount to £1*

(v) *The seniority in the Civil Service of India of the Candidates obtaining Certificates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations*

(vi) *Candidates obtaining Certificates will be required to report their arrival in India within such period after the grant of their Certificates of Qualification as the Secretary of State may in each case direct*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the Candidate*

CIVIL SERVICE OF INDIA, ETC, ETC

SYLLABUS of any open Competitive Examination for the Civil Service of India, Clerkships (Class I) in the Home Civil Service, and Eastern Cadetships in the Colonial Service that may be held in the year 1909, and of any other competition that may be held in combination therewith

In view of the importance of legible handwriting in the public service candidates are warned that the provision as to deductions for bad handwriting in these competitions will be strictly enforced

Candidates are warned that full marks cannot be obtained on any paper unless the whole of it is answered, or, in cases where the number of questions to be answered is specified, unless the full number specified is answered

1 **English Composition** —An Essay to be written on one of several specified subjects

2 **Sanskrit Language and Literature** — Translation from Sanskrit into English, and from English into Sanskrit History of Sanskrit Literature (including knowledge of such Indian history as bears upon the subject), Sanskrit Grammar, Vedic Philology

3 **Arabic Language and Literature** —Translation as in Sanskrit, History of Arabic Literature (including knowledge of such Arabic History as bears upon the subject), Arabic Grammar, Arabic Prosody

4. **Greek Translation** —Translation from Greek into English

5 **Greek Composition** —Composition in Prose and Verse, or (as an alternative for Verse Composition) an original Prose Composition in Greek

6 **Greek Literature** —Critical questions on the Greek Language (including questions on Philology) and Literature

7 **Latin Translation** —Translation from Latin into English

8 **Latin Composition** —Composition in Prose and Verse, or (as an alternative for Verse Composition) an original Prose Composition in Latin

9 **Latin Literature** —Critical questions on the Latin Language (including questions on Philology) and Literature

10 **English Language and Literature** —The Examination will be in two parts In the one the Candidates will be expected to show a general acquaintance with the course of English Literature, as represented (mainly) by the following writers in verse and prose, between the reign of Edward III and the accession of Queen Victoria —

Verse—Chaucer, Langland, Spenser, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

Prose—Bacon, Sir Thomas Browne, Milton, Cowley, Bunyan, Dryden, Swift, Defoe, Addison Johnson, Burke, Scott, Macaulay (Essays and Biographies)

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the Candidates have studied the chief productions of the greatest English writers *in themselves*, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature Candidates will also be expected to show that they have studied in these authors the history of the English Language in respect of its vocabulary, syntax, and prosody

The other part of the Examination will relate to one of the periods named below which will follow each other year by year in the order indicated

1 For the year 1909 A D 1600 to A D 1700
[Shakespeare to Dryden]

2 For the year 1910 A D 1700 to A D 1800
[Pope to Cowper]

3 For the year 1911 A D 1800 to A D 1832
[Nineteenth Century writers to the death of Scott]

4 For the year 1912 A D 1360 to A D 1600
[Chaucer to Spenser]

The Examination in this part will require from Candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners The names placed under the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination All the works of Shakespeare, for example, will be regarded as falling within the period 1600 to 1700, all the works of Swift within the period 1700 to 1800, all the works of Scott and Wordsworth, and all the works of Macaulay within the period 1800 to 1832

The books specified for the year 1909, period 1600 to 1700, are —

Shakespeare Twelfth Night Henry IV

Milton Samson Agonistes Lyrical Poems (including Lycidas.)

Beaumont and Fletcher Philaster

Dryden Hind and Panther The Rehearsal Critical Essays

Bacon Essays

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE LAND REVENUE ADMINISTRATION OF THE LOWER PROVINCES FOR THE YEAR 1907 1908

REVENUE DEPARTMENT—LAND REVENUE

Darjeeling, the 20th October 1908

RESOLUTION—No 2125T—R

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Lower Provinces for the year 1907-08

1 The Land Revenue Department of the Board was administered by the Hon'ble Mr F A Slacke, C S I, throughout the year, with the exception of a few days at the end of the year The work in the Partition and Land Acquisition Branches was, except for a few days, in charge of the Hon'ble Mr W. C Macpherson, C S I, throughout the year

2 *Demand, collections, balances and remissions* — The current demand of the year was Rs 2,87,45,098, or about Rs 45,000 in excess of that of the previous year The percentage of total collections on the total demand dropped from 97 5 in 1906 07 to 96 4 in 1907-08, the lowest percentage during the quinquennial period This result is due to bad harvests and high prices. The total collections were about four lakhs less than the current demand. The remissions were however the lowest on record.

3 *Road and Public Works Cesses*—The current demand on account of cesses shows an increase of over a lakh due mainly to revaluation proceedings and to revision of assessment of mines and forests in various districts The total collections rose by nearly $2\frac{1}{4}$ lakhs The percentage of collections on the current demand rose from 99 2 in the previous year to 101 07 In 17 districts collections were below the prescribed standard, but the explanations given are generally satisfactory In Balasore alone was the percentage of collection on the current demand below 95, and this was due to the suspension of collection of cesses in those areas of the districts in which the crops were ruined by floods Revaluation proceedings were completed in the year under review in the districts of Burdwan, Bankura, Darbhanga and Palamau

4 *Money Orders*—There was a slight increase in the number of revenue money orders, the amount of land revenue and cesses thus remitted, however, fell by over half a lakh The number of rent money orders and the amount covered by them show a slight increase The percentage of refusals was less than in the previous year The system of paying rent by money order has recently been extended to Chota Nagpur by the Chota Nagpur Tenancy Bill, 1908

5 *Coercive Measures*—The Revenue Sale Law was as usual administered with leniency and moderation There was an increase of 181 defaults, while the number of sales showed a decrease of 61 Defaults increased by nearly 400 in the district of Cuttack, and this district and Midnapore were the only districts where the percentage of defaults to the total number of estates exceeded ten In order to lessen the chances of hardship in the case of estates owned by co-sharers, the Board of Revenue have issued instructions to District Officers regarding the exercise of a discretion in granting exemption from sale, on prepayment of a fine, in cases in which such clemency is deserved The number of certificates filed during the year was 139,044 as against 140,510 in the preceding year The number of cases disposed of exceeded the number filed during the year by 1,098, the excess being shared by the Burdwan, Patna and Chota Nagpur Divisions The Patna Division shows the largest number of cases pending for more than six months

6 *Condition of the raiyats in Government estates and expenditure on Improvement and Education*—The year was not a prosperous one in any Division of the Province, and the raiyats in Government estates suffered, as did other raiyats, from bad harvests and high prices They were helped out by agricultural loans and suspensions and remissions of rent, which were freely given in all cases where relief was necessary It is again reported that Co operative Credit Societies in Puri gave material help to the poorer cultivators, and the grain *golas* in the Damin (Sonthal Parganas) are said to be doing most useful work There was a considerable increase in expenditure on miscellaneous and sanitary improvements, the amount expended under this head being just over two lakhs There was again an increase in the number of schools and pupils in Government estates, chiefly in Midnapore There was, however, a further falling off in the Chota Nagpur Division, especially in Hazaribagh, Palamau and Singh bhum In the latter district the decrease appears to be mainly due to the fact that instruction is conveyed to the aborigines of the Kolhan by foreigners in a foreign language It is essential that teachers should be supplied who speak the Kol language freely, and that text books should be adapted to local conditions This question will engage the attention of Government

7 *Drainage*—Further progress was made in the important scheme for the drainage of the Mograhat swamps A new committee has been formed for the drainage of the Choruikol swamps in the district of Nadia, and the proceedings have commenced *de novo* Drainage Commissioners for the Bhairab valley project were elected and appointed during the year The survey and preparation of the preliminary scheme for the drainage of Bagerhat and surrounding villages in the district of Khulna were completed An extensive scheme of irrigation from the Sulca river in Banpur in the district of Puri, is under contemplation

8 *Land registration*—The work of revising the registers in consequence of the recent amendment of the Act and with reference to information

furnished by the Settlement Department was continued The Lieutenant-Governor is glad to observe that notices of transfers were received regularly, on the whole, from Sub-Registrars, Civil Courts, other departments of the Collectorate and Land Acquisition offices

9 *Partitions* —There was a slight decrease both in the number of institutions and of cases disposed of Disposals have exceeded institutions The Lieutenant Governor notices with satisfaction that the Board has given careful attention to the question of expediting batwara work He considers, however, that much remains to be done in this direction It is reported that the question of assimilating the procedure in batwara cases to that followed in the United Provinces is under consideration The proposals of the Board of Revenue on this question are awaited

10 *Sundarbans* —The progress of reclamation work at Frasergunge was not as satisfactory as had been expected The work was retarded by outbreaks of cholera among the coolies An area of 1,310 acres remained to be cleared of jungle at the close of the year Ten miles of new embankments, 16 dams and 12 tanks were constructed during the year The number of settlers is, however, disappointing, and the applications for building sites received from European gentlemen have been withdrawn

11 *Working of the Tenancy Act* —The Bengal Tenancy Act continues to work fairly satisfactorily The levy of illegal cesses by zamindars in addition to rent prevails to a certain extent all over the Province, but there is reason to believe that such exactions are diminishing, more particularly in districts were survey and settlement operations have been completed The gradual extension of these operations has tended to familiarize the public with the more important provisions of the Act The system of land tenure in the Chota Nagpur Division underwent revision in the light of the knowledge gained in the course of the recent settlement operations, and an amending Act to the Chota Nagpur Tenancy Act has recently been passed

12 *Weather, crops, prices of food wages and material condition of the people, etc* —From an agricultural point of view the seasons were extremely unfavourable Rainfall was generally deficient and badly distributed There was excessive rain in some districts at the beginning of the monsoon and some parts, especially in Orissa, suffered severely from unprecedented floods in August and September, which did incalculable damage to the *bhadoi* crop The early cessation of the monsoon caused a failure of the winter rice crop in almost all parts of the Province and largely curtailed the cultivation of *rabi* crops Famine relief works had to be opened in several districts before the close of the year There was a further rise in the price of food-grains, due principally to bad harvests The high prices pressed most heavily on the poorer middle classes and persons with small fixed incomes There was a further rise in the price of labour

In spite, however, of bad seasons, there is evidence of a continued rise in the standard of living, especially in the Burdwan and Presidency Divisions, and even among the poorer classes in the rural areas The consumption of tea and cigarettes and the use of country cloth is on the increase In North Bihar the cultivation of sugarcane and jute is extending Flax cultivation is being tentatively introduced into Bihar and results of experiments in this direction are reported to be encouraging From the Presidency Division it is again reported that the *swadeshi* movement has given an impetus to indigenous industries, more especially to the weaving industry As was remarked in the Resolution of last year, the economic outlook is hopeful in the towns and more progressive areas, and the continued rise in the standard of living indicates a growing prosperity

13 The Lieutenant-Governor thanks the Board for their administration of the Land Revenue Department, the names of officers mentioned as deserving of special commendation have been noted by the Lieutenant Governor and will be recorded by the Appointment Department

By order of the Lieutenant-Governor of Bengal,

F W DUKE,

Offg Chief Secy to the Govt. of Bengal

Extracts from the Report of the Board of Revenue, L P, on the Land Revenue Administration of the Lower Provinces for the year 1907 08

I AM directed to submit the following report on the Land Revenue Administration of the Lower Provinces for the year 1907 08

THE HON BLE MR R T GREER C S I, I C S

2 Two maps illustrating the progress made in Survey and Settlement, respectively, are appended to this report, in accordance with Government order No 579T R, dated the 13th May, 1902

3 The Land Revenue Department of the Board was administered by the Hon'ble Mr F A Slacke, C S I, from the 1st April, 1907, to the 26th March, 1908, and by the Hon'ble Mr R. T Greer, C S I, from the latter date to the end of the year The work in the Partition and Land Acquisition Branches (paragraphs 97—107), though dealt with in the Land Revenue Administration Report, was in charge of the Hon'ble Mr W C Macpherson, C S I, throughout the year, except from the 1st till the 10th April, 1907, when the Hon'ble Mr K G Gupta, I C S., was in charge

PART I —COLLECTION OF LAND REVENUE

Three fold classification of estates

Appendices I IA, IB and IC

4 The total number of estates on the roll was 125,291, of which 113,159 were in class I (permanently settled estates), 10,302 in class II (temporarily settled estates) and 1,830 in class III (estates held direct by Government), against 112,355, 10,114 and 1,980, respectively, in the previous year The net increase of 842 was the result of the addition of 804 estates in class I and of 188 in class II, chiefly due to partitions in the Behar and the Orissa districts, respectively, and the decrease of 150 in class III mainly due to amalgamation of estates, mostly in Shahabad and Sambalpur In Sambalpur 91 agricultural *nazul* (escheated lands in or near towns) plots, transferred to the Revenue Department from the management of the Municipality and the District Council, were created into one estate Transfer from class to class, redemptions of petty estates, resumption of lands and the creation of new estates were also causes of change

Statistics of demands collections remissions and balances

Appendix I

5 The table below compares the demands, collections, remissions and balances of land revenue (including malikana, revenue of police lands and quit rents of Tributary States) of the year 1907 08 and the four preceding years —

YEAR	DEMANDS			COLLECTIONS			Remissions	BALANCES			Percentage of total collections on total demand	Percentage of total collections on current demand	Percentage of current collections on current demand

The total demands and collections of the year fell short of those of the previous year by Rs 25,745 and Rs 3,68,892, respectively The percentages of collections on demands were the lowest during the quinquennial period, and

the outstanding balances the highest Bad harvests in certain districts and the high prices of food grains told on the collections of the year

Demands

6. The current demands of the year from the three classes of estates are compared in the statement below with those of the preceding four years —

Class of estate	1903 04	1904-05	1905 06	1906 07	1907-08
	Rs	Rs	Rs,	Rs	Rs
I —Permanently settled estates	2,28 74,110	2 28 73,810	2,28 74 832	2,28 77 620	2,28 77 604
II —Temporarily settled estates	27,95 818	27 74 875	29,71 254	30 28 746	30,41 835
III —Estates held direct by Government	25 61 968	26,87 957	27,37 952	27 94 237	28,25,659
Total	2,82 31 396	2,83,36 642	'2 85,84 038	2 87 00 603	2 87 45 098

The small increase in classes II and III was, as usual, chiefly due to the new settlement of estates, resettlements and the progressive increase of the demand

The arrear demand amounted to Rs 6,84,069, against Rs 7,54,409 in the previous year The difference between the former amount and the total outstanding balance of Rs 6,78,788, shown in the preceding year's report, was due to the revision of accounts

Collections

7 The total collections amounted to Rs 2,83,56,353, against Rs 2,87,25,245 in 1906-07, and represented 96 4 per cent of the total and 98 7 per cent of the current demand The percentages of both current (Rs 2,78,50,251) and arrear (Rs 5,06,102) collections fell from 98 1 and 77 6 to 96 9 and 73 9, respectively

8 As regards the arrears due from certain estates in Burdwan and Hooghly, in respect of which frauds had been committed some years ago, through collusion between the agents of the proprietors and the clerks (*vide* Government Order No 880T —R , of the 29th June, 1901), no portion of the unrealized balance (Rs 197) in Burdwan was recovered This sum has since been remitted In Hooghly the unrealized balance of Rs 10,388 is being regularly paid in instalments by the proprietors of two estates The balance outstanding on the 31st March, 1908, was Rs 9,165

Remissions

9 The remissions of land revenue allowed during the year amounted to Rs 879 in permanently settled estates, Rs 6,683 in temporarily-settled estates and Rs 20,627 in estates held direct by Government Out of the total (Rs 28,189), Rs 12,427 represented remissions of grace, Rs 5,748 remissions of right and Rs 10,014 nominal remissions The remissions represented 09 per cent of the total demand, against 17 in the preceding year

The remissions of grace were, as usual, mostly allowed in Government estates The largest remissions under this head were Rs 3,549 in Midnapore and Rs 5,317 in Khulna The remissions of right were chiefly due to diluvion, acquisition of land for public purposes and deterioration of soil Bhagalpur showed Rs 2,227 under this head Among nominal remissions were Rs 4,966 in the 24 Parganas and Rs 2,185 in Gaya These were mainly due to non-settlement of holdings, erroneous assessment of lands and mistakes in accounts

Balances

10 The current and arrear balances outstanding at the close of the year were Rs 8,89,327 and Rs 1,55,298, respectively, showing an increase of Rs 3,47,935 in the former and of Rs 17,902 in the latter, in comparison with those of the preceding year The total balance (Rs 10,44,625) represented 3 5 per cent of the total demand, against 2 3 per cent in the year preceding If the amount (Rs 1,38,916) collected but not credited in the accounts during the year and the demand Rs 88,994) held in suspense were taken into account, the true balance would be Rs. 8,18,715, or 2 7 per cent. of the total demand, against

2 0 per cent, in the previous year Of the total balance Rs 38,518 are poubtful and irrecoverable and Rs 10,06,107 in process of recovery The balances in the three classes of estates at the close of the year 1907-08 are compared below with those of the preceding year —

Class of estate	Total balances		Percentage of the balances on the total demands	
	1906-07	1907-08	1906 07	1907-08
	Rs	Rs		
I	2,31,066	3,33,476	1 00	1 44
II	1,17,352	2,39,242	3 70	7 56
III	3,30,370	4,71,907	10 37	14 94
Total	6,78,788	10,44,625	2 30	3 55

The explanations of the balances are given in the following paragraphs —

11 Out of the total demand of Rs 2,31,08,724 in permanently-settled estates, a sum of Rs 2,27,74,369, or 98 6 per cent, was collected against 98 9 per cent, in the preceding year, the outstanding balance at the close of the year being Rs 3,33,476, against Rs 2,31,066 If, however, the amount (Rs 1,13,946) collected but not credited in the accounts during the year were added to collections, the percentage would rise to 99 0

Permanently settled estates

Appendix 1A

12 The total current collections (Rs 2,25,73,862) were 98 7 per cent of the demand The standard of 99 per cent was attained in all districts except the following The major portion of the balance of Rs 44,037 in Hooghly (96 6) was deposited in other treasuries before the close of the year but could not be credited in the accounts of the district The short collections in Midnapore (95 4) were due to the non payment of the demand of Rs 32,785 on account of certain embarrassed estates belonging to Raja Sir Saurindra Mohan Thakur, KT, C I E, of Calcutta, under the management of the Court of Wards, and of Rs 9,011 on account of the Pachetgarh Wards' estate Rupees 38,422 out of the balance of Rs 86,703 were deposited in other treasuries before the close of the year The standard percentage could not be reached in the 24-Parganas (98 0), owing to the fact that certain estates paying a large amount of revenue defaulted in the March *kist* and no coercive measures could be taken against them within the year In Jessore (97 5) almost the entire balance (Rs 21,510) was due from the Mukherji Wards' estate The falling off in Khulna (97 1) was due to the fact that a sum of Rs 10,986, out of the balance of Rs 14,999, was covered by remittance transfer receipts of other districts which were received after the close of the year

Current collections

13 The total arrear collections amounted to 86 8 per cent of the demand Of the districts which failed to recover 99 per cent of arrear demands, the outstanding balances were small in all but Bankura and Midnapore In the former, the entire balance of Rs 4,152 was due from certain newly created *ghatwali* estates belonging to the Rani of Chhatna, who is paying by instalments, and in the latter the estates of Raja Sir Saurindra Mohan Thakur were solely responsible for the balance of Rs 21,950

Arrear collections

14 The temporarily-settled estates comprise three sub classes, *viz* —(1) estates settled with the proprietors, (2) private estates leased to farmers and (3) Government estates leased to farmers The total demands and collections of these estates were Rs 31,63,777 and Rs 29,17,852, against Rs 31,69,422 and Rs 30,49,526, respectively, in the previous year The collections represented 92 2 per cent of the total and 95 9 per cent of the current demand, while the corresponding percentages of the preceding year were 96 2 and 100 7 The general cause of the falling off in collections was the agricultural distress in certain districts

Temporarily settled estates

Appendix IB

Current collections

15 The total current collections (Rs 28,34,041) were 93 2 per cent. of the demand The balances were heavy in four districts only, *viz*, Midnapore (Rs. 31,243), Khulna (Rs 40,985), Cuttack (Rs. 50,733) and Balasore (Rs 42,292) Of the balance in Midnapore, Rs 14,922 were due from the Pachetgarh Wards' Estate, and of the remainder, due from other estates, Rs 2,223 have since been realized, the balance being in process of recovery In Khulna the short collections were due to the non-completion of the settlement of several Sundarbans estates No regular settlements could be effected during the year as the form of the lease to be granted to the settlement holders was approved only in March 1908 In both Cuttack and Balasore the low percentage was due to suspension of revenue on account of bad harvests in the tracts affected by the floods

Arrear collections

16 The arrear collections amounted to Rs 83,811, or 68 7 per cent of the demand The outstanding balances were comparatively large in the districts of Midnapore (Rs 2,343), 24-Parganas (Rs. 2,116), Nadia (Rs 5,007), Khulna (Rs 4,720) and Shahabad (Rs 11,334) The difficulties in the resettlement of certain estates interfered with the collections in Nadia, and the balance will be recovered under the Sale Law In Shahabad, the major portion (Rs 11,293) of the dues is in course of recovery by instalments The arrears relate to the Mukhdumpur Simra estate, formerly held on a farming lease and now purchased by Government and placed under direct management The defaulter has been allowed to pay up the arrears in ten equal instalments The balances of other districts are in course of recovery

Estates held direct by Government

Appendix IC

17 The estates held direct by Government are of two kinds, *viz*, (1) those managed for proprietors, and (2) those owned by Government as proprietor The total demands amounted to Rs 31,56,666, of which Rs 26,64,152, or 84 4 per cent, against 83 1 in the preceding year, were collected, and Rs 20,627 remitted, leaving Rs 4,71,907 outstanding at the close of the year, against Rs 3,30,370, the corresponding figure for the year preceding.

Current collections

18 The total current collections (Rs. 24,42,348) represented 86 4 per cent of the demand (Rs 28,25,659) Of the districts which failed to collect up to their respective standards, the balances were large in the 24-Parganas (Rs 75,857), Khulna (Rs 10,868), Balasore (Rs 14,476), and Angul (Rs 23,482) The general cause of the short collections was the distress of the raiyats, caused by partial failure of crops and the high price of food grains during the year

Arrear collections

19 Of the arrear demand of Rs 3,31,007, the amount collected during the year was Rs 2,21,784 or 67 0 per cent The outstanding balances showed large sums in Midnapore (Rs 14,808), 24 Parganas (Rs 33,120), Shahabad (Rs 6,817) and Monghyr (Rs 23,275) Of the balance of Rs 14,808 in Midnapore, now in course of recovery, Rs 10,481 were due from the estates Jalamutha and Majnamutha, under the management of the Khas Tahsil Deputy Collector of Contai Besides the bad harvest, the poor results were in part due to the fact that the post of Manager was vacant for the year under report In the 24 Parganas Rs 25,359 are recoverable under the certificate procedure, but no coercive measures could be taken during the year The remaining balance of Rs 7,761 is irrecoverable and will have to be remitted The short collections in Shahabad are attributed to the prevailing scarcity and partial failure of crops In Monghyr, Rs 22,108, due from three large estates, *viz*, Binda Diara, Taufir Barhaiya and Arazi Bhavanandpur, are in dispute in the Civil Court, as the tenants objected to pay the enhancements made during the last survey and settlement operations

Forest and miscellaneous revenue

Appendix II

20 Appendix II shows the collections, remissions and balances of miscellaneous revenue, including collections from forest lands in Government Estates The receipts aggregated Rs 3,97,992, against Rs 4,90,034 in the previous year The decrease was due due to ordinary fluctuations, chiefly under the heads "Value of revenue abated, Act I

of 1894" and 'Recovery of survey and settlement charges" The largest amounts under any one head included in "Other receipts" were Rs 57,325 in Burdwan, being the charges for repairs to the Government embankments (*pulbandi*) realized from the Burdwan Raj, and Rs 55,698 in the Sonthal Parganas, representing fees for fuel and royalties on *sabai* grass and *hats* The total remissions (Rs 39,839) and balances (Rs 25,809) were chiefly in respect of fines under the Bengal Land Registration Act, VII of 1876, in the Patna and Bhagalpur Divisions The balances are in course of recovery

Sale of Government Estates

Appendix III

21 Twenty three estates, covering an area of 161 acres, in the Burdwan and Presidency Divisions, were sold during the year for Rs 2,189, subject to a total Government revenue of Rs 520 In addition to the above, five plots of land, with an area of 43 acres, were sold at a total price of Rs 8,090, revenue free There were no other sales of this character in the other Divisions

Amount of land revenue assigned or alienated by Government in favour of grantees

Appendices IV and V

22. There were 15 cases of alienation of Government lands, in five of which the areas concerned were made over to Municipalities, and in three to District Boards for public purposes. Six plots of land, covering an area of 5 67 acres, were alienated for public purposes in favour of private persons, involving a total loss of revenue amounting to Rs 112 Another plot was sold to a private person for a private purpose for Rs 100 The estimated market value and the estimated yearly rental of all the lands alienated during the year under report amounted to Rs 23,544 and Rs 470, respectively

Road and Public Works cesses

23. As a separate report on the Road and Public Works Cess operations of the Province is submitted, the results of the Bengal Cess Act, IX of 1880, are only briefly noticed here The Act is not in force in Angul, the Khondmals Sambalpur, and parts of the Sonthal Parganas, where it is being gradually introduced In the 30 districts in which the Act is in force, the cesses are levied at the maximum rate of one anna on each rupee of the annual value of lands or annual net profits of mines and other immoveable properties The current demand of land revenue of the 30 districts was Rs 2,84,13,360, while their valuation or gross rental amounted to Rs 12,87,56,860 As compared with the previous year, the current demand of cesses rose from Rs 70,11,936 to Rs 71,20,946, owing principally to revaluation proceedings and to revision of assessments of mines and forests in the various districts The collections amounted to Rs 71,97,473, as against Rs 69,56,766 in the previous year The percentage of total collections on the current demand was Rs 101 07, as against 99 2 in the preceding year The collections were above the prescribed standard of 100 per cent on the current demand in 13 districts Of the remaining 17 districts in which the percentage did not reach the prescribed standard, 7 attained percentages above 98 and 9 above 95 In Balasore the percentage came up to 93 4 only, in consequence of the suspension of the collection of cesses in the flood affected areas where the crops had been ruined The remissions and reductions amounted to Rs 67,756, as against Rs 1,12,743 in the previous year The outstanding balance was Rs 12,83,256, as against Rs 13,48,585 of the past year, and the percentage of the balance on the total demand fell from 16 2 to 15 1 During the year, valuations and revaluations were in progress in 18 out of the 30 districts, to which the Act applies. General revaluations on an extensive scale were completed in Burdwan, Bankura, Darbhanga and Palamau

Redemption of land revenue

Appendix VI

24 The number of petty estates of which the land revenue was redeemed during the year was 326 These were chiefly permanently-settled holdings in the Government estates of Calcutta and the Suburbs The total revenue demand was Rs 948, and the price realized on redemption was Rs 28,350

Only seven estates were redeemed under section 11 of the old Partition Act, Bengal Act VIII of 1876 The new Act, Bengal Act V of 1887, does not provide for the redemption of petty estates created by partition

Remittances of land revenue, cesses and rent by means of special money orders

Appendix XXX

25 A sum of Rs 17,07,574 on account of land revenue and cesses was remitted by means of 241,489 special money-orders, against Rs 17,61,317, covered by 2,41,463 orders, in the preceding year The average value of an order fell from Rs 7 4 9 to Rs 7 0 6 The remittances exceeded Rs 50,000 in the sixteen districts shown in Appendix XXX, and the amount was more than a lakh in five districts.

Appendix XXXI

26 Payment of rent by money order was in force throughout the province, except in the districts of Darjeeling, the Sonthal Parganas, Angul and the Chota Nagpur Division The system is at present not much liked by the majority of the zamindars and their collecting staff, who are in some cases thereby deprived of the opportunity of levying additional interest and other exactions Those tenants whose relations with their landlords are strained, and those who live at some distance from the landlord's collection centres, find this procedure advantageous

27 As compared with the previous year, the total number of money-orders in the province increased from 39,504 to 42,949, and the amount covered by them from Rs 6,19,217 to Rs 6,52,271 The growth in the use of money orders is exhibited by the following table —

	No	Amount Rs
1897 98	22,982	3,56,428
1902 03	35,608	5,43,962
1906-07	39 504	6,19,217
1907-08	42,949	6,52,271

The percentage of money-orders refused to money-orders issued fell from 24 67 in 1906 07 to 22 5 The increase in number is shared by all the Divisions except Bhagalpur In the report for 1906 07, a large decrease in the number of rent money orders was shown in the case of Murshidabad The explanation which was at first offered was that in the previous year the money orders issued in payment of rent for pounds and ferries had been erroneously included in the statistics furnished by the Post-office It was subsequently ascertained that the decrease in 1906 07 was really due to the fact that in the statistics for that year, the Post office had, under a misapprehension, included only those money-orders which were payable to the Collector on account of khas mahal lands Money-orders for pounds and ferries were correctly excluded from the money order statistics furnished by the Post-office It was reported that in the 24-Parganas there was a noticeable increase in the number of money-orders, which was due to the growing popularity of the system There was a substantial decrease in Bhagalpur in both the number of money-orders and the amount remitted This is due to the high prices of food-grains which left the poorer raiyats nothing for the payment of the rent due to their landlords In Purnea the increase in the number of money orders issued and the decrease in the amount are not great, and do not appear to the Collector to be due to any particular cause Last year the Collector reported that the increase in refusal in his district was due to the fact that the settlement operations have raised questions about the amount of rent A reference was made on the subject to the Commissioner of the Patna Division, where the settlement operations have been completed in the districts of Saran, Champaran, Muzaffarpur and Darbhanga, and he was asked to state his opinion about the effect of the settlement operations on the system of payment of rent by money orders His opinion is quoted here —

"The number of rent money-orders and refusals depends a good deal upon the relation between the landlord and the tenant of a particular area, and also upon the fact whether the former is resident or non-resident Soon after the close of settlement operations the relations between the two classes (in places where there has been much litigation) are strained and an increase takes place in the number of rent money-orders and refusals The normal state of affairs prevails in places where there has not been much litigation between the parties and there is no friction "

In the Orissa Division the increase was largely due to the fact that the number (157) and the amount (Rs 2,327) issued for rent by money-orders in

Sambalpur were shown for the first time this year It is reported that 78 money-orders were refused in that district During the year under report, remittances amounting to Rs 34 096 were made by 778 money-orders in the Government Estate of Khurda, as against Rs 55,446 by 1,060 money-orders in the previous year, showing a decrease of Rs 21,350 in the amount and 282 in the number of orders The decrease was said to be due to the raiyats of certain villages in zilla Banpur withholding payment of rent in the hope of getting suspension for alleged loss of crops by drought The question of paying rent by money orders in Chota Nagpur is still under consideration in connection with the Chota Nagpur Tenancy (Amending) Bill Though the system is not force in this Division, rents remitted by money-orders are accepted in the case of Government Khas Mahals

Operation of the Sale Laws

Appendices VII and VIII

28 Out of 8,843 estates, shares and interests which became liable to sale for the non payment of Government revenue, as compared with 8,662 of the previous year, 673, or 7 6 per cent, were actually sold as against 734, or 8 4 per cent, in the previous year Of the total number sold, 368 were whole estates and 305 were shares The amount realized by sale was Rs 3,58,396, or 7 4 times the Government revenue of the properties sold, in comparison with Rs 5,03,608, or 5 6 times in the previous year One hundred and three appeals were preferred to the Commissioner against the sale, of which 19 were successful, while Government was moved to annul the sales in 18 cases on grounds of hardship There was an increase of 181 in the number of defaults, while the number of sales showed a decrease of 61

29 In addition to the above, 34 *chaukidari chakaran* lands in the districts of Burdwan, Birbhum, Bankura, Midnapore, Hooghly and Monghyr were sold Against the sale appeals were preferred to the Commissioner in seven cases, all without success

District	Defaults	Sales
Cuttack	1 126	6
Monghyr	856	68
Midnapore	732	30

Jessore	216	22
Burdwan	212	50
24-Parganas	211	30
Mushidabad	207	6
Nadia	160	24

30 The table in the margin shows the districts in which defaults were most numerous The list is the same as in the previous year, with the addition of Gaya, Jessore and Murshidabad

No sales were held in the Panchannogram and Baranagore Government estates in the 24-Parganas, owing to the reasons given in paragraph 35 of the Report for 1905 06 The arrears are being realized under the certificate procedure

31 Wilful defaults, due to the unprofitableness of estates, and quarrels among the co sharers, diluvion, procrastination, and the annulment of encumbrances were the chief causes which led to estates in the various districts being brought to sale during the year

32 The marginal statement shows the proportions of sale to defaults in the districts in which the sales were most numerous The rule that the sales for the arrear of one *kist* should be held before the next *kist* day was generally observed

District	
Burdwan	23 5
Bhagalpur	18 5
Hooghly	16 4
Nadia	16 0

Jessore	8 9
Shahabad	8 2
Puri	8 0
Monghyr	7 9
Gaya	7 5
Patna	7 4
Saran	6 3
Sonthal Parganas	6 2

33 As in the previous year, the Board have had a statement prepared, showing for this and the last two years the percentage which the total number of defaults bears to the total number of estates (including separate accounts) district by district From the figures thereby obtained, it appears that the worst districts are Cuttack and Midnapore, where only the percentage exceeded 10

34 Since the close of the year the Board have had under consideration the hardship which sometimes results in the case of estates owned by co sharers whose shares are held in common Usually it is not difficult for a cosharer to protect himself by opening a separate account, but sometimes for various reasons, he fails to do so If his co sharer neglects to pay, there is in the case of some districts much difficulty in his ascertaining this default until after the *kist* day Consequently the estate falls into arrears and is liable to be sold

Sir Lancelot Hare when he was Collector of Muzaffarpur started a practice of granting exemption from sale on the prepayment of a suitable fine in those cases in which he thought that clemency was deserved The Board have now issued a Resolution in which they have commended this relaxation to the District Officers of the Province

Working of the Bengal Public Demands Recovery Act I of 1895, as amended by the Bengal Act I, of 1897

Appendix IX

35 The total number of certificates filed was 139,044, as against 140,510, in the previous year The decrease of 1,466 cases appears only under the head "To realize arrears of rent due to Government" There was a marked decrease in the number of institutions under this head in the Contai Khas Mahals in Midnapore There was a considerable reduction in Monghyr which is due to two causes—Firstly, there were better collections during the year Secondly, the figures of the previous year had been swollen by abnormal institutions against litigious raiyats of Taufir Barhaiya The increase in Orissa was mainly confined to the district of Puri, where the number filed was 1,869, as against 1,619 in the previous year This was due to the issue of a large number of certificates in respect of the Kothdesh estate for the recovery of small amounts to clear off accumulated arrears Under the head "Embankment Dues" the most marked increase occurred in Saran, the number being 2,492 as against 1,484 in the previous year It was reported to be due to the irregular payment of the demand by the proprietors concerned In Monghyr the increase from 67 to 332 is said to have been due to the fact that certificates were filed against all the defaulters of over Re 1 who failed to pay on issue of post card notices Under the head "Water Rates," there was an increase in Champaran (373), which was due to the opening of the Dhaka and Teur canals Under the head "Cesses," the increase in Midnapore (984) is due to the decrease in voluntary payments owing to the high prices of food grains The marked increase in Hooghly (1,668) and Howrah (1,463) was due to the filing of a large number of certificates for arrears due in respect of rent-free lands, which have now been amalgamated with their parent estates The increases in Bhagalpur (899) and Balasore (1,099) are due to the institution of certificates for sums below Rs 5 to avoid limitation Under the head "To realize Court of Wards' demands," the increase in Shahabad (871) has not been explained In Monghyr (547) and Bhagalpur (859) the increases were due to several new estates having been brought under the management of the Court of Wards during the year Under the head "All other certificates under Section 7 (1)," the increases in Hooghly and Howrah are attributed to the filing of certificates by zamindars against the tenants under the Drainage Act after the completion of the revision of Drainage accounts under the new Act There was a noticeable decrease in the number of institutions in the Patna Division, which is said to be mainly attributed to the abolition of the zamindari dâk cess, and, to a small extent, to the smaller number of cases for the recovery of cess revalution fines in Darbhanga. The increase from 6,712 to 10,281 in the Bhagalpur Division occurred almost exclusively in the districts of Monghyr and Purnea and was due to the revision of Register D in the light of information disclosed in the settlement *khewats*, which led to the imposition of fines in a very large number of cases The institution of 303 cases for the realization of agricultural loans in Purnea, also partly accounts for the increase in that district The increase in Orissa is most marked in Cuttack, the number being 724, as against 273 in 1906 07 No explanation has been furnished by the Collector

36 The number of cases disposed of exceeded by 1,098, the number filed during the year The increase was shared by the Burdwan, Patna and Chota Nagpur Divisions The percentage of certificates disposed of to the total number for disposal is 78 2, as against 77 8 in the previous year As in the last year, the Orissa Division returned the highest percentage (85 3) The lowest percentage was in the Bhagalpur Division (73 7) In the Burdwan Division, the percentage was 75 3, as against 75 2 in the previous year. The poor results in Gaya, Purnea, Cuttack, Balasore and Puri were due to a large number of certificates having been filed towards the close of the year

The decrease is Shahabad is said to be due to the contested nature of the certificates issued for the recovery of rent of the Surajpura Wards' Estate In Angul the decrease is due to the fact that stringent measures could not be adopted for rents due to Sarbarakars from tenants on account of agricultural difficulties

37 As to the cases pending more than six months during the year, the Patna Division shews the largest (2,449) and the Chota Nagpur Division the lowest (66) figures There was a reduction of 1,452 cases in the Burdwan Division as compared with the previous year The numbers pending in the districts of Patna, Shahabad, Saran, Muzaffarpur and Monghyr were, respectively, 65, 461, 592, 128 and 92 3 more than in the previous year

38 The subjoined table shows the stages of procedure at which demands were stisfied in the several divisions

Division	Number of cases in which payments were made on mere issue of notices	Number of cases in which payments were made on attachment of property	Number of cases in which recourse to actual sale was necessary	Number of cases in which warrants were issued and the amounts were paid without imprisonment of defaulters	Number of Debtors Imprisoned

Total { 1906 07	36,549	84,607	6 324	1,758	3	13

39 The percentages of cases in which payments were made on the issue of notices and on attachment of property out of the total number of cases disposed of were 25 6 and 56 4, respectively, as against 25 1 and 59 9 in 1906 07

40 The working of section 21 of the Public Demands Recovery Act, which allows a judgment debtor to redeem his property after sale, by payment of the amount of the certificate with costs and of a penalty equal to one-tenth of the auction price, continued to work satisfactorily

41 The Bengal Act I of 1895 is not in force in Sambalpur Arrears of revenue are recovered there under sections 94 to 113 of the Central Provinces Land Revenue Act XVIII of 1881, and the rules framed under section 113 (Central Provinces Revenue Manual, Volume I, pages 92—105)

Realization of Government demand by imprisonment

42. Sixteen persons were imprisoned during the year for the non-payment of Government demands exclusive of sums due to Wards' estates, Road Cess and ferry dues), as against six in the previous year Resort was taken to this coercive measure in seven districts, namely, Hooghly with five, Burdwan, Murshidabad, Muzaffarpur, Saran and Monghyr with two cases each and Gaya with one case The persons imprisoned in Burdwan were released before the expiry of the terms of imprisonment on payment of their dues In one case in Monghyr the judgment debtor was released on executing a security bond In the other cases payment was not made.

Part II —Administration of the Land Revenue

Estates under direct management

Agency and mode of management.

43. The total number of estates under direct management during the year, including estates of private individuals managed by Government, was 1,830, with a current demand of Rs 28,25,659 The percentage of cost of management on the current demand was 7 87

44 The following changes in the agency and system of management have been sanctioned

45 In Midnapore, Maulvi Abdur Samad, Deputy Collector, was in charge of the six khas mahals in the Sadar subdivision as also of the Sadar khas

tahsil office throughout the year Owing to the difficulty of finding a suitable officer, the managership of the Contai Khas Mahals was vacant from the 10th May, 1907, and it became necessary to place the Sub Manager of the Contai Circle in charge of the Manager's office in addition to his own This arrangement, however, did not work satisfactorily The following minor changes were sanctioned in the districts of Patna and Gaya In Patna, (a) the pay of the tahsildar of the City subdivision was raised from Rs 20 to Rs 25 *per mensem* and his post and that of a temporary amin were made permanent and pensionable, (b, the pay of a peon was increased from Rs 5 to Rs 6 *per mensem*, (c) the pay of barahils was uniformly raised from Rs 4 to Rs 5, (d) the posts of two patwaris and two barahils were abolished, and the savings thus effected were utilised in raising the pay of three patwaris to Rs 12 each, (e) ten goraits on Rs 3 were appointed in place of 23 goraits who used to be paid by service lands and fees The services of the law agent, referred to in paragraph 48 of the report for 1907 08, were retained during the year under review In Gaya, two collecting circles were amalgamated and the management of the Birhauni and Ghenjan Circle, lying within the Jahanabad subdivision, was transferred to that subdivision from the Sadar In the Nawada subdivision the post of a patwari on Rs 7 was abolished In Shahabad, an additional tahsildar on Rs 25 and two peons on Rs 6 each were sanctioned, and the pay of another tahsildar was increased by Rs 5 In Sambalpur, the agricultural plots in and near the town which were under the Board's orders formed into one estate under the name of the "Sambalpur Estate", are managed direct by the tahsildar of Sambalpur Tahsil and the raiyatwari villages by headmen, called *karpardars*, who are remunerated by commission In Darjeeling, the management of the West Tista khas mahals, hitherto in charge of the manager of the Kalimpong Government Estate, was placed in the hands of Sub Deputy Collector, Babu Chabi Lal Singh

Grant for the management of land for agricultural sanitary and miscellaneous improvements in Government Estates

46 The amount placed at the disposal of the Board for the management of Government Estates during the year 1907-08 was Rs 3,20,988, and additional allotments of Rs 76,534 were subsequently sanctioned The above allotment was further increased by the sum of Rs 15 000, which, with the sanction of Government, was resumed from the Sundarbans Reclamation grant and assigned for works of improvements in the districts of the 24-Parganas and Shahabad

47 Appendix X shows the expenditure incurred during the year in the several districts under the heads of—

(1) Management
(2) Miscellaneous improvements, including agricultural improvements and experiments
(3) Sanitary improvements

The total unexpended balance under the last two heads was Rs 16,465 Explanations of the larger balances are given in the following paragraphs —

48 *Chota Nagpur Division* —The heavy balance of Rs 3,307 in Singhbhum is attributed to the late receipt of the additional grant of Rs 5,000 sanctioned for the construction of inspection bungalows in the Kolhan Government estate In Ranchi, the lapse of Rs 2,339 is ascribed to the surrender by the Deputy Commissioner of the sum of Rs 2,000 granted for works of improvement, because the sanction was received too late in the year, and to the non completion of a tank at Chatakui

49 *Patna Division* —Out of the allotment of Rs 9 000 assigned to Shahabad, Rs ,703 were spent, leaving a balance of Rs 3 297 Here again the failure is reported to be due to the late receipt of an additional grant, but the Collector's application was itself not made till the end of January In Patna Rs 250 were left unspent Of that amount Rs 200 had been provided as a grant-in aid towards the construction of primary school buildings in the Barh Subdivision, but it was not drawn, because sufficient contributions could not be obtained locally The remaining Rs 50 represent small savings

50 *Burdwan Division* —In Midnapore, the original grant of Rs 7,000 was supplemented by subsequent grants amounting to Rs 3,310 Rupees 8,531 were spent on various works, leaving a balance of Rs 1,779, from the allotment

of Rs 2,000 sanctioned for clearance of silt in the Chunamara and Horekhali *khals*, in the Contai subdivision The balance is due to the fact that the work was taken up too late in the year

51 *Presidency Division*—In the 24 Parganas there was a saving of Rs 849, which was mainly due to the non completion of some petty works

52 *Orissa Division*—In Puri there was an unexpended balance of Rs 800, the causes of the lapse of which have not yet been explained

53 *Sonthal Parganas*—In the Sonthal Parganas the expenditure of Rs 943 in excess of the grant was met from the unexpended balance at the credit of the District Road Fund A similar excess of Rs 360 occurred in Angul, which was apparently met from other heads

Out of the total expenditure of Rs 2,00,106, Rs 34,575 were spent on tanks and wells, Rs 71,761 on drainage, irrigation and embankments, Rs 40,729 on roads and bridges, and the remainder on miscellaneous works, including tree planting

54 The actual expenditure on education in Government estates was Rs 52,408, as against the Government grant of Rs 52,992 The schools and pupils number 1,794 and 53,951, respectively, while the figures for the year 1906 07 were 1 702 and 51,727, respectively The increase in the number of schools occurred in the Burdwan (55), Patna (4) and Bhagalpur (54) Divisions, and chiefly in the Midnapore district, and in the number of pupils in the Burdwan (952), Patna (246), Bhagalpur (637) and Orissa (217) Divisions The decrease in pupils occurred in two Divisions, viz the Presidency (121) and Chota Nagpur (707), and chiefly in Jessore district Of the 31 schools in Patna 6 were Lower Primary unaided schools, of which 4 were for boys and 2 for girls with 64 and 21 pupils, respectively Besides these, there were 3 indigenous schools In Patna 4 boys appeared at the School Final examination, standard IV, of whom 3 were successful, and of the 43 boys who appeared at the II Standard examination, 34 were successful, 3 obtaining Lower Primary scholarships In Gaya the number of successful candidates at the Lower and Higher Primary examinations was 48

Education

In Monghyr the increase of seven schools is attributed by the Deputy Inspector of Schools to the fact that some of the schools that had received no aid in the previous year were put on the stipendiary list The increase of 44 schools in Darjeeling was more nominal than real, being largely due to more correct information

In the Banki Government Estate, 11 schools were abolished for want of adequate local support, while in the Cuttack town khas mahals eight schools were opened with the aid of increased rates of stipends from the Municipal Funds Of the 2,819 pupils in Cuttack, 371 were girls In Angul the increase of 82 pupils occurred mainly among girls

In comparison with the year 1906 07, there was a decrease of six schools in each of the districts of Hazaribagh and Palamau resulting in the falling off of 118 and 45 pupils In the former the decline is ascribed to the inability of the people to maintain the *gurus*, on account of the failure of crops and to the withdrawal of aid from the less efficient schools With reference to the remarkable decrease of 595 schools in the Kolhan, the Deputy Commissioner (Mr Carey states that "the Hos have no encouragement to use the schools, as instruction is conveyed to them chiefly by foreigners in a foreign language, and the numbers were formerly brought up chiefly by orders issued that all village headmen must know Hindi"

Mr Carey further observes "If it be desired to encourage the education of Kols in this estate, I think it essential that all primary education in the Kolhan should be given by teachers who speak the Kol language freely, and that text books should be adapted to local circumstances I do not think that much improvement can be expected, unless a whole time European officer can be deputed to supervise aboriginal education" The attention of Government will be invited to this suggestion

As in the previous year, a special examination was held in December last for the guru pupils in the Kolhan, with the result that all the five pupils of the second year class passed and were provided with suitable appointments in the Kolhan schools

Roads and Communications

55 The expenditure on roads and communications in Government estates amounted to Rs 1 15 011, against the Government grant of Rs 69,303 The expenditure exceeded the grant in all Divisions, but the excess was met from District Board, Municipal or other local funds On the other hand, the expenditure fell short of the grant in the districts of Burdwan, Patna, Saran, Darbhanga, Monghyr and Purnea

Inspection of accounts

56 The following were the only instances of material irregularities brought to light by the inspection of the accounts of Government estates —

In Contai, the tahsildars who had not written their registers properly and regularly were warned, censured or fined The complaints of bribery, etc, made against certain tahsildars, which were noticed in paragraph 60 of the report for 1906 07, were on enquiry not substantiated In Tamluk one tahsildar was severely censured for irregularities discovered in his method of keeping the accounts One of the tahsildars in the Diamond Harbour Sub division, in the 24-Parganas, collected Rs 246 2 8 from the tenants in 1906-07 on manuscript receipts, which he did not credit in his accounts He died in March 1907 The defalcation was discovered subsequently when the Sub Deputy Collector called for the receipts of the raiyats for inspection The amount has been realised in full from the security deposit of the tahsildars In some cases, in the Patna district, the tenants' portion of the receipt was not signed and dated by the tahsildar, nor was the amount received noted by him in words in English In another case, register III was found to have been written up afterwards, and not at the time the payment was made, the date of payment noted in this register differing from the date of receipt in register IV and in the cheque receipt Complaints were made against the Manager of the estates in the Barh subdivision, and the tahsildar of the Dinapur subdivision of receiving illegal gratifications Both were placed under suspension, pending enquiry The charge against the tahsildar was found to be untenable, and he has been reinstated The case against the Manager is still pending The Collector of Bhagalpur writes —

> "Many irregularities were noticed by me during the year under report both in the Sub divisional Offices and the Sadar, and steps were taken to put them right They were mainly of the nature of errors arising from the inability of the staff to understand the change of kists sanctioned last year, while a few were of the nature of neglect of orders issued"

In Angul, the sarbarakari accounts of 90 estates were inspected by the Deputy Commissioner, and those of 06 estates by the Subdivisional Officer Four sarbarakars were warned for irregularities in keeping their accounts, two sarbarakars were imprisoned and dismissed for the embezzlement of Government revenue, six were removed for habitual defaults and for not keeping proper accounts, and three were suspended temporarily for the same fault In Sambalpur a *karpardar* accepted relinquishment of some holdings from certain raiyats of his village, and let them to others on receipt of money in the shape of *nazarana* Action has been taken against him

Condition of raiyats in Government estates

57 The condition of the raiyats in the Burdwan Division, not only in Government estates but in private estates, was on the whole unsatisfactory, owing to the damage to the crops caused by untimely floods and the failure of the rains in September and October Sporadic outbreaks of cholera and small-pox, attributed mainly to the scarcity of good drinking water, occurred in some of the Government estates Agriculturists' loans were granted freely according to requirements In the Presidency Division, the raiyats were fairly prosperous in the Ranaghat subdivision of Nadia, and parts of Khulna, Murshidabad and Jessore, but elsewhere they had a poor year There was a partial failure of crops, caused by the heavy rains in June and July and their cessation in October Agriculturists' loans were freely given The general health of the tenants was not good, as there was an outbreak of cholera and small-pox in several quarters

The condition of the raiyats in the Bhagalpur Division was generally good In the Binda Diara Government Estate, in Monghyr, the tenants have suffered much of late years from diluvion and the deterioration of

large areas due to deposits of sand, and those in the town khas mahals were affected by plague and small pox, which occurred at the beginning and towards the end of the year The tenantry in the Kalimpong and West Tista Khas Mahals were not prosperous, in consequence of the partial failure of crops, and more especially on account of their heavy indebtedness to Marwari money lenders who exact exorbitant interest for their loans The Deputy Commissioner of the Sonthal Parganas writes —

"The raiyats in the Government estates are now passing through a period of considerable stress and hardship, owing to the partial failure of *bhadoi* and winter crops of the past year The outturn, such as it was, would more than suffice for local wants, but the greater part of the crops reaped found its way into the granaries of the local money-lenders, and was exported thence for consumption in other districts Bad harvests and extensive exports account for the high prices at present prevailing The classes most affected by the present depressed conditions are landless day-labourers in the purely agricultural tracts, cultivators to whom sufficient food-stocks for the support of their families have not been left by their *mahajans* and people who work on small fixed incomes The grain *golas* in the Damin are doing most useful work, and have afforded help to the poorer classes of agriculturists"

58 There were 13 cases of desertion in this Division during the year, one in Monghyr and the rest in Darjeeling In the former, the tenant was a pensioned sepoy, a resident of a different district As he had not been heard of for over four years, the holding was resettled with a resident tenant The causes of the desertions in Darjeeling are not known

59 From the agricultural point of view, the year was not a prosperous one in the Patna Division The pressure of the high prices of food grains which ruled throughout the year was felt generally by all classes In other respects, the condition of the raiyats may be said to be fair In Patna, the floods in September and the drought which continued from October to December resulted in poor harvests of the *bhadoi* and winter rice crops, and had it not been for good rains in January, the *rabi* crops would have completely failed Those raiyats who had a surplus of food grains left for sale were naturally greatly benefited by the high prices Relief was given to the poorer raiyats in the Dinapur and Bihar subdivisions by the distribution of agriculturists' loans to the extent of Rs 3,992 In Gaya, the condition of the raiyats of the *nakdi* estates was satisfactory as they have easier rents, but in *bhaoli* (produce rent) villages their condition was less satisfactory owing to the failure of the paddy crops The grant of agriculturists' loans, however, proved a great boon to them, as also the execution of improvement works In the jungly and hilly tracts of the Chakarbandha Circle, the raiyats were given settlements of all the lac and *mahua* trees on lower rents than those obtainable from non-residents and outsiders No coercive measures were taken to realise the outstanding balances from them, and this proved an additional relief The condition of the raiyats in the Government estates in Shahabad was on the whole fair, except in the case of non *azara* villages, lying outside the canal irrigated area where the winter rice was poor and the spring crops were restricted in area by the failure of the autumn rains In Saran, the tenants are for the most part *pahikasht* or non-resident cultivators They had poor winter rice and moderate *bhadoi* crops, but the outturn of the *rabi* crops being good, they were enabled to support themselves without any very serious difficulty In Darbhanga, during the first part of the year, the general condition of the khas mahal raiyats was not good owing to the continuance of famine, but during the latter part of it they were better off

60 The condition of the raiyats in the Government estates of the Orissa Division was less satisfactory than in the preceding year The Collector of Cuttack reports that in Banki, owing to the repeated floods in August and September, followed by drought in October and November, the standing *beali* crop which was attaining maturity, and the *saradh* crop which was promising well, were seriously damaged Agriculturists' loans amounting to Rs 5,000 were advanced to the tenants, and improvement works were taken in hand to provide work for the labouring classes Gratuitous relief in grain doles was also given to the people in distress The Collector of Balasore writes that the condition of the raiyats in general in the Government estates of Bulso and in some of the villages in Nayanand was far from satisfactory, in consequence of the floods, followed by a premature cessation of rains *Takavi* loans were distributed in these villages, and the realisation of the outstanding balance of

the loans granted in previous years was also suspended A serious outbreak of cholera occurred in some villages in the Nayanand and Birso Government estates In Khurda, the condition of the raiyats was generally good, except in portions of zilla Banpur and Balabhadrapur, where the winter rice crops suffered severely The needy people of Banpur were provided with work, the cost of which was met from the improvement grant, and some help was given from private subscriptions to indigent and helpless persons Some works, paid for from the same grant and from District Board Funds were opened in zilla Balabhadrapur, bordering on the Chilka Lake, to provide the poorer classes with the means of earning a livelihood Cholera and small pox appeared in some parts of the estate Landless labourers left their homes to seek employment in other parts of the district, and some went further afield in the hope of getting higher wages The people of Kotdesh and Kotdar also suffered from the effects of floods and drought, and the poorer classes had to be provided with agriculturists' loans to purchase seed grains Some District Board works were also opened to provide employment The four Co operative Credit Societies in Khurda and Kotdesh helped the poorer cultivators to some extent The more substantial of the cultivating classes derived advantage from the higher price of food grains prevailing during the year, as it enabled them to dispose of their surplus produce more profitably to themselves In Angul, a succession of bad harvests for the last three years and the high prices of food grains told on the condition of the cultivators with small holdings and the labouring classes, but the well to do cultivators and grain-dealers are reported to have made large profits by selling their grain at very high rates In February and March, works were provided for giving relief to people in distress, and *takavi* loans were advanced liberally for the purchase of seed-grains The Deputy Commissioner of Sambalpur reports that the condition of the raiyats of villages in Government estates was on the whole fair

61 As for the Chota Nagpur Division, the general condition of the tenantry in Hazaribagh was good, and there were no desertions In Ranchi, there was some scarcity in the latter part of the year, owing to the failure of the crops, but otherwise the condition of the raiyats in the Government estates was fairly satisfactory In Singhbhum, the raiyats were, in spite of the drawbacks of the season, fairly prosperous In Palamau, owing to the unfavour able monsoon conditions which prevailed, the agricultural year throughout the district was unfortunate But by reason of the very close attention given to the Government estate in recent years, the raiyats were enabled to meet their troubles far more successfully than the tenants of private estates Owing further to the very low rates taken for *mahua*, and more particularly for lac, the tenants possessed a reserve which helped them to face successfully a year of adverse conditions Agriculturists' loans were freely given where necessary for the purchase of seed grains and bullocks, and the village *mahajan*, with his exorbitant rates of interest, has practically disappeared from the estate The Deputy Commissioner writes —

> "I have not the least hesitation in affirming that the khas mahal raiyats are immeasureably better off in every way than the tenants of any private estates in the district, and the raiyats themselves are the first to admit this "

Fifty one relinquishments of holdings and 203 desertions in the Government estates of Palamau occurred during the year The increase in the number of desertions is attributed to a severe epidemic of cholera which raged in some of the villages in the Garu and Daltonganj Circles The country is, of course, to some extent still in an early stage of agricultural development, and in many of these so called cases of desertion the raiyats merely left one Government village for another During the year under report 108 new families came from jagirdari villages and settled in the Government estates

Surveys

62. An account of the surveys made by the professional agency under the supervision of the Superintendent, Provincial Surveys, Bengal, in the district of Midnapore, 24-Parganas, Khulna, Patna, Monghyr, Bhagalpur, Purnea, the Sonthal Parganas, Puri and Ranchi is furnished by the Superintendent in his report for the survey year ending the 30th September 1907 The corresponding report submitted by the Director of Land Records, Bengal, gives information regarding the non-professional settlement surveys conducted under his supervision

Besides the above, certain surveys in connection with petty settlement operations were made by non professional agency under the control of the Commissioners of Divisions The more important of these were in the districts of the 24 Parganas, Shahabad, Hooghly, Gaya and Midnapore

Burdwan

Survey of the bed of River Damodar and of the *chaukidari chakran* and the *phanridari* lands

63 The traverse and cadastral survey in the Damodar *diara* lands has been completed The work in respect of the *chakran* and *phanridari* lands in thirteen thanas has also been completed It is in progress in three thanas, and in one the work had to be postponed in consequence of an outbreak of cholera

24 Parganas

Calcutta Suburbs Survey

64 The survey of the Added Area of the town of Calcutta is almost complete The attestation work has been done by the Settlement Officer, and the records have been corrected accordingly The work in one subdivision could not be completed, owing to the difficulty experienced in locating and identifying the holdings The progress made in the preparation of clear copies of maps showing the new as well as the old revenue holdings and the municipal holdings comprised therein, is said to have been fair

Settlements

65 A description of the settlement operations conducted under the Director of Land Records, Bengal, has been given in his report for the year ending the 30th September, 1907 The financial results of these, as well as of the settlements carried out during the year under review, under the supervision of the Commissioners of Divisions, are summarized in Appendix XI to the present Report It will be seen that an increase of Rs 29,732 in revenue was obtained by these operations The increase was obtained chiefly from the re settlements in the Sunderbans, the 24-Parganas and Shahabad, from the summary settlements in Khulna, and from the original settlements in Hooghly Four hundred and forty settlement cases were disposed of, and 656 were left pending, chiefly in Shahabad, the Sundarbans and Hooghly district

Settlements under the Bengal Tenancy Act of Government estates carried out under the control of Commissioners

66 The progress in the settlements carried out under the Bengal Tenancy Act in respect of the Government estates is detailed in Appendix XII to this Report An area of 72,845 acres, in 151 villages, and with about 12,830 tenants, was under settlement, chiefly in the Sundarbans, the 24 Parganas and Gaya The total expenditure incurred was Rs 13,329

Burdwan

Settlement of *ghatwali* lands

67 The final report of the settlement is pending with the Board, as the report about the settlement of one *ghat* has not been received.

Bankura

Settlement of *ghatwali* lands

68 The settlement of 48 tenures was pending at the beginning of the year, during which 10 were settled with a revenue of Rs 3,120 The indentures in respect of 13 more *ghats* have been or are being executed In the case of the remaining 25 *ghats*, the zamindars and *ghatwals* refused to come to an amicable settlement Further proceedings have been postponed till the general operations of the district begin

Bankura

Settlement of *simanadari* lands

69 Out of 360 cases pending for settlement since the close of the last financial year, *pattas* and *kabuliats* (between the zamindars and the *simanadars*) have been registered in regard to 323 tenures In 10 of the remaining cases zamindars have objected, on the ground of the inclusion of *mal* lands in the *simanadari* area Twelve cases are awaiting the receipt of stamps from the Burdwan Raj, with whom 8 more cases are pending The remaining cases relate to several joint proprietors, and the execution and registration of documents in these cases remain to be done

Settlement of Sambalpur district

70 The settlement proceedings of the district of Sambalpur were completed in the year 1906 07, and the completion was formally declared by Government in Notification No 718L R , dated the 3rd February, 1908

Irrigation and Drainage

71 The large irrigation schemes maintained by the Public Works Department, and the irrigation reservoirs, tanks and wells in Government estates maintained from the improvement grant, are not noticed here

Burdwan Division

72 In the Contai subdivision of Midnapore, *khals* were cleared of silt by the Khas Tahsil Department, at a cost of Rs. 2,247 Two new *khals* (known as the Daudpur-Silampur Drainage Cut and the Argoal Drainage *Khal*) were excavated by the Public Works Department In Hooghly, no drainage schemes were carried out during the year, but recoveries were made, as before, of advances in connection with the Howrah and Rajapur schemes The outstanding balance of the Rajapur and Howrah Drainage schemes, as accepted by the Accountant-General, Bengal, after the adjustment of accounts, the amounts realized and the refunds sanctioned during the year are shown in the statement below —

SCHEME	Original demand	Revised demand	Balance as accepted by Accountant General Bengal after adjustment of accounts	Amount realised during 1907-08	Amount remaining to be realized	Amount refunded on account of reduction of interest etc
	Rs	Rs	Rs	Rs	Rs	Rs

Rajapur	17,07 424	14 97,349	2 75 702	95 633	1 80 069	39 777

Certificates were filed for all unpaid instalments in the Rajapur scheme It now remains to watch and assist the execution proceedings and to make the refunds

Presidency Division

73 In the 24 Parganas, the Magrahât Drainage scheme, under the Bengal Sanitary Drainage Act, is being carried out by the Public Works Department, and it is reported that satisfactory progress was made during the year The Peali sluice was constructed, and the Surjipur section has now been completed It is reported that the sluice has done immense good in draining the Magrahât swamps In the Dhosa section, the Hobka sluice was completed during the year, and the excavation of the Hobka *khal* is in progress In the Magrahât section, at Diamond Harbour, the outfall sluice of 30 vents has been nearly completed In the scheme for the drainage of the Nawi and Sunthi rivers in the Barasat subdivision, the Drainage Commissioners have been appointed under section 30 of the Sanitary Drainage Act and a survey and the preparation of a preliminary scheme are in progress In Nadia, a new Committee has been formed for the drainage of the Charuikol swamp, and the proceedings commenced *de novo* In Murshidabad, the Laujola and Loknathpur sluices were completed during the year at a cost of Rs 2,4 5 and Rs 2,325, respectively, and steps are being taken for the recovery of the cost from the proprietors of the lands benefitted The Garh Berhampore Drainage scheme is still under consideration A scheme for draining the Panchthopi village at an estimated cost of Rs 1,275 has been taken in hand The District Board have made a small contribution of Rs 300, but the cost will be chiefly met from funds raised by public subscription In Jessore, the Drainage Commissioners for the Bhairab valley project were elected and appointed during the year In Khulna, the survey and preparation of the preliminary scheme for the drainage of Bagerhat and surrounding villages under the Bengal Sanitary Drainage Act were completed during the year

Patna Division

74 In Champaran, the Magan *pain* was not of much use during the year The necessity for this particular system of *pains* will, however, disappear as soon as the Tribeni canal is opened

Bhagalpur Division

75 The proposed scheme for impounding water for the irrigation of land in Thanas Shaikpura and Sikandra, in Monghyr, is still under consideration The Gerua project in Bhagalpur was carried through during the year with the co-operation of the

zamindars interested and did much good to the tenants of that part of the district The attention of the Subdivisional Officer of Madhipura has been drawn to the project for draining a large area of land a few miles north of Singheswar Loans were granted under the Land Improvement Loans Act to private individuals for the construction of irrigation bunds and tanks in the district of the Sonthal Pargenas

Orissa Division

76 In Cuttack, several minor distributaries and some permanent outlets were constructed during the year The raising of the flood bank of the Patamundai Canal which is exposed to the flood of the Brahmani river, was in progress In the Sadar subdivision, the extension of the Machhgaon Canal is very necessary, as this would irrigate a very large area and afford effective protection against drought In the Government estate of Banki, a sum of Rs 4,047 was spent in repairing a number of irrigation reservoirs and tanks, with the object of providing work to the labouring class In Balasore, the experience of the heavy flood, which occurred last year, led to the proposal for the construction, amongst other projects, of the following irrigation channels, embankments and sluices —

(a) An irrigation canal from Baitarani and Anandapur, through Agárpara, across the River Salandi to River Kansbáns
(b) A canal from Bodok to Salandi, with sluice gates at its junction
(c) A channel from Sálandi to Mutrigarh, through Hiragharai and Kharia-buudh to Duppa

The closing of the Gorchand and Puntia *ghats* and the construction of an escape at the Genguti river, at a cost of Rs 11,400, were undertaken and are in progress

77 The Public Works Department has under consideration an extensive irrigation scheme in Banpur, on the Sulia river, in the district of Puri The District Engineer has also proposed another scheme of irrigation near Sunakhala, at a cost of about Rs 5,000 In Angul, 27 irrigation dams were excavated and improved in Angul subdivision, at a cost of Rs 7,658

Chota Nagpur Division

78 In Palamau, the chief original works were the improvement of the Hurgura and Fadaura schemes and the Saddabuha weir scheme The Naduará scheme worked during the year very successfully, and gave a full rice crop to several villages Numerous small works were also taken up

Embankments
Burdwan Division

79 The 53 miles of Government embankment on the banks of the Damodar and 22 miles on the banks of the Ajai in the district of Burdwan, were maintained in good condition The Srikistopur breach, which originally started in July, 1904, is to be closed, and an estimate amounting to Rs 8,917 has been sanctioned for this work The large Begua breach will also be closed Two spill weirs are to be constructed, one in the Srikistopur embankment, and the other just below the breach, and the Damodar channel will be trained

80 There are 26 embankments in the district of Midnapore, of which three are maintained by the Executive Engineer of the Balasore Division, and 23 by the Executive Engineer of the Cossye Division Of these, 19 are maintained under the contract system, and seven by apportionment among the benefited propreitors of the actual expenditure incurred by the Public Works Department. The system of keeping accounts has been revised by the Board A statement showing the demand, collection and balance of embankments during the year 1907-08 is given below —

Balance of last year	Demand for 1907 08	Total	Collection during the year	Collected in previous year in advance in respect of demand of the year under report	Remission	Total	Balance	Advance payment
Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs
15,857	69,514	75,371	49,634	655	1,054	51,343	24,028	5,7[illegible]1

Eleven criminal cases were instituted by the Executive Engineers of the Balasore and Cossye Divisions under the Embankment Act Of the ten cases disposed of eight ended in conviction and two in acquittals As a rule, the prosecutions were instituted in the case of the erection of bunds, in the notified areas In Hooghly, of the total amount of Rs 47 701 advanced up to 31st March, 1908, for the four projects named in the margin, Rs 31,805 were realized up to the end of the year, leaving a balance of Rs 15,896, of this sum, Rs 12,778, due from the Burdwan Raj on account of the Madaria khal left embankment, were written off under the orders of Government, and thus the actual balance unrealized was Rs [illegible],118 The remodelling of the zamindari embankment on the left bank of the Madaria khal from Penro to Dilakas, at an estimated cost of Rs 24,431, has not yet been completed

	Rs
Kummrul sluice	15 287
Madaria khal left embankment	28 485
Maya Chak sluice	32
Rampur wes drainage	3 947
Total	47 701

The zamindari embankments within the jurisdiction of Amta and Bagnan police stations were breached by the floods of the Rivers Damodar and Rupnarain, the worst floods occurring at Jaipur Repairs have been undertaken The remodelling of and filling up of breaches on the Chakkasi embankment, and the remodelling of the embankment from Uluberia to Champakhal, have been sanctioned

Presidency Division

81 In the 24 Parganas, all the sluices are reported to be in good order Three and a half miles of Schedule D embankment were abandoned during the year, owing to the construction of a new *takavi* embankment on the left bank of the Peali river Three small retired embankments at Bansara, Srinagar and Hatemghar were completed during the year The cyclone of June, 1907, seriously damaged the laterite, revetments at Hooghly Point and Diamond Harbour The necessary repairs, at an estimated cost of Rs 37,000, have been undertaken and were nearly completed during the year under report In Murshidabad, a breach was caused by the floods in the Khalu-khali embankment on the Bhagirathi It was repaired by the Public Works Department In Khulna, embankments are not properly maintained in the Sundarbans area A clause has been inserted in the new form of kabuliyat, recently adopted, providing for the maintenance of embankments by the lessees, and it is expected that this will lead to an improvement Rupees 9,420 were sanctioned for the construction of an embankment in the Chandkhali Government estate

Patna Division

82 The Gandak embankment, which protects part of the four North Gangetic districts of Saran, Champaran, Muzaffarpur and Darbhanga, is maintained under the contract system The present contract is for 20 years Out of a total demand of Rs 75,032, a sum of Rs 58,[illegible]95 was collected and Rs 7,7[illegible]5 were adjusted from the previous advance collections The balance outstanding at the close of the year was Rs 8,702, and was specially large in the district of Muzaffarpur The other embankments in the Division are the Turki and Daudpur embankments in the district of Muzaffarpur, the Ganges embankment in Darbhanga and the Sakri Bardh in the districts of Patna and Gaya. These are all maintained under the *takavi* system, and the cost of their upkeep is recovered from the persons benefited by the annual apportionment of the charges incurred

Bhagalpur Division

83. There are three public embankments in this Division, viz, the Monghyr embankment, the Chandan embankment in Bhagalpur, extending from Banka to Mahesadi, and the Belwa embankment in the Araria subdivision in Purnea In the case of the first and third the cost of maintenance is recovered from the proprietors of the estates benefited In that of the second, besides the proprietors benefited, Government also contributes to the cost of repairs for the safety afforded to the Banka civil station Out of the amount of Rs 2,000 outstanding at the commencement of the year as arrears of 1906 07 on account of the Monghyr embankment a sum of Rs 1,471 was realized during the year, leaving a balance of Rs 529 for which certificates have been filed The proposal for taking over the Gupta and Gogri bunds under the Bengal Embankment Act II of 1882 has been sanctioned by Government A great deal of work was done in the Tiljuga embankment, in the district of Bhagalpur.

84 All the embankments in this Division, that are under the charge of the Public Works Department, are maintained at the cost of Government In Balasore, the sea embankment from Mandari to Karonjaria, a distance of about 14 miles was breached in 40 places by the heavy flood of August and September, 1907, and is being repaired There were 24 embankments under the charge of the Public Works Department, the total length being 80 miles The question of the abandonment of the Panchpali embankment, owing to the refusal of the zamindars to give an agreement not to erect houses on the embankment lands and side cuttings, is still under consideration The zamindars have not yet come to terms The question of the further development of the system of protective embankments remained undecided A proposal has been made for the construction of an embankment from Bhograi to Kamarda The Superintending Engineer has estimated the cost at two lakhs, and the matter is under consideration There was no prosecution under the Embankment Act during the year under report In Puri, the floods in the rivers were only moderately high and no serious damage was caused to the embankments, the petty damage has been repaired In Cuttack, there are no *takavi* embankments During the year several Government embankments were breached by the unprecedentedly high floods of the Brahmani, Baitarani and Kharsua rivers The A class embankments withstood the flood with the exception of Gunda embankment The Damarpur embankment, which gives protection from ordinary flood, was overtopped and breached in 20 places, and the whole village Damarpur was under water A great portion of Killa Aul was inundated owing to breaches in 12 places of the zamindari embankment A portion of the Kanika Estate was badly damaged owing to breaches in bunds The *ghats* or breaches in the Brahmani and Kharsua river embankments were also very destructive in the Jajpur Subdivision The Janardon *ghat*, the Haldi Basant, the Rautara and the Kothpur *ghats*, which were the most destructive, have overlaid a considerable portion of cultivated land with sand, impairing the productiveness of the soil for some years to come The work of making good these damages is reported to have been completed in most cases and in some the work is still in progress No new embankments were constructed during the year

Orissa Division

Chota Nagpur Division

85 In Ranchi, a sum of Rs 436 was expended No expenditure was incurred in any other district of this Division

Land Registration

86. Appendix No XXXIII shows the intermediate registrations effected during the year, under Bengal Act, VII of 1876 The total number of proprietary interests in land entered in registers of the Province, as now constituted, under section 38 of the Act, amounted to 1,033,586 at the close of 1906 07. The total number of applications for successions to interests, whether by purchase, inheritance, gift or otherwise, made during the year, amounted to 64,959 The number remaining for disposal from the previous year was 18,505 Out of the total of 83,464 cases, 66,916 were disposed of during the year, leaving 16,548 applications pending at the close of the year The number of existing interests removed and of new interests recorded were 77,401 and 94,046, respectively Thus the total number of interests at the close of the year was 1,050,231

The Bengal Land Registration Act, VII of 1876, is not in force in Sambalpur, where mutations of proprietory tenures are registered under section 125 of the Central Provinces Land Revenue Act, XVIII of 1881 and rules framed under that Act

87 The decrease in the number of applications received for mutation in Burdwan is due to a reduction in the number of reports received from the Revaluation office, owing to the completion of its work, while in Birbhum, it is ascribed to the fact that an unusually large number of applications were filed in connection with the 16-anna adjustment of revenue-free estates in the previous year The closing of the revaluation proceedings in Bankura accounts for the decrease in that district The decrease in Hooghly may be ascribed to the comparatively large number of institutione in the previous year The decrease in the 24-Parganas is due to the survey operations now in

progress The decrease in Monghyr was chiefly due to the completion of the revision of Register B The decrease in Hazaribagh is attributed to the fact that, in the previous year, steps were taken under section 65 of the Land Registration Act against the heirs of the recorded proprietors of revenue free properties The decrease in Palamau is trifling

88 Tho increase in Bhagalpur and Purnea is due to the institution of proceedings on a large scale under sections 28 and 65 of the Land Registration Act, in order to supply the deficiencies in Register D which were disclosed by the settlement *khewats* The increase in Cuttack is due to the acceptance of petitions for less than 2 acres of revenue free estates which were not accepted towards the letter part of the preceeding year for want of an index The increase in Balasore was due to the work of revision of settlement records

89 The registers prescribed under the Acts are generally reported to be in good condition In Birbhum, Registers A and B are in Bengali, and Registers AI and AII have been revised in accordance with Board's circular No 7 of April 1907 Register BII is said to be complete and all lands acquired have been entered in it In Midnapore, there was only one revenue free estate to be entered in Register DII at the close of the last year and this estate has now been entered In Patna, clerical or other mistakes and omissions are regularly amended as they are found In Darbhanga, the comparison of Register D with the road cess returns filed in connection with the cess revaluation, operations taken in hand last year disclosed omissions and mistakes in the entries of names in a large number of cases, and action was taken on them, with the result that there was a large increase in the number of cases for mutation In Monghyr the revision of Register B was completed and the revision of Register D, Part I was almost completed In Bhagalpur, and Purnea Register D, Part I, is now under revision in the light of the information disclosed in the settlement *khewats* The comparison of Register D Part II of revenue free estates in Bhagalpur has been finished The charges which the settlement *khewats* for North Bhagalpur disclosed in 1906-07 were effected during 1907 08 The *khewats* of South Bhagalpur have recently been received from the Settlement Department, and it remains to compare them with the Collector's registers, and to take action to correct the errors and omissions thereby disclosed Register C in Purnea will have to be rewritten, as many new names have been elicited by the proceedings of the Settlement Department In Darjeeling it has lately come to light that certain lands have been omitted from the registers of the district In Manbhum, the work of scrutiny and correction of Registers A and C was completed during the year The rewriting of Register B, Part I, was also completed and 40 new entries were made in Register B, Part II

90 The expenditure on account of Land Registration charges during the year amounted to Rs 13,362, as against Rs 25,605 in the preceeding year It was heavy in Cuttack, Monghyr, and Patna, where temporary establishments were entertained for the purpose The fees realized amounted to Rs 3,497 against Rs 4,493 in 1906 07

91 The number of appeals or applications for revision presented to the Board under section 85 was 21

92 Only two cases of fraudulent registration were brought to light during the year In Nadia, one Hari Nath Bose got his name registered by falsely representing that one Konta Kali Dasi had died and that he had inherited the property This was subsequently found out to be false, and, on appeal, the mutation was disallowed No prosecution was sanctioned In another case, in Cuttack, proceedings have been ordered to be drawn up against the applicant for an attempt to commit cheating

93 Notices of transfers were on the whole received regularly from Sub Registrars, Civil Courts, other departments of the Collectorate, and the Land Acquisition Office

94. The Ministerial Officers' Salaries Committee, at the instance of the Board, have recommended to Government that the Land Registration establishments of Collectorates should be made permanent according to the scale fixed by the Board.

Separate accounts of land revenue payments opened for shares under Act XI of 1859 and Bengal Act XII of 1876

Appendix XIV

95 The details of the separate accounts opened or closed during the year are given for each district in Appendix XIV They numbered 2,853 and made up a total of 84,161, paying a revenue demand of Rs 74,51,848, at the end of the year Of these 58,896 accounts were for shares in joint estates held in common tenancy (under section 10 of Act XI of 1859), 6,194 for shares representing specific portions of lands in estates (under section 11 of the same Act), and 19,071 for shares consisting of undivided interests in specific lands (under section 70 of Bengal Act VII of 1876) The number of separate accounts closed by the sale of the whole estate was 709, the revenue concerned being Rs 1,63,332 The question of the imposition of some limit upon the right to open a separate account is under the consideration of the Board

Registration of tenures under Act XI of 1859

Appendix XV

96 There were three registrations during the year for protection of tenures against annulment in case of the sale of the parent estate for arrears of revenue under Act XI of 1859 The total number of tenures thus protected was 2,050 at the close of the year These tenures comprise a total area of 3,436,513 acres, with a total rental of Rs 21,03,883

Partitions

Appendix XXXII

97 The year under review shows a slight decrease in the number of institutions as compared with those of the preceding year, disposals have exceeded the institutions and the result of the year's work is a net decrease of the pending file by 23 cases

Institutions increased only in Gaya, Saran, Muzaffarpur, Cuttack, Balasore and Puri In Shahabad, Muzaffapur, Monghyr, Bhagalpur and Sambalpur, more cases were disposed of than in the preceding year, and there was a marked decrease of the pending files in Muzaffarpur which shows the largest number of disposals in the year In Patna, Saran, and Gaya disposals fell off in number The number of cases disposed of in Patna during the year under review was slightly less than the disposals of 1905 06, but greater than those of each of the three years previous to 1905 06. The pending file in this district at the close of the year 1907-08 shows a slight increase over that of the preceding year As regards Saran it is reported by the Collector that several of the cases left over from 1905 06 were almost complete, and the number shown as disposed of in that district during the year 1906 07 was, therefore, exceptionally large In 1907-08, four cases in this district, though ready, could not be submitted to the Commissioner in time as they had been awaiting the realisation of stamp duty, and three cases were remanded by the Commissioner towards the close of the year These facts are said to have contributed to the decrease in the number of disposals, but this decrease is expected to be made up in the current year The fall in disposals in the district of Gaya during the year under review was due partly to the fact that the Deputy Collector in charge, Mr Ram Kamal Gupta, was employed for half of his time on partition, but mainly to the fact that he was unsuitable for mufassal work and therefore failed to go on tour It is reported that a large number of cases remained pending at the close of the year mainly for attestation by him locally Under the orders contained in paragraph 2 of Government memorandum No 1226T —R, dated the 23rd June 1908, another officer with experience of Butwara and Settlement work has since been deputed by the Board to Gaya as a part-time Deputy Collector on Butwara work, in place of Mr Ram Kamal Gupta, and the Collector has been instructed to give him only such extra work as he can do after fully providing for his Butwara duties

98 The following particulars regarding the state of the pending files have been furnished by Commissioners —

Patna Division —As in the preceding year, the largest number of cases was pending in Muzaffarpur, viz, 156, of these 3 cases are under confirmation by the Commissioner and 13 under delivery of possession. 78 cases in this district are more than two years old The cases which have been pending for more than two years in the other districts of the Division are distributed as follows Shahabad 70, Darbhanga 60, Saran 93, Patna 22, Gaya 36,

Champaran 5 With regard to the Saran case, noticed in paragraph 10 of the Government Resolution on the preceding year's report, it is to be explained that proceedings in this case were quashed under the orders of the Board in the year 1902, and proceedings began *de novo* in 1903 on the basis of the cadastral survey and settlement records The case is now in the stage of section 57 of the Act, but is pending before the Commissioner in connection with appeals

Bhagalpur Division —In Monghyr, good progress was made in the intermediate stages of cases during the year, and the completion of proceedings in the large estate of Bisthazari, with an area of 90,000 acres, contained in 256 villages, is especially satisfactory

In Bhagalpur, progress appears to have been satisfactory In Purnea, only 2 cases are on the file, but one of these relates to the Surjyapur Estate, which has an area of 426,190 acres, the proceedings in this case are in the initial stage The two cases in the Sonthal Parganas are now pending before the Deputy Commissioner under section 58

The oldest case now pending in the Division is that of estate Pachna, in the district of Monghyr, in respect of which partition proceedings were instituted in January, 1894 The case is now in course of submission to the Commissioner for confirmation

Presidency Division —Most of the pending cases in this Division are in the district of Jessore where satisfactory progress has been made

Orissa Division —In Orissa, good progress is specially noticeable in Cuttack and Sambalpur Of 94 cases pending in Cuttack, 23 are before, or are ready for submission to the Commissioner and 33 are in the section 94 stage

The Districts of the Patna Division, except Gaya and Champaran, and the districts of Monghyr and Cuttack had whole time officers employed on partition work during the year In each of the districts of Gaya, Jessore and Purnea, a Deputy Collector was employed for half of his time on partition, in other districts, this work was carried on by Deputy Collectors of the general line

99 The increase of the rate of cost of partition in Darbhanga, Champaran Muzaffarpur and Shahabad, noticed in paragraph 111 of the report for 1906 07, has formed the subject of correspondence with the local officers The rate of Re 1 8 per acre reported for the district of Darbhanga was corrected to annas 10 8 per acre

Average cost

The average cost per acre of partitions completed during the year 1907 08 in the Patna and Bhagalpur Divisions varied from annas 6-8 in Bhagalpur district and annas 13 in Muzaffarpur district to Re 1-6 in Darbhanga The increased rate of cost in Darbhanga was due to the inclusion of four very old cases disposed of during the year

100 Estates Partition Funds exist in the district of Jessore, Cuttack, Monghyr and Bhagalpur and in all the districts of the Patna Division except Champaran The accounts of all these districts were audited by the Examiner of Local Accounts during the year, and in Darbhanga, under the orders of the Board, a special audit of the accounts of the fund for the last 12 years was made by a special staff under the supervision of Babu Ananta Mohan Roy, Batwara Sub-Deputy Collector of Darbhanga, and was completed The Sub Deputy Collector's report on the result of his careful audit of the accounts of this district showed that it was impossible, on account of former neglect and errors, to make complete adjustments, and after consultation with the Examiner of Local Accounts, the Board have recently issued instructions for putting the new accounts on a proper basis in this district and other districts of the Patna Division in which it is reported that similar confusion exists

Partition Fund accounts

The discovery of large frauds in the Butwara Accounts of Muzaffarpur, which was mentioned in the report for 1906 07, paragraph 112, necessitated the deputation of an auditor of the Accountant-General's office to look into the old accounts in order to ascertain the total amount of partition fees embezzled by a defaulting tahsildar A report on the subject has been submitted to Government in the Financial Department. The revision of the rules and forms relating to the keeping of Butwara accounts and the improvement of

the audit of these accounts has engaged the attention of the Board during the year, and they are at present awaiting the proposals of the Commissioner of Bhagalpur on the subject

The partition accounts of the districts which have not got Partition Funds except Balasore, were audited by the Treasury Officers concerned and found to be generally correct

Working of the Estates Partition Act of 1897

101 The reports indicate that the Act of 1897 continues to work smoothly though cumbrously No case of enhancement of rents by landlords made immediately after a partition has been reported

In paragraph 10 of their Resolution on the Board's Land Revenue Administration Report for the year 1906 07, the Government observed that sustained efforts should continue to be made by the Board to prevent the delays which so often occur in the disposal of partition cases This remark has had the Board's careful attention, and it is now being considered whether it will be possible to assimilate any part of the Bengal procedure in Batwara cases to that of the United Provinces, where disposal is much quicker

Land acquisition

Appendix XVI

102 Proceedings for the acquisition on behalf of Government of local bodies and companies, of land covering an area of 10,172 acres were confirmed during the year at a total cost of Rs 70,64,759, as compared with an area of 5,687 acres, costing Rs 26,48,621 during the preceding year Detailed particulars of each district are given in Appendix XVI The abatements of annual revenue allowed on account of the lands acquired for Government purposes, including State Railways, amounted to Rs 1,953 13 2, while a sum of Rs 56,010,1 9 was paid to Government on account of the capitalized value of the Government revenue amounting to Rs 2,250-1 5 abated for lands taken up for other purposes, viz, for local bodies and companies

(10) Location of a Central Lunatic Asylum at Ranchi

(11) Water catchment area of the reservoir of the Midnapore-Jherriah Extension of the Bengal-Nagpur Railway in Manbhum

Considerable progress in acquisition for many of these projects was made during the year

105 Two Deputy Collectors continued to be specially employed during the year in the Burdwan Division on the acquisition of lands required for the East Indian Railway, the Bengal-Nagpur Railway and other projects In the Presidency Division the Deputy Collector employed last year was at work throughout the year specially on taking up lands for the Murshidabad portion

of Barharwa Azimganj Katwa Railway, and another Deputy Collector of the general line also remained solely employed on land acquisition work at Alipore, 24 Parganas At the cost of the Port Commissioners, Calcutta, a member of the Indian Civil Service was employed at Kidderpore, 24 Parganas, from September 1907, in taking up lands required for the extension of the Kidderpore Docks and for the improvement of the Calcutta Port. In the Patna Division one Deputy Collector continued to be specially employed throughout the year on taking up lands for the Siwan-Gopalganj and Daronda-Maharajganj extensions of the Bengal and North Western Railway in the district of Saran The Special Land Acquisition Deputy Collector employed on the Gaya portion of the Gaya Barakar Railway finished his work by the middle of May 1907, when he went on leave and then reverted to the general line The Deputy Collector specially employed on the acquisition of lands for the Bettiah Bagaha and Bairagnia Shikarpur extensions of the Tirhut State Railway and the Tribeni and Dhaka Canal projects in the district of Champaran reverted to the general line in the second week of October last, and a Sub Deputy Collector was employed in his place in the district from the 16th November In the Bhagalpur Division one Deputy Collector continued to be specially employed throughout the year for taking up lands for the Mansi Baptiahi extension of the Tirhut State Railway in the districts of Bhagalpur and Monghyr, and the Bhagalpur-Bausi section of the Sonthal Railways in the Bhagalpur district The Special Land Acquisition Deputy Collector who was employed in the district of Purnea for taking up lands for the Godagari Katihar Railway and the Nepalganj extension of the Eastern Bengal State Railway, finished his work by the first week of May 1907, and was transferred to Burdwan The Special Land Acquisition Deputy Collector in charge of the Murshidabad portion of the Barharwa Azimganj-Katwa Railway was also employed for taking up lands for the portion of the line lying in the district of the Sonthal Parganas In the Chota Nagpur Division, one Deputy Collector continued to be specially employed throughout the year in the districts of Manbhum and Ranchi on the acquisition of lands for the Ranchi Purulia Railway and other projects The Special Land Acquisition Deputy Collector in charge of the Gaya portion of the Gaya Barakar Railway continued to be employed in Hazaribagh till May, 1907, for taking up lands in that district for the same railway The Special Land Acquisition Deputy Collector, Burdwan, was also employed for a part of the year, for taking up lands for the Bengal Nagpur Railway and East Indian Railway in the district of Manbhum

106 The figures given in the margin show the state of the land acquisition files of the ordinary district staff throughout the Province On the 31st March, 1908, 365 proceedings were pending, against 374 at the close of the preceding year, the proportion of proceedings pending for more than two years was about 12 per cent, against 11 per cent in the preceding year Most of the long pending cases were under disposal in the Civil Court

Date of original declaration	Number of proceedings pending on the 31st March 1908
1901 1902	2
1902 1903	1
1903 1904	5
1904 1905	8
1905 1906	30
1906 1907	85
1907 1908	234
Total	365

107 As stated in paragraph 120 of the Board's report for 1906 1907 Babu Rasiklal Sen, Deputy Collector, was employed from May, 1906, on the work of demarkation, under the Bengal Survey Act, of the lands in the occupation of the East Indian Railway in Bengal This work was finished from Liloosh (mile 4) as far as Raniganj (mile 120) by the end of December, 1907, when the Railway Company decided not to carry it further A detailed report on this work of the Deputy Collector has been submitted to Government with Board's letter No 60B T, dated the 27th April 1908

Waste lands

108 The number of current leases granted under the Rules of 1853 in the 24-Parganas and Khulna tracts of the Sundarbans remained the same as in the previous year, namely

115 The rent payable on account of these leases rose from Rs 1,03,192 to Rs. 1,12,782

109 In consequence of the suspension by the Government of Bengal's Notification No 3103T R, dated the 4th November 1905, of the rules for the grant of waste lands in the Sundarbans, no new leases were given during the year One lease under the large capitalists' rules was determined for failure to comply with the clearing conditions, two leases which had been resumed previously were restored by the orders of Government, and two were renewed under the conditions of clause 4 of the original leases This led to an increase in the number of leases from 185 to 188 The area covered by the existing leases is 338,372 acres, with an eventual maximum revenue of Rs 2,02,241 The number of leases granted to small capitalists was nine, as in the preceding year In January 1908, the sanction of Government was accorded to the introduction of forms of leases for (i) *raiyatwari* settlements in the Sundarbans, (ii) building sites in Frasergunge, and (iii) agricultural tenants in Frasergunge

110 The progress of the work of reclamation at Frasergunge was retarded by outbreaks of cholera among the coolies, and was therefore not as satisfactory as had been expected The jungle cutting has not been completed and an area of 1,310 acres remains to be cleared Out of 7,208 acres cleared of jungle, 5,672 acres have been provided with embankments and dams completely protecting the area against the ingress of salt water Of these 5,672 acres, about 3,025 acres are now sweet and cultivable, and arrangements are being made for cultivation this season Besides cutting and clearing jungle and repairing dams and embankments made in the previous seasons, 10 miles of new embankments, 16 dams and 12 tanks were constructed during the year

The number of settlers varied from time to time There were 36 at the close of the year under report The applications for building sites received from European gentlemen have been withdrawn, because they were unwilling to spend the sums fixed by the Board for the construction of houses, in accordance with plans previously approved by the Collector, and also on account of the uncertainty of steamer communication with the island

111 The outturn of paddy sown last year was not satisfactory, owing to the damage done to the crop by excessive rain in June and by drought later on The agricultural experiments in other respects are promising Cocoanut and rubber trees are thriving Plantain trees and pineapples are yielding some fruit Ground nut and potatoes yielded good crops Sugarcane, sunflower and tobacco also did well

112 The steamer "Khatri", for which Government paid a subsidy, of Rs 2,300 a month, ran weekly throughout the year The receipts from passenger and freight traffic amounted to Rs 10,104 which were credited to Government The Public Works Department made an iron landing stage at a cost of Rs 13,790, and a refuge house is under construction

113 The expenditure incurred in 1907 08 in Frasergunge was Rs 1,19,163, and the total expenditure up to the end of 1907 08 amounted to Rs 4 55,743 This includes the maintenance of embankments, the hire of the 'Khatri" and the purchase of corrugated iron sheds and other fixtures since the commencement of the operations

Improvements in the Sundar bans estates resumed by Govern ment

114 There were 24 resumed estates in the 24 Parganas Sundarbans (including Saugor island) and 8 in the Khulna Sundarbans Possession of these estates was taken by Government, owing to the failure of the lessees to comply with the terms of their agreements or for other causes In the 24 Parganas, the management of only 5 of the resumed estates has been undertaken One of these, estate Tona, has been made over to the Khas Mahal Department of the 24 Parganas for management The remaining four, viz, Painabad, Sakdaha, Lot No 16, and Bhagwanpur have been retained by the Deputy Collector in the districts of Khulna and the 24-Parganas who has been given a tahsil establishment for managing them Collections have been made in Painabad and Sakdaha estates. The Commissioner considers that it is necessary to take early steps to improve the embankments in the latter estate Those in lot No 16 are not in order, and the lands

are not protected from salt water inundation Attempts were made to collect rents at existing rates, but the raiyats failed to pay Mr Sunder reports that more than half the estate is relapsing into jungle, and that some of the raiyats have abandoned their homesteads and taken up lands elsewhere In Bhagwanpur the embankments are not in a satisfactory state, as they have not been repaired for a considerable time In this estate it is proposed to make a settlement with the tenure-holders who, in consideration of an allowance to be granted to them, have agreed to maintain the embankments

115 In Khulna, the *raiyatwari* settlement of four resumed estates, namely, Durgatala, Saranpur, Biralakhi, and Basudebpur was completed during the year Another estate, Sibnagore, was also brought under direct management during the year, and Estate Boyer Singa was purchased in a certificate sale for arrears of revenue The repair and construction of embankments are required on all the Khulna estates

116 In connection with the quienquennial programme of works of improvement which it is proposed to carry out in the resumed estates, referred to in paragraph 127 of the Board's Land Revenue Administration Report for the year 1906 07, the Commissioner has suggested that a start might be made in the case of five estates in each of the districts of the 24-Parganas and Khulna which are urgently in need of improvements and which, if improved, would prove remunerative The Board recently asked for sanction to an additional grant for the purpose, but owing to financial pressure, Government so far has been unable to comply with the application

Zamindari cases

117 The levy of illegal cesses in addition to rent prevails more or less throughout the Province The principal forms which these cesses take are contributions for marriage, *salami* or *nazar* on the occasion of a non-resident zamindar's visit to his estate and presents to zamindari amla The levy of embankment cesses by the zamindars of Birbhum, noticed in paragraph 128 of the Land Revenue Administration Report for 1906 07, is still the subject of correspondence between the Board and the local officers Only two instances of the levy of illegal cesses were brought to notice in Murshidabad, in one of which the complaint is reported to have proved groundless and, in the other, the District authorities advised the tenants that the demand was illegal and that they were not bound to pay A complaint was made in Jessore and, as a result, the naib responsible for the oppression was dismissed Complaints were made against Mr R S Bion and the proprietors of the Sathi concern under the Bettia Raj in Champaran, and a separate report has been submitted to Government on the subject The Collector of Darbhanga reports that the exaction of illegal cesses in his district by zamindars has diminished to a great extent since the completion of the Survey and Settlement operations In Bhagalpur, Rash Bihari Mandal, of Madhipura used to collect such cesses from his tenants In Orissa, the tenants, through poverty and ignorance, do not prefer objections and bring suits under section 75 of the Bengal Tenancy Act The tenants are, however, gradually realizing their position and awakening to a sense of their rights and privileges It is reported that the collecting agents of some of the zamindars exact one pice or so for each cheque receipt granted to raiyats as printing charge, and one anna per rupee for *bisodhan* or acquittance The Deputy Commissioner of Sambalpur writes —

"The zamindari *Wazib-ul-arz* (or village administration paper) allows the levy of *Dasahara* offerings, *pushpuni* and *rakhi* The clause was amended during the year by Government order No 3909, dated the 9th December 1907 The rights of zamindars to *beth begar* are also regulated by the *Wazib-ul arz*," and in another place —"Commutation fees for forest produce are levied in several zamindari at from 2 to 4 annas per plough from agriculturists, and the same sum per hearth from non-agriculturists The practice is not a new one and has been recognised by the Court of Wards and in one case sanctioned by the Central Provinces Administration in estates under management "

In Ranchi, the disputes between raiyats and their landlords are nearly as common as ever, though the Deputy Commissioner reports that there appears to be a slight tendency towards a decrease It is reported from Manbhum that *mangans* or occasional benevolences are common throughout the district as before, and that in some estates cesses are levied on the right to cut grass or firewood, on articles sold in occasional market places, and on the right to

weave cloth In Singhbhum, the Deputy Commissioner reports that the levy of illegal cesses is being actively pressed by the Dhalbhum Syndicate No instances were brought to notice of illegal cesses realized by the zamindars and tenure holders of Porahat

Kanungos

118 The Kanungos under the old Regulations (V of 1816 and I of 1819) exist only in the Orissa Division They continued to be employed on local enquiries of civil nature, and on miscellaneous revenue work Some of those in Cuttack were deputed for employment on relief work, and all of them were entrusted with enquiries regarding encroachments on reserved lands In Balasore, their services were also utilized to secure verification of the information and statistics, furnished by the Police Officers, regarding affairs in the mufassal Those in the Khurda Government estate were engaged on the *milan khasra* work in addition to their other duties

Patwaris

119 The Patwaris appointed under Regulation XII of 1817 exist only in the districts of the Patna Division, in Monghyr, in the Pataspur estate in the district of Midnapore, and parganas Kharia and Belaunja in Palamau

As in previous year, the provisions of the Regulation as well as the Patwari Rules were not fully enforced In Patna Division, cognizance was taken only of such cases as were brought either by the zamindars or by the Patwaris In the whole Division there were, for disposal, 1,148 cases, chiefly regarding the appointment or the dismissal of Patwaris, of which 960 cases were decided The Collector of Gaya issued, as in the last year, notices to zamindars to report cases in which new Patwaris were appointed without his consent The effect was that 25 such cases were brought to light and 270 new nominations for appointment were submitted In Monghyr, there were four cases for registration of the names of new Patwaris, and one case filed by a Patwari for his pay The Patwaris in Sambalpur were employed, as in previous years, on the maintenance of the settlement records

Financial results of loans operations under Act XIX of 1883 and Act XII of 1884

120 The financial results of the working of the Loans Acts are shown in Appendices XVII and XVIII, Parts (A) and (B) in accordance with the Government of India's Circular No 2—138 2, of the 15th February 1906

Advances under the Land Improvement Loans Act, XIX of 1883

Appendix XVII (Part A)

121 The loans granted during the year amounted to Rs 4,23,561 against Rs 122,200 in the preceding year The largest advances were made in the districts of Palamau, Hazaribagh, Bankura, Nadia, Murshidabad, Shahabad, Ranchi, Saran, Manbhum, Gaya, Darbhanga and Cuttack, where they amounted to Rs 72,905, Rs 62,395, Rs 50,690, Rs 47,040, Rs 28,340, Rs 26,648, Rs 22,914, Rs 22,000, Rs. 16,205, Rs 11,919, Rs 10,260 and Rs 10,000, respectively Of the sum of Rs 72,905 advanced in Palamau, Rs 67,751 were given to the jagirdari tenants and proprietors, and the balance of Rs 5,154 to the raiyats of the Government estates for the preparation of rice lands, for repairing old *bandhs* and for purchasing seed grains and plough bullocks In Bankura, owing to scarcity prevailing in certain parts of the district, advances were liberally granted to tenure holders and landholders in the affected tracts to employ labour for the improvement of the water-supply both for irrigation and drinking purposes The advances in Nadia and Murshidabad were given in all cases to villagers and zamindars for excavating and re excavating tanks and sinking wells In Shahabad, advances were made for construction and repair of masonry wells and *ahars* embankments and similar small irrigation works, chiefly in the Bhabhua and Sasaram subdivisions, and those made in Saran were for sinking wells

122 The balance of loans outstanding under the Act on the 1st April 1907, amounted to Rs 4,78,995, and was increased to Rs. 9,02,556 by the advances made during the year, the amount due for recovery was Rs 1,21,140. The total collections amounted to Rs 1,00,418, while Rs 182 were remitted and Rs 166 suspended The percentage of collections on the realizable demand was 82 5, against 85 8 in the preceding year The net amount overdue at the end of the year was Rs 25,703. Of this, in the Burdwan

Division, a sum of Rs 5,903 remained uncollected in the district of Burdwan' of which Rs 347 have since been recovered and the balance is in course of realisation under the certificate procedure It is satisfactory, on the other hand, that all the demands which fell due during the year were realized in full in the districts of Midnapore and Hooghly, and only very small sums, viz, Rs 95, Rs 50 and Rs 30 remained outstanding in Bankura, Birbhum, and Howrah, respectively It is reported that, in spite of the unfavourable circumstances of the past year in Bankura, all the debtors paid up their dues in time and that there was no case of remission or of recovery by coercive measures In the Presidency Division the recoveries were not so satisfactory as in the previous year They were specially poor in Khulna, where only 39 8 per cent of the dues was collected In the Patna Division, the balance overdue at the end of the year amounted to Rs 7,181, of which Rs 5,385 were due in Gaya, owing, in most cases, to the failure of crops Steps are now being taken for the realization of the balance by means of the certificate procedure Out of the total amount realizable during the year in the Bhagalpur Division, Rs 3,210 remained outstanding, excluding Rs 182 remitted in Monghyr and Rs 19 suspended in the Sonthal Parganas In the Orissa Division, the outstanding was only Rs 100, against the Sambalpur district In Hazaribagh, the whole balance of Rs 177 overdue, viz, Rs 147 on account of principal and Rs. 30 on account of interest, has been suspended on account of the failure of the crops In Ranchi, certificates have been issued for the recovery of the amount overdue In Palamau, in view of the existing scarcity and high prices, no coercive measures were taken for the recovery of the large balance overdue, though warning postcard notices were issued against the defaulters Those who could pay without hardship have already done so, and the unpaid balance will be recovered in due course In Manbhum, the balance is under realization

123 The total collections of principal and interest, including advance collections, amounted to Rs 1,28,163 The amount remitted was Rs 219, and Rs 201 were under suspension, leaving a balance of Rs 33,942 uncollected at the end of the year

124 The financial results of loan operations under the Land Improvement Loans Act are shown in Appendix XVIII (Part A) The total interest payable for the year on the grant sanctioned in the several Divisions amounts to Rs 31,912, while that collected during the year amounts to Rs 27,745 and the balance of interest, therefore, is Rs 4,167 The amount of principal remitted during the year was Rs 182 and Rs 8,138 represent "other expenses"

Appendix XVIII (Part A)

125 The balance outstanding on the 1st April 1907, was Rs 19,00,165 and Rs 13,83,782 were advanced during the year, making a total of Rs 32,83,947, of which Rs 10,01,639 were realizable within the year The total collections amounted to Rs 5,34,200 (including Rs 25,333 advance collections), while Rs 414 were remitted, and Rs 2,30,182 were suspended Thus there remained a balance of Rs 2,62,176 overdue The percentage of collection on the realizable demand was 53 3, against 81 3 in the preceding year

Advances under the Agriculturists Loans Act, XII of 1884

Appendix XVII (Part B)

The principal advances were made as follows —in Balasore (Rs 2,77,610), Darbhanga (Rs 2,29,466), Nadia (Rs 1,69,754), Murshidabad (Rs 1,24,857), Cuttack (Rs 99,515), Jessore (Rs 96,875), Monghyr (Rs 54,600), Palamau (Rs 51,595), 24-Parganas (Rs 33,870), Bhagalpur (Rs. 27,356), Saran (Rs 26,252), Shahabad (Rs 26,071), Gaya (Rs 25,017), Hazaribagh (Rs 24,986), Khulna (Rs 21,524), Sambalpur (Rs 21,100), Angul and Khondmals (Rs 15,952), and Birbhum (Rs 10,502)

126 The heavy expenditure on these loans was necessitated by the unfavourable agricultural conditions of the year which affected most of the Divisions Some special loans were made to Sonthals in Birbhum and Bankura

127 The greater portion of the balance in the Burdwan Division was due in the district of Burdwan (viz. Rs 2,153), but the percentage of recoveries there was fairly satisfactory, being 66 8 against 64 5 in the preceding year

The Commissioner has allowed time to the defaulters in Birbhum to make payments of the balance of Rs 238 during the current year The outstanding balance in Hooghly (Rs 451) is in course of realization by the certificate procedure The collections were not satisfactory in Khulna, where only Rs 6,728, out of the Rs 30,543 which became due, were collected This was mainly owing to the failure of the crops in the Chandkhali Government estate where the embankments were in a bad condition They have now been repaired, and the arrear will be collected after the next harvest The collection of a total sum of Rs 1,92,016 was suspended during the year in the districts of Patna, Gaya, Champaran, and Darbhanga on account of the local distress The percentage of collections on the realizable demand in the Bhagalpur Division was 59 6, against 48 6 in the preceding year Of the balance of Rs 61,782 outstanding at the close of the year, a sum of Rs 31,487 was in Monghyr, Rs 27,736 in Bhagalpur and Rs 1,429 in Purnea, and Rs 1,160 in the Sonthal Parganas It is stated that the raiyats were unable to pay the due instalments owing to the floods of the previous year and the subsequent poor harvest The fall in the percentage of collection on the realizable demand in the Orissa Division, from 75 06 to 43 96, is attributed to the prevailing distress arising from the failure of crops during the year In Hazaribagh, out of the total sum overdue, a considerable amount had to be suspended on account of the failure of the crops The remainder was under recovery Of the total amount advanced in Palamau, Rs 44,820 fell due during the year, of which Rs 34,608 (excluding Rs 60 received in advance) were collected and Rs 249 remitted, leaving a balance of Rs 9,963 outstanding at the close of the year, for the recovery of which postcard notices have already been issued

128 The total interest, including arrears and that falling due during the year, amounted to Rs 1,41,563 of which Rs 73,014 were collected (excluding Rs 1,253 collected in advance), Rs 204 remitted, while the realization of Rs 24,319 was suspended, and the balance outstanding was Rs 43,926

129 The financial results of the working of the Agriculturists' Loans Act are shown in Appendix XVIII (Part B) The interest payable for the year on the grant sanctioned was Rs 1,13,861, and that collected during the year amounted to Rs 74 267 The balance of interest is Rs 39,594 The amount of principal remitted during the year was Rs 414 and Rs 30,225 represent "other expenses"

Appendix XVIII (Part B)

130 A sum of Rs 30,000 was sanctioned by Government for loans to the Mundas and other aboriginals in thanas Torpa, Basia, Kolebira, Bano and Karra, in the district of Ranchi to enable them to redeem mortgages on their lands A sum of Rs 500 was also sanctioned for expenditure on Registration fees and stamp duty on bonds executed by the Bhuinhari tenure holders The work in all these thanas has been completed, excepting that in Bano where it had to be left over, owing to the unusually heavy rains in July and August, which practically cut off the thana from the rest of the district Further operations were postponed till 1909-10

Loans to Mundaris

PART III —RENT

131 The provisions of the Bengal Tenancy Act, VIII of 1885, as amended by Bengal Act III of 1898 and Bengal Act I of 1907, govern the relations between the landlords and the tenants of the major portion of the Lower Provinces The Act continued to work fairly satisfactorily The gradual extension of the survey and settlement proceedings to the whole of the Province has tended to familiarize the public with some of the more important provisions of the Act

Bengal Tenancy Act

132 The provisions of certain sections of the Act, as lately amended, have been introduced into the districts of Cuttack, Puri and Balasore by Government Notification No 1142L R, dated the 22nd February 1908, and into the districts of the Chota Nagpur Division (except Manbhum) by Notification No 1379L R, dated the 5th

Its extensions

March 1908 The question of extending the provisions of sections 178 and 183 into the three Orissa districts, named above, is under consideration

133 Amendment of the Act last year necessitated the revision of the rules prescribed under it by Government and revised set was issued under Notification No. 2705T —R, dated the 31st October 1907

Rules framed by Government under the Act

134 The use of rent receipt forms, printed by Government presses, is practically confined to the Government estates and those administered by the Court of Wards, the public in general use the cheaper forms sold by private firms It is understood that some of the petty landlords in Cuttack do not use the printed forms, but nothing has been reported this year as to the use of palm leaf receipts in Orissa The question of the introduction of the system of duplication of receipts by the pen carbon process in all Government estates is being considered by the Board

Rent-receipt forms

135 Appendix XIX to the Report shows the operations, in each district, under the various sections of the Bengal Tenancy Act, so far as it is administered by Revenue Officers

Working of the Bengal Tenancy Act under Revenue Officers

136 *Voluntary transfer, section 12 (3)*—The increase from 50 215 to 53,473 was mainly in the Patna Division There was a fall in the Burdwan Division The increase in Shahabad from 1,044 to 7,198 is ascribed to bad harvests Murshidabad, as usual, had the lowest figures

137 *Transfer by sale in execution of decrees, section 13 (2)*—The total number of the reported transfers again fell from 391 in 1906 07 to 235 The decrease was heavy in Midnapore, where the number came down to 6, from 138 in the preceding year, and is said to have been due to the fact that landlords refrained, owing to agricultural distress, from instituting suits for the realization of arrear rents

138 *Transfer by succession, section 15*—There was some decrease in the number of these transfers also

139 *Payment of landlords' fees*—Although the apathy of the landlords to receive the fees still continues, the figures in Appendix XIII show that there has been some improvement The figures for the Patna Division show a decrease in the percentage, but the reason for the sudden rise in the year 1906 07 was explained in that year' report to be due to the filing of a large number of applications by the Maharani of Dumraon and the Hatwa Raj

140 *Preparation of price lists, section 39*—As usual, these were published regularly, and no objection was taken to them

141 *Commutation of rent payable in kind, section 40*—There was a further rise in the number of these cases The rise in Patna is ascribed to the change in the procedure under which each individual case is to form the subject-matter of a separate application The cases in Gaya were mostly confined to a single village in which the relations between the *thikadars* and the tenants were said to be far from satisfactory The increases reported from Saran, Muzaffarpur and Purnea are ascribed to the growth of knowledge on the part of the public due to the settlement proceedings The fall in the number of these cases in Bhagalpur is due to the fact that these applications are now being filed before the Settlement Officer

142 *Order for appraisement or division of crops, sections 69 and 70*—The annual figures show a steady increase One reason is that more officers have been empowered to deal with such cases The other is the change in the procedure

143 *Registration of improvements, section 80*—The fluctuation is slight, there being fewer cases in Gaya and more in Bhagalpur

144 *Notice of re-entry upon lands by landlords, section 87 (2)*—The provisions of this section are generally disregarded

145 *Applications for surveys and preparation of record of rights under Chapter X*—There were 106 such applications, against 39 in 1906 07 There were 73 cases from Burdwan Division and 32 from the Presidency Division,

in neither of which Divisions have the general survey and settlement operations started

146 *Progress made in surveys and preparation of record of rights under Chapter X* —An account of the major settlement operations carried out under the control of the Director of Land Records, Bengal, has been furnished in that officer's report for the year ending the 30th September 1907 Of the proceedings carried out under the supervision of the Commissioners of Divisions, information in regard to the land revenue settlements (Government estates and temporarily settled estates) has been furnished under "Settlements" in the earlier part of this report The proceedings in respect of the Wards' and Attached Estates will be dealt with in the Report on the Administration of the Wards' and Attached Estates The progress made during the year in the proceedings in respect of the zamindari (permanently settled) estates is tabulated in Appendix XII

147 The total area of the zamindari estates under settlement during the year was 67,314 acres, lying in 318 villages The largest areas were in Hooghly (26,701 acres), Jessore (19,036 acres), Midnapore (6,471 acres) and Khulna (6,218 acres) Up to the end of 1907 08, the records of 163 villages were finally published The total expenditure incurred during the year amounted to Rs 19,505

148 *Local enquiries held by order of Court, sections 158 and 31* —The total number of cases under this head remained unchanged

149 A set of instructions has been issued by the Board for the guidance of Revenue Officers administering the provisions of section 58 of the Act regarding the withholding of rent receipts by landlords

Rent suits under Act X of 1859 and Bengal Act 1 of 1879 as amended by Bengal Act V of 1903

Appendix XX

150 In the districts of Cuttack, Balasore and Puri in the Orissa Division, the Darjeeling district in the Bhagalpur Division, and the Manbhum district in the Chota Nagpur Division, rent suits are tried under Act X of 1859 In the other districts of Chota Nagpur, rent cases are tried under the Chota Nagpur Landlord and Tenant Procedure Act, I of 1879, as amended by Bengal Act V of 1903 In Sambalpur, such suits are tried under the Central Provinces Tenancy Act by Revenue Officers who have been appointed as Munsifs [under section 36 (1) (a) of the Bengal, North Western Provinces and Assam Civil Courts Act XII of 1887, as amended by section 16 of the Sambalpur Civil Courts Act, IV (Bengal) of 1906]

151 In the Orissa Division, 27,506 suits of all kinds were instituted against 30,671 in the preceding year In Cuttack and Balasore, the decrease was mainly attributed to bad harvests, and in Puri, to the fact that in 1906 07 the common Manager of the Bhinjarpur estate and the Manager of the Puri temple had filed an exceptionally large number of rent suits In Cuttack, the number of suits instituted for the recovery of arrears of rent, which constituted the bulk of the suits under Act X of 1859, shows an increase of 143, but there was a decrease of 15 cases in suits regarding illegal exactions, and of 236 in miscellaneous applications

In the Chota Nagpur Division, altogether 6,899 suits for arrears of rent were instituted, against 7,340 in the year 1906 07 The decrease is shared by all the districts except Manbhum, where there was an increase of 232 suits The decrease (715) in Hazaribagh was ascribed, partly to the fact that the Raja of Padma who had instituted 270 suits in 1906 07, filed only seven suits in the year under report, and partly to the failure of the crops In Ranchi the decrease (510) was due (*a*) to the fact that the *Sambat* era having fallen this year in April instead of in March, a large number of suits were filed during the month of April 1908, and (*b*) to a gradual settling down and improvement of the agricultural situation where the settlement has been finished

There was a remarkable reduction from 334 to 15 in the number of complaints brought by Ranchi raiyats against landlords for withholding rent receipts, and none of the 15 were successful

152 The Board laid down that officers inspecting the work of Deputy Collectors trying rent suits should look into the following, among other points —

(a) whether the record of rights is usually or invariably consulted before passing a decree in cases where the plaintiff had not filed with his plaint a true copy of the portion of such records concerned,

(b) whether the name of the village, as given in the plaint, agrees and corresponds with any recognised village according to the record-of rights, and whether the land concerned in the suit is actually in such village,

(c) whether the name of the thana in which the village is situated is invariably stated, and

(d) whether the plot numbers are those as given in the *khatians*

From the reports received it appears that these directions are being strictly observed in Ranchi, and Singhbhum, but less carefully in Cuttack, whilst nothing has been reported about Balasore and Puri Records of rights have not been prepared for large areas in the other districts

153 In the Orissa Division, the percentage of suits, in which damages were allowed to plaintiffs to the total number decided, increased in Cuttack very considerably from 1 5 to 4 9 No satisfactory explanation of the increase has been offered In Balasore there was no case, while in Puri the percentage was less than one In the Chota Nagpur Division the percentage of such cases rose from 2 9 to 8 7 in Hazaribagh while in Ranchi and Palamau declined from 6 2 to 2 and from 28 05 to 1 7, respectively In Manbhum and Singhbhum no damages were allowed It is not clear why there should be so considerable a difference in the results of the working of the section between Hazaribagh and the other districts of the Division

Operation of the penal provisions of Bengal Act VI of 1862 and Bengal Act I of 1879 as amended by Bengal Act V of 1903

Appendix XXI

154 As compared with the year 1906-07, there was an increase of four in the number of applications to District Officers, while there was a decrease of 114 in the number of applications to Civil Court amins Out of the total number (143) disposed of sale actually took place in 18 cases only, pertaining to the Orissa Division All the others were compromised or withdrawn or security was taken

Applications for aid in distraint and for sale of distrained property

Appendix XXII

155 Notices of enhancement were issued in the district of Manbhum were only their number increased by 16 as compared with the previous year The number of notices of relinquishment increased by 16 in Hazaribagh In Ranchi the number fell by 34 In Cuttack there were six cases of relinquishment due to the inability of the tenants to cultivate the jotes, owing to the land being subject to inundation and diluvion In the 12 cases in Balasore, the raiyats were not able to pay rent The three cases in Puri were attributed to the fact that the raiyats who nominally relinquished the lands, were not really in actual possession of them though their names were recorded

Notice of enhancement and relinquishment

Part IV —Miscellaneous

* * * * *

162 Under rule 1, Section XI of the Records Manual, 1902, the annual record grant of Rs 20,000 was placed at the disposal of the Board for keeping the record-rooms of the Province in proper working order Including this and the special non recurring grant during the year 1907-08 for the consolidation of indexes in the Board's Office, the supply of fire extinguishers to local officers, and the storage and preservation of records in accordance with the orders of the Government of India, No 213, dated the 28th January 1905, the total sum sanctioned by Government was Rs 50,000, which was allotted for each district

Records

record room and for each Commissioner's record room according to requirements The Board have moved Government for the deputation of a special officer to visit every record room and inspect the work in progress, and will issue further instructions in consultation with him in order to carry out the orders of the Government of India as uniformly as is permitted by local conditions

A few fire extinguishers were supplied to each local officer for experiment, and other precautions against fire are being taken for the preservation of record rooms in Bengal In districts, where the record room is not sufficiently protected by the near presence of the Treasury or other Police guard, resident caretakers have been permanently appointed

The consolidation of the Board's indexes from 1878 is in progress During the year under report considerable progress has been effected in the examination and classification of records, the destruction of old and useless papers and the arrangement of old records in the several record-rooms in Bengal, in which work the suggestions of the Government of India have been carried out as far as practicable

163 During the year under report, the records in the offices of Collectors were generally in good condition, and due attention was paid to the classification and periodical destruction of B and C papers Rules have been framed for the classification of the current rent suit records under Act X of 1859 and under the Chota Nagpur Landlord and Tenant Procedure Act, and also of records of uncontested mutation cases The Hon'ble Member, Mr Slacke, inspected the marginally noted record rooms of offices, and instructions and rules have since been issued in order to remedy the defects noticed

Khulna—The destruction of B and C records was carried out The records and registers consigned to the record room were sorted and placed on shelves

Patna Division, Patna—The renumbering of the land revenue tauzi numbers has been completed The rewriting of the shelf register is in progress The indexing of the old correspondence awaits the visit of the special officer The old rent suit papers have been destroyed Linen cloth has been pasted on the *batwara* maps

Gaya—The registers of different kinds have been rearranged and placed together The unwieldy estate *bastas* have been split up and stacked in double rows on the shelves to give more space for records The *bastas* containing correspondence from the year 1870 to 1905-06 were rearranged in accordance with the orders of the Divisional Commissioner

Shahabad—The arrangement of records was changed from *parganawar* to *tauziwar*, and several volumes of the *cadastral* survey maps and of Register D were rebound during the year

Champaran—Some volumes containing the settlement *khatians* have been rebound, and the examination of the bound volumes of old English correspondence and their sorting and classification are in progress About half the volumes have been examined

Muzaffarpur—The work of indexing the old correspondence in bound volumes has not been taken up

Darbhanga—The shelf register No 41 prepared last year has been thoroughly checked with the estate bundles

Bhagalpur Division, Bhagalpur—Several volumes of permanent registers have been bound and there are many more that require rebinding Registers 57 and 57A were revised and prepared

Monghyr—The total number of records received was 20,024 All the records received during the year have been shelved

Sonthal Parganas—All the revenue records received in the record-room have been examined and shelved with the exception of those received during the last quarter Settlement *misls* of 624 villages, with objection cases and appeals, and 1,106 boundary dispute cases were received from the Settlement Officer, examined and shelved Register 57 has been completed and the writing of Register 57A is in progress The quinquennial revision of the record room has been postponed in the Sonthal Parganas until March 1910

Orissa Division, Cuttack—All the records of right for all thanas, together with the statistical registers of the last settlement, were bound and the village traces mounted on cloth The revision of records under double lock was taken up

Balasore—The annual lists of B and C papers were duly prepared, and those papers wich were liable to destruction were destroyed Press lists of 117 volumes were prepared after chronological arrangement and classification into A and C classes of papers

Angul—The arrangement and classification of old English correspondence and records were completed up to the end of 1905, but the B and C class papers from 1892 and 1898 have not been destroyed pending examination by the special officer A map or ground plan of the Angul record-room showing where each rack is to be found and the class of records kept in it was prepared in accordance with the Board's instructions

Puri—Eighty eight village traces were mounted on cloth and the lists of B papers up to 1895 and C papers up to 1905 were prepared The re-writing of shelf register No 41 was completed

Sambalpur—The work of elimination was completed up to date The English records received from the Settlement office have also been arranged

Chota Nagpur, Ranchi—The settlement records of certain thanas were received They have been properly arranged and kept on shelves The shelf register was under preparation

Manbhum—B and C classes of papers and records were separated from the old rent suit records

Library

165 The district libraries are generally reported to be in good order and to have been kept in accordance with the orders of the Board on the subject In Gaya, the state of the library is reported to be fair, but certain books are said to be missing for which the librarian has been taken to task In Champaran, the books have been labelled and old and obsolete books have been sorted out for disposal In Muzaffarpur, certain structural improvements have been made in the Sadar library and the catalogue has been rewritten The quinquennial revision of catalogues of the Angul library could not be taken up during the year, as the racks have not been finished The Sambalpur library requires rearrangement In Ranchi, the catalogue for the Sadar library is being revised

Controller of Office Systems Bengal

166 The Secretary of State has sanctioned the extension of the appointment of Mr R J Watson as Controller of Office Systems, Bengal, for a further period of 5 years till the 1st January, 1913 The work, commenced by this officer during 1906 07, has been continued with success, and his effected considerable savings in connection with the rearrangement of office accommodation and in record rooms His services were lent to the High Court from March, 1907, till March, 1908, and his reports are now before the Chief Justice

Treasure Trove Act VI of 1878

167 There were 7 cases under the Act during the year, compared with 9 in the previous year The cases which appear to have some special interest are noticed below In Murshidabad a treasure trove of about 150 old silver coins was found, but the owner of the land from which it had been dug out took them away forcibly from the finder, with the exception of four coins which were sent to the Asiatic Society for examination The owner of the land was prosecuted and punished From Saran it was reported by the Subdivisional Officer of Gopalgunj that in March, 1908, one Reshmi Chockri found some coins of Akbar and Jalauddin, while scraping grass Six coins were recovered by the Police, which the Subdivisional Officer acquired for himself in his private capacity and submitted to Government The metal value of the coins was estimated at Rs 5 and the price paid was Rs 6 While excavating land on the railway borrow pits of the Bhagalpur Cutchery Extension of the Bengal and North Western Railway, a cooly, named Bandhu Dusadh, came across 13 silver coins of the time of Shah Jehan, besides some ornaments of less importance and value The actual finder did not present any notice to the Collector, as required under section 4 of the Act, but the Railway Overseer did so No proceedings were, however, taken before the Magistrate under section 20 or 21 of the Act The recovered coins were sent for examination to the Asiatic Society, and it was proposed by the Numismatic Secretary that only one out of 13 coins should be acquired by Government The case reported last year of a find of 10 silver and 3 gold coins is still pending A gold coin, worth approximately Rs 18, was found in good condition by a labourer while digging earth in Government waste land at Kapilprasad, near Bhubaneswar, in Puri The finder sold the coin to a goldsmith who cut away and melted down a portion of it The finder was prosecuted under section 20 of the Act, but was discharged under section 253 of the Criminal Procedure Code, on the ground that he could not be expected to know the provisions of the Act The unmelted portion of the coin has been recovered and is in the custody of the Collector of Puri

Training of Munsifs in survey and settlement work

168 The six munsifs who were deputed at the beginning of the field season of 1906 07, for 18 months' training in settlement work, reverted to their general duties by the end of the field season of 1907 08 They were trained in all the branches of the work and became efficient Assistant Settlement Officers Their knowledge of law and procedure was particularly useful in dealing with the difficult points that cropped up at the attestation stage and with the applications under sections 105 and 106 Their relations with the rest of the settlement staff were harmonious At the instance of the Judicial Commissioner of Chota Nagpur, a proposal was made that these Munsifs might, after reversion, be posted to the areas where they had gained their experience in settlement work This was approved by the Hon'ble High Court

Arrears of the Zamindari Dak Cess

169 Of the Zamindari Dak Cess, abolished with effect from the 1st April, 1906, the arrears outstanding on the 31st March, 1907, were Rs 943 On the 31st March, 1908, the arrears were reduced to Rs 308

Weather and crops

170 The rainfall of the province was less than that of preceding year in 16 districts, and below the normal in all the districts, except Gaya Monghyr Cuttack, Balasore, Sambalpur, Hazaribagh, Ranchi and Palamau Appendix XXVII shows the mean rainfall of each district for the last five years, and also the normal mean On the whole the scarcity of water in tanks and wells, first for irrigation and then for drinking purposes, has been the most serious calamity in the year In the beginning of the season copious rain fell in the Burdwan Division, but there was none from October, and the *aman* paddy, then in ear, for the most part withered away Consequently the cultivation and sowing of the *rabi* crops were seriously affected, and the tanks and reservoirs quickly dried up The rainfall in the Presidency Division was unusually heavy in June and July, insufficient in August and September, and scanty in October and November The outturn of crops was, therefore, unsatisfactory in all the districts of the Division The rainfall in the Patna Division was not well distributed There was a total cessation from October which affected the outturn of the paddy crops seriously, the sowing of the *rabi* crops was also retarded and a comparatively small area was sown, for want of moisture Had there been no rain in January and the first week of February, the *rabi* crops would have failed As for Gaya, though the fall was a little above the average, it was very badly distributed The districts of Patna, Gaya, Shahabad, Saran and Champaran all suffered more or less in consequence of deficient and badly distributed rainfall and the yield everywhere, except in Darbhanga, was much below the average The Indian corn crop in Darbhanga last year was much above normal, and the yield in Muzaffarpur and Darbhanga was better during the year than in the preceding year In the Bhagalpur Division everything promised well in the beginning In the end of June there was excessive rain, but subsequently was below the normal, and from the middle of December there was an almost total absence of rain throughout the Division The general result on the harvest of the year was that all the crops suffered more or less in all the districts, especially the Sonthal Parganas Though the harvests were generally better than those of the preceding year, except in the Sonthal Parganas, they were still below the normal Opium, which is grown in the districts of Monghyr and Bhagalpur, gave yields of 51 and 60 per cent, respectively, against 52 and 70 of the preceding year The outturn of tea decreased by 2,013,072 lbs, owing to unfavourable weather and blights In the Orissa Division the rainfall was irregular and untimely The year was marked by an unusually heavy downpour in August resulting in record floods, which did considerable damage to the *bhadoi*, the principal crop of the Division, and to the winter crops The floods were followed by a long period of drought which entirely destroyed the rice crop in some parts of the Division, and seriously affected it in others The *rabi* and *dalua* paddy, which had been grown on the lands of which the crops had been destroyed by the floods, suffered

from the subsequent failure of the rain The year was also unfavourable to the mango and *mahua* crops in Angul, but the outturn of *kendu* (*Diospyros Melanoxylon*) in that district was satisfactory, and this helped the poorer classes to tide over the months of May and June In Sambalpur, although the rainfall was no better than in the other districts of the Division, there was an average outturn of ten annas, a result which is due to the system of storing all available water adopted in the great majority of the villages of the district The condition of the winter crop was good in the protected areas of the Cuttack district In the Chota Nagpur Division the monsoon commenced at about the normal period, but as elsewhere the fall was unevenly distributed There was excessive rainfall during the first part of the rainy season, when agricultural operations were pushed on with great vigour In July the rainfall was generally seasonable In August, however, it was again in great excess, and did much damage to the *bhadoi* crops The premature cessation of the rains at the beginning of September led to an almost total failure of the rice crop on the high lands and to a greatly diminished outturn on the low lands The area under *rabi* crops was also greatly contracted owing to the premature cessation of the rains The outturn of all crops was therefore much below the average in all the districts

In Appendix XXVIII, the outturn of crops is shown for the year under report and for the four preceding years It has been prepared in the form prescribed in paragraph 4 of the Government order No 41/9, dated the 26th December 1901, with the object of providing information for reference in the case of scarcity

Prices of food and labour

171 Appendix XXIX shows the average prices of the principal food grains—rice, wheat, barley, gram and maize and of salt in the past three years It will be seen that the prices of food grains everywhere ruled much higher than in the preceding year, except in Khulna and Purnea where there was a slight fall in the price of common rice. In Darjeeling, the price of common rice was 6 seers and 13 chittaks per rupee, while, in Sambalpur, it was sold at 9 seers and 6 chittaks per rupee, which was the cheapest rate The cheapest price of wheat during the year was 11 seers and 1½ chittak per rupee in Burdwan, and the dearest in Angul at the rate of 5 seers per rupee The rise in prices is partly due to the general small outturn of the crops following a series of bad harvests and partly to exports There was a fall in the price of salt throughout the province, except in Calcutta

172 The rise in the wages of labour was maintained during the year There was a larger demand by collieries, mills, factories, brickfields and railways, consequently wages show an upward tendency, especially in the metropolitan districts of Hooghly and Howrah Most of the labouring population in Hooghly and Howrah are recruited from up country men and Uriyas, while the indigenous day labourers work in the fields and serve as village chaukidars In the 24 Parganas the wages of skilled labour vary from 8 to 9 annas per day, while in other districts 5 to 6 annas are paid It is reported that in Jhinkargacha, the centre of the jute trade in Jessore, wages fell to 3 annas a day from 5 annas to 8 annas owing to the congestion of the labour market, and the small outturn of jute In the Patna Division, the labour market continues to show a tendency to rise This is due to the increase in the prices of food-grains and to the greater demand for skilled labour in towns, mills, and places where railway construction is in progress The rise is also stated to be due to the emigration of the labouring classes to Bengal proper, Assam and elsewhere. There was a slight increase in the wages of unskilled labour in Monghyr and Bhagalpur, a more marked one in Sonthal Parganas and from 4 annas to 8 annas in Darjeeling, while in Purnea, the rate of wages rose only in the jute season As regards skilled labour, there was some increase in Monghyr, Darjeeling and the Sonthal Parganas, that in the case of blacksmiths, common masons and carpenters being most marked In the Sonthal Parganas, an additional cause was the increasing demand for labour as a result of the extension of building operations in certain parts of the district, especially in Madhupur and Deoghur, and also to the opening of new railway lines, stone

quarries and lac factories The Commissioner of Orissa reports that, consequent on the rise in the price of food grains, there has been an increase in the price of labour in Cuttack, in the *Sadar* subdivision of Balasore, and in some parts of Angul and Sambalpur, where agricultural labour is usually paid in kind In Puri, there was a tendency for the price of professional labour to rise owing to the high price of rice, but the wages of unskilled labour either remained stationary or decreased for want of sufficient employment in the interior In the town of Puri, the wages of common masons and superior blacksmiths and carpenters have risen slightly, owing to the greater demand for this kind of labour in connection with the buildings which are under construction, especially in the Balukhand Government Estate In the Chota Nagpur Division, the labour market was active throughout the year, and the wages of labourers there continued to rule high and to have an upward tendency

Material condition of the people (including inter district immigration and emigration)

173 The outstanding features of the year were the comparative failure of the *bhadoi* and *aghani* rice crops, the resulting high price of food stuffs, and the consequent hardship to the middle and poorer classes, especially those whose income was received in cash Assistance, in some shape or other, was given by Government in nearly every district in the province The rise in prices was attended by a general increase in the wages of labourers

Burdwan Division

174 In the Burdwan Division, owing to deficient rainfall, there was an almost total failure of paddy on lands not accessible to irrigation Though the outturn was poor the unusually high prices benefited the few who could save portions of their crop by means of irrigation The labouring and artizan classes also gained by the higher wages offered in the larger industries The food supply was generally sufficient except in thanas Raipur, Khatra and outposts Simlapal and Taldangra in the district of Bankura, portions of Kalna subdivision in the Burdwan district and thanas Egra, Ramnagar, Pataspur and Dantan in the district of Midnapore In Bankura test works and gratuitous relief were started in January 1908 By the end of the year test works had been opened (some of which were completed and closed) in 19 places by Government, and, in addition, advances granted under the Land Improvement Loans Act enabled 80 works to be opened by landowners Gratuitous relief was also given at various centres The total expenditure on all operations incurred by Government up to the end of the year was Rs 21,962 In addition Rs 46,000 were allotted for *takavi* loans In the other districts also the following amounts were advanced as *takavi* loans, viz —Burdwan Rs 25,000, Birbhum Rs 5,000, and Midnapore Rs 12,000 In the latter district, the Collector recommended the suspension of land revenue to the extent of Rs 60,000 in the affected parts of that district There was very acute scarcity of water in March in almost all the districts of the Division, except Howrah, due to the depletion of tanks and other reservoirs for irrigation purposes A grant of Rs 25,000 was made by Government in April last for the purpose of sinking wells and boring holes in the beds of old tanks and re-excavating tanks The number of sales do not show any appreciable increase during the year, but there was an increase of nearly 3,000 deeds under mortgages, and most of these were effected by the middle classes on fixed incomes The question of special legislation to prevent transfer of their lands by Sonthals is still under consideration There is no doubt that, until a survey is made and record of-rights completed and some statutory check on their improvidence is devised, their condition will continue to deteriorate

Presidency Division

175 In the Presidency Division, the harvests were generally poor during the year, especially in Nadia and Murshidabad In the former district there was a partial failure of the *bhadoi* and an almost total failure of the winter or *rabi* crops In the latter, the outturn of the *bhadoi* crop was satisfactory, but the winter rice crop suffered severely for want of rain The extensive jute crop was not entirely disposed of, and prices were low In the case of labourers the high price of food grains was met by a rise in wages, but it affected the material condition of the other classes of the population, and the lower middle classes

specially suffered Relief measures were undertaken in some parts of the Division Loans under the Agriculturists' Loans Act were distributed freely in Nadia, Murshidabad and Jessore and in the Diamond Harbour subdivision of the 24 Parganas Suspensions of revenue were also granted in some of the Government khas mahals The general health of the people was worse than usual except in Khulna

176 In the Patna Division, the outturn of crops was generally poor owing to scanty and unequally distributed rainfall, and the consequent high prices were aggravated by the demand from the United Provinces The labouring classes, particularly from Saran and Gaya, emigrated in large numbers, the exodus from the former district being so large that male labour could only with difficulty be obtained In the district of Shahabad, the crops in the unirrigated areas were in some places a total failure The situation was somewhat critical in the southern part of that district, but it was not necessary to declare famine, although in a few small selected areas relief was afforded from subscriptions raised locally and by means of ordinary works under the District Board Loans under the Land Improvement and Agriculturists' Loans Acts were also given freely, the sum of Rs 72,000 being distributed in this way in the district In the district of Saran, the failure of winter rice, coupled with want of moisture for sowing *rabi*, made the position of the cultivating and labouring classes somewhat serious from October to December, and general scarcity was apprehended, but the danger was averted by rains in January and February which immensely improved the prospects of the *rabi* crops Land Improvement and Agricultural loans to the extent of Rs 48 000 were given out chiefly in the Darauli and Manjhi thanas where distress was most apprehended Local subscriptions amounting to Rs 1,211 were raised to provide funds for the relief of indigent persons unable to earn their livelihood, but improved prospects rendered any such relief unnecessary. Some improvement works were started at the cost of the Khajwa and Hathwa Wards' estates, in the Siwan subdivision, on the principle of test works under the Famine Code, but they did not attract labourers The situation was also relieved, as already stated, by the emigration of the labouring classes in unusually large numbers to Eastern Bengal and elsewhere These emigrants readily secured employment and made large remittances by money-orders to their homes Muzaffarpur is reported to have been, by comparison, prosperous during the year, the average outturn of the crops there being 74 per cent, against 33 per cent in the previous year High prices were, however, seriously felt by the landless classes, specially by those with small fixed incomes In the district of Darbhanga, the material condition of the people was bad during the first half of the year, and famine operations, which had been started in December 1906, were continued till the end of August The *bhadoi* crops were excellent and were followed by a fairly good *aghani* The district was visited by a small flood, affecting portions of the Baheia and Roserah thanas Fortunately it passed off quickly and was rather beneficial to the standing paddy crops than otherwise The general health of the people was good on the whole throughout the Division In Patna, the mortality from plague fell from 10,621 in 1906 07 to 6,085 in 1907-08, but small pox and fever are reported to have been prevalent during the year The town of Gaya which suffered severely from plague in the previous year was almost free from it during the year A large number of deaths from small-pox, which appeared in an epidemic form in Gaya and the outlying villages, occurred in the latter part of the year In Shahabad, Jagadispur suffered severely from plague In Saran, mortality from plague fell from 21,723 in 1906 07 to 16 853 in 1907 08, and the majority of the deaths (10,659) occurred in April In Champaran, the deaths from plague were only 37 The towns of Muzaffarpur and Lalganj were free from plague, and mortality in the rural areas of the *sadar* and Hajipur subdivisions was also comparatively low The decrease in the mortality from plague is believed to be due largely to a systematic campaign against rats in the municipalities

Patna Division

177 Although there were no floods of an usual character in the Bhagalpur Division, the prices, not only of food grains but of other commodities, were higher than in the preceding year, due partly to bad harvests and partly to extensive exports This caused some distress among people with limited fixed incomes and the landless day labourers who received fixed wages in money Though there was a rise in wages it was not, in the case of unskilled labour, at all commensurate with the rise in prices, but agricultural labourers who are usually paid in kind managed fairly well Substantial *raiyats* who were not in the hands of *mahajans* were also fairly prosperous, and the year was one peculiarly profitable to those who had surplus stocks to sell Relief was afforded to salaried classes on low pay in Government service by the grant of grain compensation allowance In Purnea, the better outturn of *bhadoi* paddy, together with the money obtained for jute, enabled the cultivators to tide over the partial failure of *aghani* paddy, and though there was a marked decrease in the price of jute, the enormous profits of the preceding year helped those concerned in its cultivation The failure of rain in the months of September and October seriously affected the *aghani* and *rabi* crops, but, in spite of the adverse circumstances, there was a regular demand for labour, and the supply was not equal to the demand A noticeable feature in the Bhagalpur district is that a portion of it to the north east, which had been jungly and deserted by cultivators on account of inundations of the Kosi, is being cultivated again with success, as the land is said to be very fertile Liberal advances were made under the Agriculturists' and Land Improvement Loans Acts to those who suffered from floods during the previous year In the Sonthal Parganas, the grain *golas* in the estates of the Court of Wards and in the Damin are doing most useful work and have afforded considerable help to the poorer classes of agriculturists. The people of that district passed through a period of considerable stress and hardship owing to the partial failure of *bhadoi* and winter crops The outturn, it is reported, would have sufficed for local wants, but the greater part of the crops found its way into the granaries of local money lenders and was thence exported to other districts The coal fields of Raniganj and Jheria furnished employment to a considerable section of the population of the Dumka, Deoghur and Jamtara subdivisions of the district The Deputy Commissioner writes —

> "The high prices of food grains have considerably straitened the circumstances of persons living on small fixed incomes and caused a marked rise in the wages of coolies near industrial centres The extension of the jute cultivation and the keen demand for this product brought a certain amount of ready money into the hands of the agricultural population occupying the low strip of country that skirts the Ganges in this district The development of the lac trade enabled many of the aboriginals in the Damin to make large profits unfortunately there is every reason to believe that these were at once squandered in the liquor shops "

In Darjeeling the condition of the permanent residents in the Terai is not satisfactory They are gradually getting more and more involved in debt, for which they have to pay excessively high rates of interest The year is reported to have been one of loss to a majority of the people and of increased indebtedness The mortality from plague in Monghyr was higher than in the preceding year It Bhagalpur, it was mainly confined to the town itself where the outbreak was more severe than that of the previous year The death rate from fever in some parts of the district was abnormally high The people of Purnea suffered from ravages of cholera in the beginning of the year followed by a heavy outbreak of malarial fever during the rains and the greater part of the cold weather

Bhagalpur Division

178 In the Orissa Division, the year under report was unfavourable from an agricultural point of view The harvest of food crops was poor throughout the Division, owing chiefly to the unprecedentedly high floods in August and September in the districts of Cuttack and Balasore, and to subsequent drought The unusually high price of food-grains was very severely felt by the people of all the districts Grain dealers and substantial cultivators, who had stocks from previous years, have benefited by the high prices, but the landless and labouring classes and those of the middle classes with fixed incomes have

Orissa Division

suffered considerably on this account *Takavi* loans were given to the tenants of the affected areas to help them in their cultivation of *dalua* or *rabi* crops and in the purchase of seeds for the next crops Relief works were also opened and gratuitous relief distributed In the district of Puri such works have been opened at the expense of the District Board, the Parikud Wards' estate and the Jaigir Mahals' attached estates Certain improvement works of the Government estates of Kothdesh, Kodar and Khurda were also started for the same purpose, and *takavi* loans were distributed In Angul, works were provided for the labouring classes in order to enable them to tide over their difficulties In Sambalpur, sufficient employment was provided by road work under the Public Works Department and the District Council, and by the zamindar of Barasambar In Cuttack, the food stocks of the previous year were much depleted by extensive exports, and, as the year's produce of grain was much below the average, the people were in actual distress Some relief was, however, obtained from the sowing of *dalua* or *satua* paddy, the outturn from which was fair In Puri, the stocks of food-grains obtained from the previous harvests are generally in the hands of a comparatively few wealthy men, such as the *mohants* of *maths*, big landholders and *mahajans* who are reluctant to dispose of their stock either by sale or by advances to needy tenants in times of hardship There was a serious outbreak of cholera at the close of the year in the southern part of the Balasore district as well as in Balasore town and Soro thana with its outposts, and a number of hospital assistants were sent to aid the people

Chota Nagpur Division

179 The agricultural conditions of the year in the Chota Nagpur Division also were unfavourable At the beginning of the year the people generally were as prosperous as they had been for years The previous year's crops had been fair and the sale prices high Excessive rain in August damaged the *bhadoi*, and the premature cessation of the rains early in September resulted in a very poor outturn of winter rice and prevented all *rabi* cultivation outside the small area where irrigation was possible From an agricultural point of view, therefore, the year was a very bad one In addition to the short outturn of crops prices ruled extraordinarily high, and conditions nearing scarcity set in in various parts of Ranchi, Hazaribagh and Palamau Assistance was afforded by advances under the Land Improvement and the Agriculturists' Loans Acts, and also by gratuitous relief Test works were also opened in the most affected parts

The labouring classes, as a whole, earned higher wages than formerly owing to the great demand for labour chiefly for railway construction and for the coal and mica mining industries In Manbhum, the demand for labour was much above the normal During the year no less than 167,3[illegible]8 labourers were employed in the mines and [illegible],566 in the lac factories in this district The railway contractors here imported labour from Bilaspur and elsewhere to meet deficiencies in the local supply, and much of the District Board programme of work was suspended for want of contractors, who would not undertake to get the necessary coolies except at prohibitive rates The Deputy Commissioner is satisfied of the good general condition of the mass of the population which lives partly by cultivation, partly by the collection of jungle products and partly by labour Money was plentiful and the general standard of living was maintained in spite of high prices In Singbhum, the condition of the people in the Kolhan is reported to have been good, despite the drought and high prices In Porahat, the rainfall was better than elsewhere in the district and crops were therefore not bad Near the railway, however, there is a considerable population with little or no land, and these people suffered from high prices As regards Dhalbhum, there was a partial failure of the rice crop over considerable areas, but the population is scanty and the demand of labour seems to exceed the supply The general health of the people was only fair Malarial fever prevailed to a great extent In Hazaribagh district, there was an outbreak of cholera at Hazaribagh and Chatra, and of plague at Chatra and in Hunterganj thana Small pox also broke out in the town of Hazaribagh towards the close of the year In Palamau, a severe outbreak of cholera

caused over 7,000 deaths during June, July and August 1907 Small pox existed in the northern part of the district, and the fever mortality was extra ordinarily high throughout the cold weather months The Deputy Commissioner reports that the only bright feature in the vital statistics of the year is the fact that the district escaped a visitation of plague during the last plague season

Emigration and Immigration

180 Inter district emigration and immigration were very brisk during the year on account of the unfavourable agricultural conditions In the Burdwan Division, larger numbers of Sonthals than in any previous year emigrated in search of work from Birbhum, the Sonthal Parganas, and Bankura Most of the emigrants went to the districts of Hooghly and Howrah where they found work at the mills, workshops and brickfields Many also went to the collieries in Burdwan As usual, there was a temporary immigration of Sonthals and up country men at the time of cultivation and harvesting, also for work in the brickfields, rail ways and mills From Nadia a larger number of labourers than usual went out of the district, but in some cases they had to return early as they could not get sufficient work To Murshidabad the number of temporary immigrants was much larger than in other years, owing to distress in the neighbouring Burdwan Division There was practically no immigration to the Patna Division The labouring classes, as usual, emigrated temporarily to Bengal, Assam and elsewhere for employment An unusually large number is reported to have emi grated from Saran during the year owing to the apprehended scarcity in that district The grant lands in Burma held by Mr Mylne and Babu Harihar Dhari Singh of Dumraon are reported to have been fully colonized There was less emigration from Darbhanga than in the preceding year As regards Monghyr, under orders contained in Government Notification No 1510T —G , dated the 15th July, 1907, all the places of accommodation for emigrants in the district, except one maintained by the Tea District Labour Supply Association, were closed on the 1st of November, 1907 Since then emigration has been carried on partly under Chapter IV of the Inland Emigration Act, but mainly under the provisions contained in Government Notification No 2582, dated the 10th December, 1907, and 732 unregistered emigrants were sent by the local agent employed under the Association up to the close of the year No criminal cases occurred in connection with emigration There has been no inter-district immigration into the district Regular emigration from, or immigration into, the district of Bhagalpur or Purnea does not exist, though a small minority of the poorer agricultural labourers go out to adjacent and eastern districts to be employed as reapers and ploughmen, and return home after the harvests are gathered In the Sonthal Parganas, there was a good deal of emigration across the Ganges, mainly of Sonthals and Paharias Many of them return after a few months, but quite a large number settle down for good in Purnea, Malda, Jalpaiguri and Rajshahi There was no immigration into this district It is reported from Darjeeling that very little cold weather labour came in from Nepal or elsewhere, and those who did immigrate worked in the tea gardens only as a last resort The facility of communication afforded by the Bengal Nagpur Railway drew many unemployed labourers from the Orissa Division to Calcutta, Assam and elsewhere in search of employment, but none left the Khondmals subdivision As reported last year, there was no regular immigration into the districts of the Chota Nagpur Division except of labourers to work in the mines or on the railway The Deputy Commissioner of Singhbhum reports that no immigration into his district was recorded during the year, but the steady influx of Hindu traders into the Kolhan seems to continue Including dependants 13,138 persons were registered in all the districts in the Chota Nagpur Division as emigrants to Assam, to labour in the tea gardens there Last year the number registered was 2,953 This very marked increase is shared by all the districts of the Division, and is due to the unfavourable agricultural conditions In addition, a very large number of coolies were enlisted for the Duars from Ranchi and Hazaribagh, and the customary emigration to Calcutta was larger than usual In Palamau, the unfavourable conditions of the year gave a great impetus to emigration The Deputy Commissioner

reports that nearly 1,500 labourers and dependants were despatched to the tea labour districts during the three months January to March 1908, and that, though the relaxation of the conditions attaching to the recruitment of such labour is responsible to some extent for the increase, the figures reflect the unfavourable condition of the poorer classes during the latter part of the year The Deputy Commissioner of Manbhum also reports, in this connection, that the increase was not spread over the whole year, and that the bulk of the emigration took place in the last few months, when the partial failure of the rice crop was assured, and the prospects for the present year had become markedly gloomy

Economic developments

Burdwan Division

181 In the districts of Bankura, Birbhum and portions of Midnapore and Burdwan, the population is almost entirely agricultural In the districts of Hooghly, Howrah and in other portions of Burdwan, the high wages earned in mills and factories as well as the fertility of the soil and greater facilities for communication enable the people to maintain a high standard of comfort The consumption of tea, cigarettes and country cloth is on the increase, even in the rural areas, among the well to do and labouring classes The manufacture of country made cigarettes and its consumption are falling off on account of their bad quality The use of country made sugar, and rock and *karkach* salt is spreading among the Bengali Hindus, in consequence of the movement for promoting indigenous industries, but the Muhammadans and up country men still use imported articles In the latter end of the year 1906 07, the Bengal Laxmi Cotton Mill in the village of Mahesh, in the district of Hooghly, formerly managed by a Bombay firm, was purchased by a Bengali Company It is reported to be flourishing The District Boards of Birbhum, Bankura and Hooghly contributed Rs 250, Rs 500 and Rs 1,000, respectively, towards industrial and agricultural shows durin • the year

Presidency Division

182 It is reported that the *swadeshi* movement has given some impetus to the indigenous industries, and that the weavers have been specially benefited in the Presidency Division In the Basirhat and Kushtia subdivisions industrial and agricultural exhibitions were held, and interesting specimens of local industries and agricultural products were exhibited In Murshidabad there has been a notable expansion in the jute and shellac industries, in the trade in silk cloths and bell metal, and in the manufacture and sale of steel boxes and trunks There was a considerable extension in the cultivation of jute, but this has received a check owing to depression in the trade and other causes In the 24-Parganas there is some tendency among the zamindars to study scientific methods of agriculture in order to extend the cultivation of valuable crops The Collector is of opinion that the establishment of the District Agricultural Association has been useful as offering facilities in this respect On the other hand, the Collector of Murshidabad remarks that in his district there is a deplorable absence of efforts for the improvement of agriculture A step has been taken in this direction by the co-operation of the Agricultural Department with the Banjetia Exhibition at Cossimbazar It is reported that the standard of living is rising in the 24-Parganas, Nadia, and Murshidabad among the middle classes and also to a certain extent among the lower classes The habit of drinking tea and aerated waters and of smoking cigarettes is growing in these districts, and there has been in the 24 Parganas an increased importation and use of various articles of luxury In Nadia, silk *chaddars* have now become an article of common use among the middle classes In Murshidabad, finery in dress is becoming fashionable even in the remotest corners of the district In the Barrackpur subdivision of the 24 Parganas, there has been an increase in the number of mills, and high wages are now earned by the lower classes The Collector of Jessore reports that, owing to failure of crops in successive years, the agriculturists in his district have been reduced to a state of indebtedness There has also been a further decline in the sugar industry owing to foreign competition The use of tea and other luxuries is as yet unknown amongst the cultivators of Jessore and Khulna

Patna Division

183 The condition of the Patna Division remains much the same as before as regards economic developments There has been very little commercial or industrial enterprise amongst the people of the Division who are usually content to live as plainly as their forefathers The standard of living, especially in the towns, is however rising, and various articles, which would formerly have been classed as luxuries, are now regarded rather as necessities The Collector of Patna reports that a few educated Biharis formed an association at Sonepur in November last for economic development in the way of advancing technical education and organizing capital for reviving old industries, such as hand loom weaving, sugar, etc The Bihar Industrial and Agricultural Exhibition was again held at Bankipur during the year, and was fairly well attended, the amount taken as entrance money was about Rs 600 The Commissioner considers that some good is expected to result from this exhibition as well as from the experiments made at the Bankipur agricultural station, but progress will for some time be slow The industries of glass blowing in the Patna city, and cloth weaving, both of rough and fine texture, in Bihar continue to exist The woollen products of the district consist of coarse blankets and carpets of superior texture, but the industries are not very prosperous, owing to want of organization and capital and the consequent use of inferior materials and aniline dyes In Gaya, the mica mines continue to be worked The lac industry also continues as before The carpet weaving industry at Obra is said to be on the decline A mill for husking rice was opened in Gaya last year but so far it has not been a success The preliminary surveys of the Dehri Rohtas Light Railway in Shahabad have been made, and an attempt will very soon be made to float the Company The preliminary survey of the Arrah Sasaram Light Railway has also been made, and work will be commenced next cold weather In North Bihar, the cultivation of sugarcane is on the increase, while that of indigo continues to decrease in most of the districts, but the introduction of Java Natal indigo in Champaran and Darbhanga has helped to improve the condition of this industry In Muzaffarpur, there is a growing tendency towards the cultivation of jute to which 4,000 acres were devoted during the year, against 500 acres of the preceding year This staple is also finding its way into Champaran Flax has also been tried with encouraging results in Muzaffarpur and Champaran, and an expert from Europe has been engaged

Bhagalpur Division

184 The Collector of Monghyr states —

"The construction of the factory buildings of the Peninsular Tobacco Company (referred to in the last year's report) was taken in hand during the year under report and the manufacture of cigarettes and tobacco has been commenced The work of construction is proceeding rapidly and by the end of the year the building was almost complete No other new industry has been started during the year, but many indigo planters are devoting their attention to the ordinary work of agriculture, and by the use of manure and proper rotation of crops they are trying to make cultivation more profitable than it is in the hands of the ordinary peasants It is noticeable that many men of the middle and upper middle class are now turning their attention to agriculture, probably on account of the prevailing high prices of food grains"

The Collector of Bhagalpur remarks that there are no particularly noticeable economic developments The people being mostly agricultural, attempts are being made to improve agricultural implements, etc Among the new habits noticeable are the use of umbrellas and European piece goods, which have replaced country spun cloth, European piece goods being much cheaper and finer in texture Consequently the lands in which cotton used to be grown have been converted into paddy and *marua* fields In the north western corner of the Madhipura subdivision, however, there are some villages where cultivators grow cotton and get the *Jolahas* (Muhammadan weavers) to weave it into cloths In Supaul subdivision, the area under jute cultivation has increased considerably The cultivators would have made large profits if there had not been a sudden fall in the price after the harvest The Collector is of opinion that sugar industries in the subdivisions of Banka and Supaul are capable of development In Banka, coarse sugar, or *gur*, is manufactured and exported, very little of

which is refined. In Supaul, however, there is a large number of sugar manufactories worked on the old fashioned native method, which is neither economical nor scientific nor in some cases even sanitary In backward places the use of coarse cotton cloth locally manufactured is limited to the poor classes The use of imported sugar and tea and the smoking of cigarettes has increased in places near towns and railway stations The well-to do and educated people in villages also have taken to drinking tea and smoking cigarettes

The Collector of Purnea ascribes the absence of economic development in his district to the want of education and enterprise in the people who depend on agriculture only, in spite of the fact that sufficient raw material for manufacture exists in the shape of mustard, tobacco and hides He adds that until this district is more thickly populated and all land cultivated there is little room for such development The Deputy Commissioner of Darjeeling points out that tea is the sole industry in Darjeeling, but that the high prices of food-grains and the low rate of wages in the tea gardens have had the effect of keeping people on the land and increasing the importance of cultivation It is reported that in some tea gardens a system of weekly payments has been introduced with a view to free the coolie from the clutches of Marwari *mahajans* As regards the Terai the indebted condition and extravagant habits of the people, along with the lack of interest amongst the cultivators in their lands and their want of education, are the main reasons for the absence of economic development in that portion of his district

Orissa Division

185 There was no noticeable growth of new habits among the people of the Orissa Division Writing on the subject the Collector of Cuttack says —

"There is nothing to indicate any change in the method of life of the cultivators who are extremely conservative, and as a rule, not prudent and calculating In a year of plenty they do not care to keep a sufficient stock in hand for the year's consumption, and sell off a large portion to pay their rent to the zamindars and to purchase unnecessary luxuries for themselves If the crops fail they are compelled to borrow paddy at 25 per cent from local *mahajans*, and their indebtedness increases if there is a failure of crops for two or three years The tenants in the protected and irrigated areas are evidently acquiring the elements of commercial prudence, and have at their backs a reserve which they never formerly maintained They have successfully held out against the middleman purchaser for better prices up to the bitter end, and there can be no doubt that this competition is gradually instilling into them a spirit of independence utterly foreign to the ordinary Uriya cultivator"

In the district of Balasore, a habit of tea drinking and smoking cigarettes is said to be growing up among the poorer classes, and some also are beginning to use imported sugar There was no indication of the development of the *swadeshi* movement in this district The people of Puri are said to be proverbially conservative and home-loving, and the majority of them are generally averse to adopting new methods of developing their resources The Deputy Commissioner of Angul says the same of the people of his district, he writes —

"They have no business habits, and are hard drinkers, and this habit has quite improverished them and involved them heavily in debt A most noticeable change seems however, to be coming over them They are induced to dress better, and since the last few months a large number have taken a vow of abstinence and have so far adhered to it If they can keep this vow or become even moderate drinkers it is hoped they will gradually settle down as regular cultivators and improve their condition materially"

The Deputy Commissioner of Sambalpur remarks that the same spirit of conservatism is an obstacle to the introduction of new crops and improved methods of agriculture He writes further —

"Another trait of many of the people of Sambalpur, especially among the lower classes, is their lack of energy They would rather spend a day in collecting food in the jungle than in working in the fields, and if they earn a little money their chief desire is to sit idle until they have spent it"

There is no demand for tea and manufactured cigarettes, though leaf cigarettes are said to be universally smoked by the people of this district

There is a general prejudice against refined sugar, owing to suspicion as to the method of its production

186 In Hazaribagh, it s reported that various articles which were hitherto regarded as luxuries are now being demanded as necessities by the young generation

Chota Nagpur Division

The mica business is increasing in this district, partly owing to the opening of the Grand Chord Line, and partly owing to the invention of micanite which provides a market for lower grades of mica In a few Government estate villages in Ranchi, grain *golas* and Co operative Credit Societies have been established as a small beginning The only new habit growing among the aboriginals, who form the majority of the cultivators of the district, is the use of machine made European cloths, brass and enamelled utensils, and small fancy articles In Palamau, a new railway station was opened at Uttareh road on the Barun-Daltonganj Branch of the East Indian Railway which may, it is said, in time attract a great deal of the Mirzapore traffic The Deputy Commissioner reports that a great feature of the year has been the large imports of Burma rice into the district in consequence of the local failure of crops This rice in former years was not to be found even at head quarters in Daltonganj, but during the year it was on sale in small bazars in remote parts of the district The Deputy Commissioner of Singhbhum reports that there seems to be a great deal of mineral wealth in the district which would soon be developed if better roads and a few bungalows existed At present it is impossible for a stranger not well acquainted with the district to reside in these jungly areas, as he can get neither shelter nor means of transport nor the ordinary necessities of life It is reported that the Geological Department made a careful survey during the year of the copper bearing strata in the north of the district Some particularly good iron ore was found in Serendra, and it is expected that these mines will be developed at a considerable outlay in the coming year

RESOLUTION ON THE ADMINISTRATION REPORTS OF THE NATIVE STATES OF ORISSA AND CHOTA NAGPUR FOR 1907 08

POLITICAL DEPARTMENT—POLITICAL

RESOLUTION—No 1942P —D

Dated Darjeeling, the 21st October 1908

READ—

The Annual Report on the Administration of the Tributary and Feudatory States of Orissa for the year 1907-1908

Read also—

The Annual Report on the Administration of the Political States in the Chota Nagpur Division for the year 1907-1908

Omitting the important State of Cooch Behar, which is not dealt with in this Resolution, the Native States under the control of this Government consist of the 2 small States of Seraikela and Kharsawan, which are attached to the Chota Nagpur Division, and the 24 Feudatory States of Orissa The latter are dealt with direct by a Political Agent, subordinate to the Commissioner of Orissa

2 Kharsawan in Chota Nagpur, and Bonai, Hindol, Kalahandi, Nayagarh, Nilgiri and Rehrakhol in Orissa continued under Government management during the year under review Owing to the abdication of its Chief, the State of Keonjhar has recently been brought under Government management Baramba, Narsingpur and Pal Lahera were released during the year, and the Chief of Nilgiri was restored to the administration of his State soon after the close of the year

3 The Lieutenant Governor is glad to be able again to record his satisfaction at the progress that has been made and the steady development which has taken place in almost all branches of administration in the Native States There is no doubt that the Chiefs are developing a quickened interest in the management of their own affairs, and are paying increased attention to the details of administration The land revenue administration was satisfactory, and shows some improvement on previous years Collections of revenue were on the whole made promptly and punctually His Honour is glad to see that the Chiefs and their Dewans have made personal tours in their States to a greater extent than previously, though undoubtedly there is still much room for improvement in this direction The financial position of nearly all the States is sound With a few exceptions, the Chiefs have adhered to the principle that the minimum reserve balance should be equivalent to three months' working expenditure This is a principle the importance of which should be impressed particularly on those Chiefs who have not as yet succeeded in working up to it Settlement operations were concluded in the two Chota Nagpur States, and were in progress in Patna, Sonpur, Gangpur and Boad The paucity of Uriya speaking officers has necessitated a further postponement of the Bonai settlement. It is hoped that this settlement will be taken up in earnest next year

4 There has been a further improvement in the police administration of the majority of the States In several States more trained and experienced officers have been introduced, and a great improvement has been effected by the introduction of co operative meetings between the Police of different States and of neighbouring British districts The administration of both civil and criminal justice has on the whole been satisfactory There has been some improvement (though there is undoubtedly room for more) in the promptitude with which cases have been disposed of The development in jail administration, noticed last year, has been maintained A new jail has been built at Nayagarh, and improvements effected in several other jails Much attention has been paid, especially in Bamra, to instruction in the use of the fly-shuttle

loom among the prisoners This is an interesting development, and indicates that the Chiefs realize the importance of endeavouring to convert their jail birds into useful citizens

5 The vital importance of efficient forest administration in the Orissa States has been dwelt upon in the Resolutions of previous years The year under review shows a satisfactory improvement in this direction also Much has been done towards forest preservation and the adoption and enforcement of proper forest rules Trained Forest Officers have been appointed in some States The forest revenue in most of the States has increased It has not been found possible yet to appoint a qualified Forest Officer to assist the Chiefs The question of making such an appointment is still under the consideration of Government

6 The States are to be congratulated on having effected a remarkable increase (about 50 per cent) in the expenditure on public works The increase is most marked in Keonjhar, which came under Government management Twelve miles of new road were constructed in Moharbhanj In medical matters the year has been one of progress The dispensaries are growing in popularity The increase in the number of vaccinations and revaccinations shows that the prejudices of the people are not difficult to overcome The Leper Asylum at Moharbhanj has been enlarged, and does useful work Considerable progress has been made in education The number of boys attending schools in the Orissa States has actually doubled The expenditure on this branch of the administration is still, however, insufficient

7 From an agricultural point of view the year was not favourable Floods did much damage in the States on the lower courses of the Mahanadi and Brahmini rivers, while elsewhere the early cessation of the rains damaged the rice crop and contracted the area sown with *rabi* The cultivating classes as a whole did not, however, suffer Previous harvests had been good, stocks were ample, and high prices encouraged exports The export trade was extremely brisk and brought large profits o the larger cultivators The pinch of scarcity was felt to a certain extent by the landless labourers and smaller cultivators, and in places affected by the floods relief had to be given in the shape of suspensions of revenue, takavi loans, etc On the whole a bad season was weathered with comparatively little distress

8 The Lieutenant Governor visited a number of the States in November 1907, and again in April, after the close of the year under review His Honour is able to confirm from his own personal observation the impression of steady development which the Reports convey The quickened interest which the Chiefs are taking in the administration of their own affairs is a matter for congratulation both to themselves and to the Political Agent. The creation of the post of Political Agent has in itself undoubtedly stimulated the development of the States; but to Mr Cobden Ramsay's personal qualities and to the cordial relationship he has established between himself and the Chiefs is due much of the improvement which has been effected The Lieutenant Governor desires also specially to acknowledge the intelligent and sympathetic interest which Mr. Duke took in the affairs of the States, and the effective help he gave as Commissioner in carrying out the policy of the Government

ORDER —Ordered that a copy of the Resolution be forwarded to the Commissioner of the Orissa Division and to the Commissioner of the Chota Nagpur Division, for information and guidance

Ordered, also, that a copy of the Resolution, together with three copies of each of the Reports, be submitted to the Government of India in the Foreign Department for information

Ordered, also, that the Resolution be published in the *Calcutta Gazette*

The replies to the above

THE Lieutenant-Governor has been advised that the constitution of an Advisory Board on Fisheries would be beneficial for two reasons Not only will the members be able to assist and advise the officer in charge of the enquiry into fisheries in Bengal but the fact that they are associated with it may be expected to stimulate their interest in the subject and induce them to give practical help by carrying out pisciculture experiments on their own account

2 It has been proposed that the Board should consist of both official and non official members, the latter representing the six Divisions of Bengal, one for each Division, the Bengal Chamber of Commerce, the National Chamber of Commerce, the Commissioners of the Port of Calcutta, the Bihar Landholders' Association and the British Indian Association The Commissioners of Divisions and Associations concerned have been consulted, and His Honour is glad to see from the replies received that the proposals have been generally approved

3 The Lieutenant-Governor is accordingly pleased to sanction the constitution of the Board as follows —

I Officials—

1 The Member of the Board of Revenue in charge of Section I—*President*
2 The Commissioner of Fisheries
3 Lieutenant E W Petley, R N, C I E, Deputy Conservator of the Port of Calcutta
4 The Director of Agriculture
5 Dr N Annandale, B A, D SC, Extra Assistant Superintendent, Natural History Section, Indian Museum
6 Captain R E Lloyd, I M S.

II Non-officials—

7 Maharaja-Dhiraj Bijay Chand Mahtab Bahadur of Burdwan — Nominated by His Honour the Lieutenant-Governor
8 The Hon'ble Maharaja Sir Rameswar Singh Bahadur of Darbhanga — Nominated by His Honour the Lieutenant-Governor
9 Sir Daniel Hamilton, Kt — Nominated by His Honour the Lieutenant-Governor
10 Babu Rishee Case Law—Nominated by the Bengal National Chamber of Commerce
11 Mr Norman McLeod of Messrs McLeod & Co —Nominated by Bengal Chamber of Commerce
12 The Hon'ble Babu Radha Charan Pal -Nominated by the British Indian Association
13 Mr P R Cadell, I C S, Collector of Customs—Nominated by the Port Commissioners, Calcutta
14 Babu Chandra Sekhar Prasad Singh, Honorary Secretary of the Bihar Landholders' Association—Nominated by the Bihar Landholders' Association

Nominees of the Commissioners of Divisions

15 Babu Rajendra Narain Bhup, proprietor of Kanika in Cuttack—Orissa Division

16 Maharaja Sir Prodyot Kumar Tagore, Kt—Presidency Division

17 Lieutenant Colonel F R Swaine, I M S (retired)—Chota Nagpur Division

18 Maulvi Syed Zahiruddin, Zamindar, Vice-Chairman, Patna District Board, and Honorary Magistrate—Patna Division

19 Babu Shiba Nandan Prasad Singh, son of Rai Kamaleswari Prasad Singh Bahadur of Monghyr—Bhagalpur Division

20 Raja Peary Mohan Mukerji, C S I Utterpara—Burdwan Division

21 Assistant to the Commissioner of Fisheries—*Secretary*

4 The functions of the Board will be advisory In all purely administrative details of minor importance (such as the establishment of hatcheries and of research and observation stations), the Commissioner of Fisheries will be generally free to act for himself, though the advice of the members of the Board, individually or collectively, will be of value All important operations however, whether administrative or experimental, should be submitted for the opinion of the Board, and no measures in which a general principle is involved, such as protective measures for the prescription of close seasons, regulation of implements of capture, &c, should be undertaken without its approval The members will, Sir Andrew Fraser hopes, be of great help in explaining both to landholders and to fishermen and others the object of the measures and in disarming their opposition, perhaps also in securing their co-operation

5 The Board will meet whenever necessity arises, but ordinarily not oftener than once a month, not less than once a quarter The place and time of meeting will be settled by the President of the Board and duly communicated to the members

ORDER—Ordered that this Resolution be published in the *Calcutta Gazette* for general information and that a copy be communicated to each member of the Board for information

PRELIMINARY FORECAST OF THE LATE VARIETY OF THE SESAMUM (*TIL*) CROP OF BENGAL FOR THE YEAR 1908

THE following note is published for general information.

F W DUKE,
Offg Chief Secy to the Govt of Bengal

The 30th October 1908

DEPARTMENT OF AGRICULTURE, BENGAL

PRELIMINARY FORECAST OF THE LATE VARIETY OF THE SESAMUM (*til*) CROP OF BENGAL FOR THE YEAR 1908

(On an average of the five years ending 1906 07, the area under *til* in the territory to which this forecast relates has represented some 5 9 per cent of the total area under this crop in British India)

Explanatory —Under recent orders of the Government of India, four forecasts of the Sesamum crop are to be issued in future This forecast deals with the preliminary estimates of the area and outturn of the late variety of the crop

Character of the season —The crop is most important in Sambalpur It is also largely grown in Palamau, Khulna, the Sonthal Parganas and Nadia Climatic conditions have proved to be generally favourable, and prospects of the crop at present are reported to be good on the whole In parts of the Sonthal Parganas, however, there was want of moisture and prospects are accordingly not quite promising Some damage is reported from heavy rain in Bankura and from floods in the *diara* lands of Shahabad The dates of sowing were generally normal

Area sown.—The total area under the crop for this year amounts to 126,100 acres against 132,200 acres reported to have been sown last year. The total normal area is estimated at 181,000 acres. The decrease in the area this year is due to want of moisture during the sowing season.

Outturn.—According to the estimates now furnished by District Officers, the total outturn of the Province works out to 86 per cent. of the normal against 41 per cent., the corresponding figure for last year.

CALCUTTA,
The 16th October 1908.

The mean pressure, temperature, etc , are deduced from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

The mean pressure, temperature, etc, are deduced from the traces of the Kundsen's Barograph and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

It should be understood that value will be given to notes intelligently based on annotated editions of the Criminal Procedure Code, Penal Code, Evidence Act on Woodman's Digest, and recognised text-books

2 The District Magistrate will forward these records to the Legal Remembrancer, who will, at any time before the date fixed for the Departmental examination, send a statement of his opinion thereon to the Central Examination Committee for consideration and submission to Government with the result of each half-yearly examination.

3 If, in the opinion of the Legal Remembrancer, an officer has once prepared the record satisfactorily, he will not be required to do so again, even although he may not be adjudged to have passed in Law

B—Rules for the Training of Probationers

The following rules are intended to apply to probationers of the Provincial Executive Service and of the Subordinate Civil Service --

1 Probationers shall, during the year of their probationary service, be trained so as to get as much experience as possible in Magisterial and Revenue Courts with a view to acquire a knowledge of official routine During this period they should study the Codes and the Acts to enable them to go up as soon as possible for their Departmental examination, when appointed substantively *pro tempore* They will not be allowed to offer themselves for the examination prescribed for permanent officers until they have passed their period of probation

2 The training should be arranged with reference to the work in the office to which the officer is attached He will be trained in the Magisterial Department for three months and in the Revenue Department, including (1) Tauzi and Government Estates, (2) Land Registration, (3) English Office, (4) Munshikhana Registers, (5) Certificates, (6) Record-room, (7) Cess and Revaluation, (8) Nizarat, (9) Excise and Income-tax, (10) Treasury, for nine months

The amount of time spent in each Revenue Department will depend on the amount of work in that Department of the particular office to which the probationer is posted

3 Probationers should not, during their year of training, take up Partition, Survey and Settlement, or Land Acquisition work These Departments form the subject of special training

4 The Collector should have a register prepared showing, with reference to the work in his office, the amount of time a probationer will spend in the different departments

Training in Magisterial work

5 Probationers should attend the Court of a first-class Magistrate selected by the District Magistrate during the trial of criminal cases They should be required to prepare a full, complete and careful record of the depositions of the witnesses and a concise summary of the evidence given They should also be required to take notes of the arguments of the pleaders and discuss the application of the law to the facts of the cases reported by them, and to write a decision This should be done in at least six defended cases

6 The records of the cases should be submitted by the probationer to the trying Magistrate, who should examine them with a view to see that they are being intelligently prepared He should point out any obvious mistakes The records should also be occasionally examined by the District Magistrate or the Joint-Magistrate

7 Probationers should be deputed to examine the various registers kept in the Criminal Courts and to submit inspection reports according to the Inspection Manual They should also inspect the record-room and other Departments of the Magistrate's office according to the Manual The inspection note should be submitted through the Deputy Magistrate in charge to the Magistrate

Probationers might also be deputed for miscellaneous inquiries in regard to criminal cases when the inspection of a locality or other matter is important, and they might be examined in Court as to their reports They might also conduct inquiries in chaukidari or other simple matters

Training in Revenue Work

8 Probationers should not be required to work as clerks or to write up registers, they should, however prepare notes or *précis* of cases and draft letters They should see all the papers which go up to the Deputy Collector, and the Deputy Collector should utilize their services in any way that he can in connection with the cases The Deputy Collector should at the same time see that the probationer makes himself acquainted with the law and rules on the subject, and should from time to time require him to prepare a note explaining the procedure or the reason for any action taken in a particular case In departments the work of which involves the keeping of accounts or registers probationers should check and initial entries made in registers, check the accounts, and examine the preparation of returns They should also inspect each department according to the Inspection Manual, and the Collector might utilize their notes of inspection for his own inspections They should also attend inspections by the Senior Officers

9 At the end of the probationary period in any department, or under any Deputy Collector, the Deputy Collector should record a note in the register referred to in rule 4, stating how the probationer has attended to his duties and a general opinion of his industry and ability This should be shown to the Collector

10 Probationers should keep a diary and record briefly the work done by them day by day The diary should be submitted to the Deputy Collector under whom they are working for the time, and should be seen by the Collector
